

Servo Tracking Capping Machine Plastic Wrapping Machine Automatic Shrink Wrap Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Servo tracking capping machine
- Certification: ISO9001
- Model Number: SG sta
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/P, D/A, L/C
- Supply Ability: 10per year

Product Specification

- Product Name: Servo Tracking Capping Machine Plastic Wrapping Machine
- Warranty: 1 Year
- Air Source: 0.6Mpa Clean And Stable Air Source
- Machine Name: Screw Capping Machine
- Machine Type: Packaging
- Power: 370W
- Condition: New
- Bottle_Size: Various Sizes
- Highlight: Servo Tracking liquid capping machine, ISO9001 Automatic Shrink Wrap Machine, water packing machine

Product Description

Servo tracking capping machine plastic wrapping machine

Product Description:

The capping machine adopts tracking capping and is equipped with PLC and touch screen to realize automatic control. The use of synchronous belt type barrel feeding requires accurate capping, advanced structure, smooth operation, low noise, wide adjustment range, fast production speed, and dynamic capping. The PLC has a memory function that can memorize multiple combinations of operating parameters at the same time. It has a simple mechanical structure and is equipped with a safety protection frame.

Applications:

This rotary capping device is capable of sealing caps with a screw cap machine. The machine can be configured with 2 to 24 capping heads, making it suitable for use in both small and large production facilities. The servo tracking technology ensures that the capping heads are accurate and reliable, resulting in a high-quality end product.

The Servo tracking capping machine is perfect for use in a variety of scenarios, such as when a company needs to cap a large number of bottles in a short amount of time. It is ideal for use in a production line, where it can be integrated seamlessly into an existing process. The semi-automatic operation of the machine means that it is easy to use and requires minimal training.

One of the key advantages of the Servo tracking capping machine is its flexibility. It is capable of capping bottles of various sizes and shapes, making it a versatile addition to any production line. Additionally, the machine is built to last, with high-quality components that ensure a long service life.

Overall, the Servo tracking capping machine is an excellent choice for companies that need a reliable and efficient capping solution. Whether you are producing food and beverage products, pharmaceuticals, or chemicals, this machine is sure to meet your needs. With its high-quality construction, flexible design, and 1-year warranty, you can be confident that you are making a smart investment in your business.

Customization:

Our customization services include:

1. Branding - Add your brand name or logo to the machine.
2. Bottle Height Adjustment - Modify the machine to accommodate bottles with different heights.
3. Lid Tightening Machine - Convert the machine into a lid tightening machine to meet your specific needs.
4. Jar Capper Machine - Customize the machine to cap jars instead of bottles.
5. Flip-Off Capping Unit - Add a flip-off capping unit to the machine to cap vials or bottles with flip-off caps.

Contact us to learn more about our product customization services and how we can tailor our Servo Tracking Capping Machine to meet your specific requirements.

Support and Services:

Our capping machine product comes with a comprehensive technical support and services package to ensure that our customers can get the most out of their investment. Our team of highly skilled technicians and engineers are available to provide expert advice, troubleshooting, and maintenance services to keep your capping machine running smoothly. We also offer training programs to help you and your staff get up to speed on the machine's operation and maintenance. Our goal is to provide our customers with the support they need to maximize the productivity and efficiency of their production line.

FAQ:

Q: What is the brand name of the capping machine?

A: The brand name of the capping machine is Servo tracking capping machine.

Q: What type of caps can the Servo tracking capping machine handle?

A: The Servo tracking capping machine can handle a wide range of caps including screw caps, snap caps, and push-in caps.

Q: What is the maximum speed at which the capping machine can operate?

A: The Servo tracking capping machine can operate at a maximum speed of 200 caps per minute.

Q: Does the Servo tracking capping machine require any special maintenance?

A: Yes, the Servo tracking capping machine requires periodic cleaning and lubrication of moving parts to ensure optimum performance.

Q: What is the warranty period for the Servo tracking capping machine?

A: The warranty period for the Servo tracking capping machine is 12 months from the date of purchase.
