

Automated Steel Palletizer Pulverizer Machine Parts Grinding Pulverizer Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SGPT
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/P, D/A, L/C
- Supply Ability: 10per year

Product Specification

- Product Name: Automated Steel Palletizer Pulverizer Machine Parts Grinding Pulverizer Machine
- Pallet Size: Standard And Custom Sizes Available
- Installation: On-site Installation And Training Provided
- Power Supply: 220V/380V, 50/60Hz
- Control System: PLC Control With Touch Screen Interface
- Type: Palletizer
- Application: Packaging Industry
- Product Type: Automated Palletizing System
- Highlight: **Automated palletizer machine, Packaging Industry palletizer machine, 60Hz pulverizer machine**

Product Description

Automated Steel Palletizer pulverizer machine parts grinding pulverizer machine

Product Description:

One of the key features of this Palletizer is its ability to handle a wide range of load sizes. Depending on the model you choose, this Pallet Loading Machine can handle loads weighing anywhere from a few pounds to several hundred pounds. This makes it an ideal choice for businesses that need to package a variety of different products in different quantities.

Another key feature of this Palletizer is its sturdy construction. Made from high-quality steel, this Pallet Packaging System is built to last, even under heavy use. It can withstand the wear and tear of daily use in a busy warehouse or manufacturing facility, ensuring that you get the most out of your investment.

In addition, this Pallet Loading Machine is equipped with a range of safety features to help protect workers and prevent accidents. These safety features include an emergency stop button and safety sensors that can detect when someone or something is in the way of the machine. This helps to ensure that workers can operate the machine safely, without fear of injury or accidents.

When it comes to power, this Palletizer runs on 380V voltage, making it compatible with a wide range of electrical systems. It is designed to be easy to operate and maintain, with intuitive controls that make it easy for workers to learn how to use the machine quickly and effectively.

Whether you are looking to improve the efficiency of your packaging operations or simply need a reliable Pallet Packaging System to handle your products, the Palletizer is an excellent choice. With its sturdy construction, versatile capabilities, and advanced safety features, this Pallet Loading Machine is sure to meet your needs and exceed your expectations.

Product parameters

Applicable Products	Iron bucket, plastic bucket	Barrel size	≤Φ310mm*400mm
Palletizing height	≤2000mm	Palletizing speed	≤2-10PCS/min
Power	AC380/220 50HZ	Gas source	0.6MPa
Applicable pallets(mm)	L1200*W1200	Overall machine size(mm)	L2100*W2700*H3200

Applications:

Our Palletizer is perfect for a variety of Pallet Packaging System scenarios. You can use it to automate your palletizing process and improve efficiency in your warehouse. Our Palletizer is also perfect for minimizing product damage during palletizing and reducing the risk of workplace injuries from manual palletizing. With our Palletizer, you can increase your production output while reducing costs.

Our Column type robot palletizer is designed with a sleek yellow color and is in new condition, ensuring it will look great in your warehouse. It is easy to operate and maintain, making it a great investment for any business looking to improve their palletizing process. So whether you are in the food and beverage industry, manufacturing, or any industry that requires palletizing, our Palletizer is the perfect solution. With its high capacity and customizable dimensions, it can handle a range of product sizes and shapes. Say goodbye to manual palletizing and hello to increased efficiency and productivity with our Column type robot palletizer.

Customization:

Customize your palletizer to fit your specific needs with our product customization services. Our column type robot palletizer is CE certified and can be customized to your desired dimensions. Safety features include an emergency stop button and safety sensors to ensure safe operation. Our palletizer is an automated palletizing machine designed to streamline the palletized loading process, making it

faster and more efficient. The machine is yellow in color and is a type of palletizer, also known as a pallet loading machine. Contact us to learn more about our product customization services.

Support and Services:

Our Palletizer product comes with comprehensive technical support and services to ensure smooth operation and maximum uptime. Our team of experienced technicians is available for 24/7 technical support, troubleshooting, and maintenance services. We also offer operator training, installation, and commissioning services to help you get the most out of your Palletizer investment.

Our technical support and services include:

24/7 technical support

On-site troubleshooting and maintenance

Remote diagnostics and repairs

Training for operators and maintenance personnel

Installation and commissioning services

Customized maintenance and service agreements

With our technical support and services, you can rest assured that your Palletizer will operate reliably and efficiently, minimizing downtime and maximizing productivity.

WHY CHOOSE US

We are a professional coating filling machine manufacturer.

The company has set up a product research and development center.

We guarantee the high quality of our products.

The company has professional and technical personnel to solve your problems.

MAIN PRODUCTS

FAQ:

Q: What is a Column type robot palletizer?

A: A Column type robot palletizer is a machine that automatically stack boxes or bags onto pallets. The machine has a robotic arm that picks up the boxes or bags and places them onto the pallet in a specific pattern.

Q: What are the advantages of using a Column type robot palletizer?

A: The advantages of using a Column type robot palletizer include increased efficiency, reduced labor costs, improved safety, and consistent pallet stacking.

Q: What is the maximum weight capacity of the Column type robot palletizer?

A: The maximum weight capacity of the Column type robot palletizer is 1000kg.

Q: Is the Column type robot palletizer CE certified?

A: Yes, the Column type robot palletizer is CE certified, meaning it meets the safety, health, and environmental protection requirements of the European Union.

Q: Can the Column type robot palletizer be customized to meet specific stacking requirements?

A: Yes, the Column type robot palletizer can be customized to meet specific stacking requirements such as different box or bag sizes, pallet dimensions, and stacking patterns.
