

PLC Controlled Liquid Filling Machine For Chemical Paint Volumetric Filling

Our Product Introduction

for more products please visit us on sg-packs.com

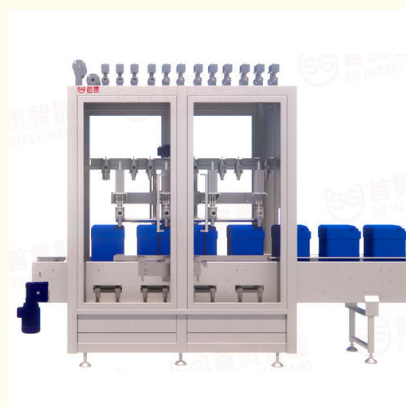

Basic Information

- Place of Origin: CHINA
- Brand Name: PLC Controlled Liquid Filling Machine For Chemical Paint Volumetric Filling
- Certification: CE
- Model Number: SG20F
- Minimum Order Quantity: 1
- Price: 10000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: TT
- Supply Ability: 10per year

Product Specification

- Product: PLC Controlled Liquid Filling Machine For Chemical Paint Volumetric Filling
- Control System: PLC
- Touch Screen: 7 Inch
- Power Supply: 220V/50Hz
- Suitable For: Liquid Products
- Filling Speed: 20-40 Bottles/min
- Air Pressure: 0.5-0.7Mpa
- Application: Food, Beverage, Chemical, Pharmaceutical
- Highlight: **controlled liquid filling machine, controlled chemical filling machine, chemical liquid filling machine**

Product Description

PLC Controlled Liquid Filling Machine For Chemical Paint Volumetric Filling

Product Description:

One of the main advantages of this series is its ability to handle a variety of liquid products, including water-based paints, chemicals, and other liquids. The hydraulic liquid filling machines in this series are designed to deliver high accuracy and speed, ensuring that each product is filled with the correct amount of liquid. The volumetric liquid filling machine is especially suitable for water-based paint filling, as it provides excellent accuracy and consistency.

In addition to its impressive filling capabilities, this series also includes pouring and capping systems, making it a complete solution for liquid product manufacturing. The pouring system delivers the liquid to the filling machine, while the capping system ensures that each product is securely sealed.

The Liquid Filling Machine Series is a high-performance product that can handle a variety of liquid products, making it ideal for use in a range of industries. With a weight of 2000kg, this series is built to last and can handle even the most demanding production environments. Whether you need to fill water-based paints, chemicals, or other liquids, the hydraulic liquid filling machines in this series are up to the task.

Technical Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Applications:

The 20L Barrel Liquid Filling And Capping Machine is a high-quality liquid up-filling machinery that is widely used in various industries. It is a CE-certified product that meets international standards for quality and safety. The minimum order quantity for this product is 1 and it comes in a wooden box packaging for safe transportation. Payment terms for this product are TT.

The 20L Barrel Liquid Filling And Capping Machine is specifically designed for chemical liquid filling and volumetric liquid filling. It has a filling accuracy that is unmatched by other liquid filling machines in its category. This makes it a reliable choice for businesses that require precision in their pouring and capping systems. The PLC control system ensures that the machine operates seamlessly and consistently.

The 5L Barrel Liquid Filling And Capping Machine is designed to handle water-based paint and other liquids. It is a versatile machine that can be used in a variety of product application occasions and scenarios. It is perfect for manufacturing plants, laboratories, and other businesses that require liquid up-filling machinery. With a weight of 2000kg, this machine is built to withstand heavy usage.

Overall, the 5L Barrel Liquid Filling And Capping Machine is a reliable and efficient liquid up-filling machinery that is perfect for businesses that require precision and consistency in their pouring and capping systems. Its versatility makes it ideal for a wide range of product application occasions and scenarios. Whether you are a small business owner or a large manufacturing plant, this machine is a great investment that will help you streamline your operations and increase your productivity.

Customization:

Can be customized according to customer requirements

Support and Services:

Our Liquid filling machine series product comes with comprehensive technical support and services to ensure efficient and hassle-free operations. Our team of experts provides installation, maintenance, and repair services to keep the machine in optimal condition.

We offer training sessions to help customers understand the functions and features of the machine, as well as troubleshoot common problems that may arise during operation. Our technical support team is available 24/7 to answer any questions and provide assistance remotely.

We also offer customization services to cater to specific needs and requirements. Our team can work with customers to design and develop a tailored solution that meets their unique needs.

Additionally, we provide spare parts and accessories to ensure that the machine is always in top condition. Our parts are manufactured to the highest standards and are designed to work seamlessly with the machine.

Packing and Shipping:

PACKING&SHIPPING

FAQ:

A: The brand name of the liquid filling machine series product is 5L Barrel Liquid Filling And Capping Machine.

Q: Is the product certified?

A: Yes, the product is certified with CE certification.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is the product packaged for shipping?

A: The product is packaged in a wooden box for shipping.

Q: What are the payment terms for the product?

A: The payment terms for the product are TT (telegraphic transfer).
