

Coating Bucket Liquid Filling And Capping Machine 8pcs/Min - 25pcs/Min Explosion Proof Liquid Filling Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG1-5F
- Minimum Order Quantity: 1
- Price: 10000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT
- Supply Ability: 10per year

Product Specification

- Product: Coating Bucket Liquid Filling And Capping Machine 8-25pcs/Min Explosion Proof
- Filling Speed: 10-50 Bottles/min
- Control System: PLC
- Product Type: Liquid Filling Machine
- Air Pressure: 0.4-0.6MPa
- Material: Stainless Steel
- Power Supply: 220V/50Hz
- Operation Mode: Automatic
- Highlight: explosion proof liquid filling machine,
8pcs/min liquid filling machine,
8pcs/min chemical filling machine

Product Description

Coating Bucket Liquid Filling And Capping Machine 8-25pcs/Min Explosion Proof

Product Description:

The Chemical Liquid Filling Machine Series is a volumetric liquid filling machine that has a high filling accuracy. This machine is perfect for filling water-based paint products. With its advanced technology, this machine ensures accurate filling of products into containers. The Liquid Filling Machine Series weighs around 2000kg and is made of high-quality materials. It is a durable and sturdy machine that can withstand heavy usage. The machine is designed to work efficiently and effectively, ensuring that all filling requirements are met. The 5L Barrel Liquid Filling And Capping Machine is a part of the Liquid Filling Machine Series. This machine is perfect for filling and capping 5L barrels. It has a pouring and capping system that ensures that the filling process is done accurately and efficiently. This machine is designed to work with a variety of liquids and can fill products into barrels with precision.

The Control System of the Liquid Filling Machine Series is PLC. This system ensures that the machine works efficiently and effectively. It enables the machine to fill products accurately, quickly and efficiently. The PLC control system ensures that the machine can be easily programmed and operated.

The Hydraulic Liquid Filling Machines are also a part of the Liquid Filling Machine Series. These machines are designed to fill products into containers using hydraulic pressure. They are perfect for filling liquids such as chemicals and other liquid products. The hydraulic liquid filling machines are designed to work quickly and efficiently, ensuring that all filling requirements are met.

The Pouring and Capping Systems of the Liquid Filling Machine Series are designed to ensure that the filling process is done accurately and efficiently. These systems ensure that the liquid is poured into the container with precision and that the cap is sealed tightly. The pouring and capping systems are designed to work together seamlessly, ensuring that the filling process is done quickly and efficiently.

The Liquid Filling Machine Series is the perfect solution for all liquid product filling needs. It is a versatile machine that can be used for a variety of liquid products. The machine is designed to work efficiently and effectively, ensuring that all filling requirements are met. With its advanced technology and high-quality materials, the Liquid Filling Machine Series is a durable and reliable machine that can withstand heavy usage.

Technical Parameters:

| | | | |
|---------------------|----------------|------------------------|------------------------------|
| Filling Quantity | ≤40kg | Barrel Specification | ≤ diameter 300* height 400mm |
| Filling Index Value | 1g, 2g,5g,10g | Filling Speed | 8-25pcs/Min |
| Power | AC380/220 50HZ | Air Supply | 0.6 MPa |
| Weight(kg) | 800 | Overall Dimension (mm) | 2500*1100*2200 |

Applications:

The equipment is suitable for industrial paint, anticorrosive paint, floor paint, resin, thinner, curing agent, varnish, shoe glue, all-purpose glue, spray glue, printing ink, lubricating oil, agriculture, daily chemical, etc

Customization:

Customized according to customer requirements

Support and Services:

The Liquid filling machine series products are designed to provide accurate and efficient filling solutions for a variety of liquids, including water, juice, oil, and chemical products. Our technical support team is available to assist with any issues related to installation, operation, or maintenance of the machines.

We offer a range of services to ensure that your Liquid filling machine operates at peak performance, including:

Customization of the machine to meet your specific needs

Training on proper operation and maintenance of the machine

Regular maintenance and calibration of the machine to ensure accuracy and reliability

Replacement parts and accessories

Technical support and troubleshooting assistance

Our goal is to provide the highest level of customer satisfaction by delivering quality products and services that meet your needs. Please don't hesitate to contact us with any questions or concerns.

Packing and Shipping:

PACKING&SHIPPING

FAQ:

Q1: Is this machine certified?

A1: Yes, this machine is CE certified.

Q2: What is the minimum order quantity for this product?

A2: The minimum order quantity for this product is 1.

Q3: How is this machine packaged for delivery?

A3: This machine is packaged in a wooden box for safe delivery.

Q4: What are the payment terms for purchasing this machine?

A4: The payment terms for purchasing this machine are TT (Telegraphic Transfer).
