

Lube Oil Filling Machine Stainless Steel Powder Granulator Series For Benefit Of Productio

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Features: High Efficiency, Easy Operation, Low Noise
- Model: PGS
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Warranty: 1 Year
- Power: 5-30 KW
- Weight: 500-1000kg
- Material: Stainless Steel
- Moisture Content Of Raw Material: ≤15%
- Highlight: Stainless Steel Powder Granulator Series, Stainless Steel Powder Granulator, Lube Oil Filling Machine

Product Description

Lube Oil Filling Machine Stainless Steel Powder Granulator Series For Benefit Of Productio

Product Description:

The PGS model of our Powder Granulator Series is designed to granulate powders with a granulation rate of at least 95%. This means that you can feel confident in the quality of the final product, no matter what kind of powder you are working with. Our Powder Granulator Series is ideal for a wide range of industries, including pharmaceuticals, food processing, and chemical manufacturing. With its durable construction and reliable performance, this granulation equipment for powders is a must-have for anyone looking to streamline their powder processing operations.

Whether you are looking to create granules for use in tablets, capsules, or other products, our Powder Granulator Series is the perfect solution. With its high granulation rate and precision design, you can trust that your final product will meet all of your quality standards.

Technical Parameters:

Technical Parameters	Specifications
Product Name	Powder Spheroidization Granulator
Power	5-30 KW
Granulation Rate	≥95%
Particle Size of Finished Product	0.5-3mm
Application	Pharmaceutical, Chemical, Food, and Other Industries
Capacity	1-10 Tons/hour
Warranty	1 Year
Voltage	380V
Features	High Efficiency, Easy Operation, Low Noise
Material	Stainless Steel
Frequency	50Hz
Product Type	Powder Processing Granulator, Powder Agglomeration Equipment

Applications:

The Powder granulator series product is widely used in the pharmaceutical, food, and chemical industries. The Powder encapsulation machine is used in the pharmaceutical industry to produce high-quality capsules. The Powder granulating machine series is used in the food industry to produce granules of various sizes for different food products. The Powder granulating machine series is also used in the chemical industry for the production of fertilizers and other chemical products.

The Particle Size Of Finished Product of the Powder granulator series product is 0.5-3mm, which makes it suitable for a variety of applications. The Powder granulator series product is ideal for granulating powder materials with a Moisture Content Of Raw Material of $\leq 15\%$. Its high efficiency ensures that the production process is completed quickly, while its low noise feature makes it suitable for use in quiet environments.

The Powder granulator series product is suitable for use in various occasions and scenarios. It is ideal for use in large-scale production facilities where high-quality granules are required. The Powder granulator series product can also be used in small-scale production facilities for research and development purposes. Its easy operation feature makes it ideal for use by both experienced and inexperienced operators.

In conclusion, the Powder granulator series product is a versatile machine that is suitable for use in various industries. Its high efficiency, easy operation, and low noise features make it an excellent choice for large-scale and small-scale production facilities. Whether you are in the pharmaceutical, food, or chemical industries, the Powder granulator series product is an excellent investment that will improve your production process.

Support and Services:

The powder granulator series is a line of products designed to efficiently and effectively granulate a variety of powders. Our technical support team is available to help troubleshoot any issues that may arise during the installation or operation of the granulators.

Additionally, we offer a range of services to ensure that your granulator is always running at peak performance, including regular maintenance, repair, and replacement of parts. Contact us to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

- All powder granulator series products are carefully packed in sturdy cardboard boxes to ensure safe transport.
- The boxes are labeled clearly with product information and handling instructions.

Shipping:

- We offer worldwide shipping for all powder granulator series products.
- Shipping costs will vary depending on the destination and the weight of the product.
- We work with reliable shipping partners to ensure timely and secure delivery of your order.
- Upon shipment, we will provide you with a tracking number so you can monitor the status of your delivery.

FAQ:

Q: What is the capacity of the 25L plastic square barrel filling production line?

A: The 25L plastic square barrel filling production line has a maximum capacity of 2000 barrels per hour.

Q: Can the machine be customized to fill other sizes of barrels?

A: Yes, the machine can be customized to fill barrels of different sizes based on customer requirements.

Q: What is the power requirement for the machine?

A: The power requirement for the machine is 380V, 50Hz, 3-phase.

Q: What is the warranty period for the machine?

A: The warranty period for the machine is 12 months from the date of shipment.

Q: What is the delivery time for the 25L plastic square barrel filling production line?

A: The delivery time for the 25L plastic square barrel filling production line is typically 45-60 days from the date of order confirmation.
