

Automatic Single Head Powder Auger Filling Machine SG-BF100 Automatic Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG-BF100
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

Product Specification

- Features: High Efficiency, Easy To Operate, Stable Performance
- Product Name: Automatic Single Head Powder Auger Filling Machine SG-BF100 Automatic Filling And Capping Machine
- Application: Bottled Liquid Products
- Capping Type: Screw Cap
- Operation: Fully Automatic
- Control System: PLC
- Power Supply: 220V/380V
- Filling Accuracy: $\pm 0.5\%$
- Material: Stainless Steel
- Highlight: fully automatic filling and capping machine, stainless steel filling and capping machine,

Product Description

Automatic Single Head Powder Auger Filling Machine SG-BF100 Automatic Filling And Capping Machine

Product Description:

The package type is beautiful and can be adapted to various occasions through adjustment

Microcomputer control, precise temperature control, small repetition error, can work continuously for a long time

High power click control material, can adjust the hopper plate, ensure opening and closing speed and precision

High power motor + turbine deceleration box + stepless speed regulation, super controllable power, 24 hours smooth operation

Stepper motor control film length, more stable and accurate control of packaging products

Product packaging printing automatic positioning, no dislocation

Technical Parameters:

Model: SG - BF100

Packing speed: 35-50 Bags/Min

Sealing form: three side seal, back seal

Bag size: L: 40-150mm W: 30-100mm

Power: 1.8KW /220V

Measuring range: 1-20g /2-50g/10-100g

Weight: 280 kg

Dimensions: 72*98*168cm

Scope of use: suitable for important powder, flavoring powder, coffee powder, flour, etc

Model	SG-BF100
Packing Speed	35-50 Bags/Min
Sealing form	three side seal, back seal
Bag size:	L:40-150mm W: 30-100mm
Voltage	220V/50Hz
Measuring range	1-20g /2-50g/10-100g
Scope of use	suitable for important powder, flavoring powder, coffee powder, flour, etc
Power	1.8 kw
Weight	280 kg
Package Size	72*98*168cm

Applications:

The Automatic Filling And Packing Machine is equipped with screw capping technology, which ensures that the product is sealed tightly. The air consumption of this machine is 0.5m³/min, and the air pressure required is 0.6-0.8MPa. The power supply for this machine is 220V/380V, 50Hz/60Hz, making it compatible with various power sources.

This Automatic Liquid Filling Machine is capable of filling volumes ranging from 50-1000ml, making it suitable for both small and large scale production. It can be used for filling liquids such as shampoo, lotion, juice, and other similar products. The machine is fully automatic, which means that it reduces the need for manual labor and increases the efficiency of the production line.

The product application occasions and scenarios for the 200L IBC fully automatic multi-functional opening, filling and capping production line are numerous. It can be used in pharmaceutical industries for filling medicines, in cosmetic industries for filling lotions and creams, and in the food and beverage industries for filling juices and other liquids. It can also be used in chemical industries for filling chemicals that require precise measurements.

In conclusion, the 200L IBC fully automatic multi-functional opening, filling and capping production line is a versatile product that can cater to the needs of various industries. Its high efficiency, precise measurements, and screw capping technology make it a reliable and efficient choice for any production line.

Customization:

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Capping Type: Screw Capping

Capping Diameter: 20-50mm

Filling Type: Piston Filling

Air Consumption: 0.5m³/min

Filling Volume: 50-1000ml

Make your Automatic Liquid Bottle Filling Machine unique with our product customization services. Contact us today to discuss your specific needs and requirements.

Support and Services:

The Fully automatic filling and capping machine is designed for high-speed and accurate filling and capping of various types of liquids, such as water, juice, and oil, into bottles or containers of different shapes and sizes. Our product features:

PLC control system for precise and stable operation

Touch screen interface for easy operation and monitoring

High-quality stainless steel construction for durability and hygiene

Accurate and fast filling with adjustable volume and speed

Automatic capping with various options, such as screw caps, snap caps, and pump caps

Optional features, such as labeling and coding systems

Our technical support and services include:

Installation and commissioning of the machine
Training for operators and maintenance personnel
Regular maintenance and inspection to ensure optimal performance and prevent breakdowns
Remote technical support and troubleshooting
Supply of spare parts and components
Upgrades and customization to meet specific requirements

Packing and Shipping:

PACKING&SHIPPING

FAQ:

Q: What is the brand name of the filling and capping machine?

A: The brand name of the filling and capping machine is 200L IBC fully automatic multi-functional opening, filling and capping production line.

Q: Is the filling and capping machine certified?

A: Yes, the filling and capping machine is certified with CE.

Q: What is the minimum order quantity for the filling and capping machine?

A: The minimum order quantity for the filling and capping machine is 1.

Q: How is the filling and capping machine packaged?

A: The filling and capping machine is packaged in a wooden box.

Q: What are the payment terms for the filling and capping machine?

A: The payment terms for the filling and capping machine are TT.
