

1 Head Gland Liquid Filling Machine Filling And Capping Machine Waterproof Filler Glue Filling Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SG
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 10000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT
- Supply Ability: 10per year

Product Specification

- Product: 1 Head Gland Liquid Filling And Capping Machine Waterproof Filler Glue Filling Machine
- Bottle Type: Round/Square/Flat
- Power Supply: 220V/50Hz
- Air Consumption: 0.6m³/min
- Material: Stainless Steel
- Air Pressure: 0.4-0.6MPa
- Filling Type: Liquid
- Hmi: Touch Screen
- Highlight: liquid filling machine filling and capping, waterproof liquid filling machine, waterproof chemical filling machine

Product Description

1 Head Gland Liquid Filling And Capping Machine Waterproof Filler Glue Filling Machine

Product Description:

The Liquid Filling Machine Series is powered by a 220V/50Hz power supply, which ensures that the machine is energy-efficient and can be used in different countries around the world. This feature makes it an excellent choice for companies that have a global presence or plan to expand their markets.

This hydraulic liquid filling machine is specifically designed for liquid products and can handle a wide range of liquids, including water, juice, oil, and other similar products. The Liquid Filling Machine Series is perfect for companies that manufacture liquid products and require a filling machine that can handle different types of liquids.

The Liquid Filling Machine Series operates using air pressure, which ranges from 0.4-0.6MPa. This feature gives the machine the ability to fill liquid products at high speeds, making it an excellent choice for companies that have high-volume productions. With a fast filling speed, the Liquid Filling Machine Series can quickly fill bottles, jars, and other containers, making it an essential part of any production line.

The Liquid Filling Machine Series comes with a range of filling nozzles, including 4, 6, 8, and 12. This feature gives companies the flexibility to choose the filling nozzles that are suitable for their production needs. Whether you need a few filling nozzles or a dozen, the Liquid Filling Machine Series can handle your production needs.

This hydraulic liquid filling machine is also equipped with a pouring and capping system, which makes it easy to fill and seal bottles and jars. The system ensures that the liquid products are filled accurately and securely, reducing the chances of spills and leaks.

In summary, the Liquid Filling Machine Series is a reliable and efficient hydraulic liquid filling machine that is suitable for different production lines. With a range of filling nozzles, pouring and capping systems, and air pressure control, this machine can handle different types of liquid products and is an essential part of any production line that requires high-volume production.

Technical Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Applications:

The equipment is suitable for industrial paint, anticorrosive paint, floor paint, resin, thinner, curing agent, varnish, shoe glue, all-purpose glue, spray glue, printing ink, lubricating oil, agriculture, daily chemical, etc

Customization:

The filling accuracy of this hydraulic liquid filling machine series is unparalleled, making it perfect for water-based paint volumetric liquid

filling. With options for 4, 6, 8, or 12 filling nozzles, this machine can handle a variety of liquid up-filling jobs. The control system is powered by PLC, ensuring precision and accuracy in all operations. In addition to the pouring and capping systems, the 5L Barrel Liquid Filling And Capping Machine also has air pressure of 0.4-0.6MPa. This machine is the perfect choice for businesses looking for high-quality liquid filling machinery that can be tailored to their specific needs.

Support and Services:

The Liquid filling machine series product technical support and services include:

- Installation and setup assistance
- Troubleshooting and problem-solving
- Regular maintenance and calibration
- Replacement parts and repairs
- Training for operators and maintenance personnel
- Technical documentation and manuals
- Upgrades and customizations

Packing and Shipping:

PACKING&SHIPPING

FAQ:

Q: Is the product certified?

A: Yes, the product is certified with CE certification.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is the product packaged?

A: The product is packaged in a wooden box.

Q: What are the payment terms?

A: The payment terms for this product are TT.
