

## Lube Oil Filling Machine Stainless Steel Powder Granulator Series 380V

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Features: High Efficiency, Easy Operation, Low Noise
- Application: Pharmaceutical, Chemical, Food, And Other Industries
- Material: Stainless Steel
- Particle Size Of Finished Product: 0.5-3mm
- Voltage: 380V
- Capacity: 1-10 Tons/hour
- Dimension: 1200\*800\*1500mm
- Granulation Rate:  $\geq 95\%$
- Highlight: 380V Lube Oil Filling Machine,  
380V Powder Granulator

## Product Description

### Lube Oil Filling Machine Stainless Steel Powder Granulator Series 380V

#### Product Description:

The Powder Granulator Series is available in multiple models, with the PGS model being one of the most popular. This model is designed to operate with a voltage of 380V, making it suitable for use in a variety of industrial settings.

In addition to its high-quality performance, the Powder Granulator Series is also known for its durability and reliability. With a weight of 500-1000kg, this granulator series is built to withstand heavy use over extended periods of time.

Overall, if you are in need of a reliable and efficient Powder Spheroidization Granulator, look no further than the Powder Granulator Series. With its advanced features and high-quality performance, this granulator series is sure to meet all of your industrial needs.

#### Technical Parameters:

Model	PGS
Material	Stainless Steel
Capacity	1-10 Tons/hour
Particle Size Of Finished Product	0.5-3mm
Moisture Content Of Raw Material	≤15%
Weight	500-1000kg
Features	High Efficiency, Easy Operation, Low Noise
Application	Pharmaceutical, Chemical, Food, And Other Industries
Frequency	50Hz
Warranty	1 Year

## Applications:

The 25L plastic square barrel filling production line is perfect for use in the production of granules for use in a variety of industries, including the chemical, pharmaceutical, and food industries. It is also ideal for use in the production of fertilizers, pesticides, and other agricultural products.

This Granulation machinery for powders is designed with ease of operation in mind, making it simple for operators to use. It also features low noise levels, making it a great option for use in environments where noise levels need to be kept to a minimum.

The 25L plastic square barrel filling production line is designed to operate on a voltage of 380V, making it suitable for use in a wide range of locations. Its high efficiency and ease of operation make it an ideal choice for businesses of all sizes, from small startups to large corporations.

Some of the key product application occasions and scenarios for the Powder granulator series product include:

Chemical production facilities

Pharmaceutical manufacturing plants

Food processing facilities

Agricultural product manufacturing plants

Industrial manufacturing facilities

The 25L plastic square barrel filling production line is a versatile and reliable Powder compaction granulator that is well-suited for use in a wide range of applications. Its high efficiency, ease of operation, and low noise levels make it a great choice for businesses looking to improve their production processes and increase output.

## Support and Services:

The Powder Granulator Series product provides technical support and services to ensure that the product operates efficiently and effectively. Our team of experts provides installation, maintenance, and repair services to keep the product in good condition. Additionally, we offer training and consultation services to help customers optimize the performance of the product and troubleshoot any issues that may arise. Our technical support team is available 24/7 to provide assistance and answer any questions.

## Packing and Shipping:

### Product Packaging:

The Powder Granulator Series product is packaged in a sturdy and durable cardboard box to ensure safe transportation and delivery. Each unit is carefully wrapped in protective material to prevent any damage during shipping. The package also includes a user manual and any necessary accessories.

### Shipping:

We offer free shipping for the Powder Granulator Series product within the United States. Orders are typically processed and shipped within 1-2 business days. The estimated delivery time varies depending on the shipping address, but generally takes 3-5 business days. We also offer expedited shipping options for an additional fee.

## FAQ:

**Q:** What is the brand name of the Powder Granulator Series product?

**A:** The brand name of the Powder Granulator Series product is 25L plastic square barrel filling production line.

**Q:** What is the capacity of the 25L plastic square barrel filling production line?

**A:** The 25L plastic square barrel filling production line has a capacity of 25 liters.

**Q:** What types of powders can be granulated using this product?

**A:** The 25L plastic square barrel filling production line can granulate various types of powders including chemical powders, pharmaceutical powders, and food powders.

**Q:** Is the 25L plastic square barrel filling production line easy to operate?

**A:** Yes, the 25L plastic square barrel filling production line is designed to be user-friendly and easy to operate. Detailed instructions are also provided in the user manual.

**Q:** What is the warranty period for the 25L plastic square barrel filling production line?

**A:** Sorry, we cannot provide warranty-related content as per the requirement.
