

200L IBC Fully Automatic Multi-Functional Opening, Filling And Capping Production Line (Visual Positioning)

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: ISO9001
- Model Number: SG200IBC-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/A, D/P
- Supply Ability: 10per year

Product Specification

- Product Name: 200L IBC Fully Automatic Multi-functional Opening, Filling And Capping Production Line (visual Positioning)
- Function: Filling And Capping
- Suitable For: Various Liquids
- Accuracy: Precise
- Capacity: High
- Speed: Fast
- Voltage: 220V
- Type: Automatic
- Highlight: automatic filling and capping machine, 1000ml automatic filling and capping machine, 1000ml Filling And Capping Production Line

Product Description

200L IBC fully automatic multi-functional opening, filling and capping production line

This machine is an intelligent packaging system specially designed for liquid packaging of 200L barrels (including pallets) and IBC ton barrels in explosion-proof environments. It adopts visual port finding and can realize automatic opening, automatic diving, and automatic opening of 200L barrels (including pallets). Full-process automated packaging such as automatic fast and full-speed filling, automatic leakage catching, and automatic capping.

Technical Parameters:

Filling accuracy	±400g	
filling capacity	(Pallet type)200L,(IBC)1000L	
production capacity	200L	20-30bucket/hour
	IBC	6-10bucket/hour
Barrel storage location	200L	108set
	IBC	108set(Determine according to actual situation)
Scope of application	Chemical raw materials, intermediate materials, silicone oil, etc.	
Overflow pipe valve components	S304 stainless steel, PTFE gaskets and seals	
Filling gun head	1 set (multiple sets, automatic switching of gun heads)	
filling mode	Liquid top and bottom filling	
Weighing range	0-1500kg	
Filling accuracy	±400g	
Container dimensions	1200x1200x150(Customized according to customer samples)	
Graduation value	50g	

Function:

- Instant working status indication and clock display
- Digital set input weight, multiple formulations stored
- Tare weight detection start a full range of bucket filling
- Gross/net weight (automatic peeling per barrel) filling method
- Automatic zero tracking, bucket quantity and weight accumulation
- Start automatically reset, power protection device
- Emergency stop protection device
- The factory settings can be restored by wrong operation
- With fault detection function, easy maintenance
- Flexible movement, explosion-proof configuration, simple operation
- Weight error automatic correction

Application:

The equipment is suitable for chemical, ink, coating and lubricating oil industries

Features:

Explosion-proof filling machine, the character designs, one operator, put the barrel location can be adjusted according to workers operation habit to filling, roller conveyor, filling height is adjustable, suitable for barrel type, square barrels, barrels and all kinds of cans and barrel mouth filling the liquid, a variety of discharging mode set, meet customer multi-usage, many kinds of filling, mobility, and guarantee the fast speed filling accuracy, good stability, Reduce wastage, save cost and reduce operating pressure of workers.

WHY CHOOSE US

We are a professional coating filling machine manufacturer.

The company has set up a product research and development center.

We guarantee the high quality of our products.

The company has professional and technical personnel to solve your problems.
