

Capacity Yellow Pallet Tracking System with Low Maintenance Emergency Stop Button - 380V Voltage

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Capacity Yellow Pallet Tracking System With Low Maintenance Emergency Stop Button - 380V Voltage
- Dimensions: Customizable
- Maintenance: Low Maintenance Required
- Condition: New
- Color: Yellow
- Type: Palletizer
- Safety Features: Emergency Stop Button, Safety Sensors
- Capacity: Up To 2000 Units Per Hour
- Highlight: **380V Pallet Tracking System,**
Low Maintenance Pallet Tracking System,
Capacity Yellow Pallet Tracking System

Product Description

Capacity Yellow Pallet Tracking System with Low Maintenance Emergency Stop Button - 380V Voltage

Product Description:

The Palletizer is equipped with a programmable logic controller (PLC) control system that allows the user to set up the machine to suit their specific needs. The PLC ensures that the Palletizer operates smoothly and with precision, which is essential to ensure that the pallets are stacked correctly and safely. The PLC control system is user-friendly, making it easy for the operator to access and control the machine's functions.

The Palletizer is yellow in color, which makes it easy to spot in a busy warehouse or factory environment. The yellow color also serves as a warning to employees to exercise caution when the Palletizer is in operation. Safety is a top priority, and the Palletizer is designed with safety features that prevent accidents and injuries in the workplace.

The Palletizer is a new machine and is in excellent condition. It is built to last and is made from high-quality materials that ensure its durability even in harsh industrial environments. The Palletizer is a reliable machine that requires minimal maintenance and is easy to clean and service.

The Palletizer is a versatile machine that can be used to palletize a wide range of products, including boxes, bags, and containers. It can handle multiple packages at once, making it an efficient and time-saving solution for businesses that require high-volume palletizing. The Palletizer is capable of stacking pallets of different sizes and configurations, making it a flexible option for businesses with diverse product lines.

In conclusion, the Palletizer is an essential piece of equipment for any manufacturing or logistics company that requires a high-speed and efficient palletizing solution. Its PLC control system, yellow color, and new condition make it a reliable and safe machine to operate. Its versatility and flexibility make it a worthwhile investment for businesses that require a palletizing solution that can handle a wide range of products and configurations.

Applications:

One of the main advantages of our Column type robot palletizer is its ability to handle various products and pallet sizes. This makes it a versatile and efficient solution for companies that deal with a wide range of products and packaging materials. The palletizer can also be equipped with a pallet tracking system, which allows for easy monitoring and management of pallet movement throughout the facility. Our palletizer is equipped with multiple safety features, including an emergency stop button and safety sensors that stop the machine automatically if it detects any potential hazards. This ensures that your employees are safe while using the palletizer, and also prevents damage to your products.

This palletizer can be used in a variety of occasions and scenarios, including:

Manufacturing facilities: Our palletizer can be used in manufacturing facilities to efficiently stack and move products onto pallets. It can handle a wide variety of products and packaging materials, making it a versatile solution for any manufacturing process.

Warehouses: Our Column type robot palletizer can be used in warehouses to quickly and efficiently move products onto pallets. The pallet tracking system ensures that pallets are easy to locate and manage, making it easier to keep track of inventory.

Distribution centers: Our palletizer is ideal for use in distribution centers, where it can help speed up the process of moving products onto pallets and preparing them for shipping. Its ability to handle various products and pallet sizes makes it a great solution for any distribution center.

Overall, our Column type robot palletizer is a versatile and efficient solution for any company that deals with pallet packaging systems. With its customizable dimensions, impressive capacity, and multiple safety features, it is a great investment for any business looking to streamline their palletizing process.

Support and Services:

Our Palletizer product comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of experienced technicians is available to provide assistance with installation, setup, and troubleshooting. Additionally, we offer regular maintenance and inspection services to keep your equipment in top condition and prevent any potential issues. Our support services also include remote diagnostics and monitoring to quickly identify and resolve any problems. We are committed to providing timely and efficient support to maximize your productivity and profitability.

Packing and Shipping:

Product Packaging:

The Palletizer product will be packaged in a sturdy cardboard box.

The product will be secured with foam padding to prevent any damage during transit.

A user manual will be included in the package.

Shipping:

The Palletizer product will be shipped via a reputable courier service.

Shipping times will vary depending on the destination, but customers can expect their product to arrive within 5-7 business days.

Customers will receive a tracking number once their order has been shipped.

Please note that additional customs fees and taxes may apply for international orders.

FAQ:

Q1: What is the brand name of the palletizer product?

A1: The brand name of our palletizer product is Column type robot palletizer.

Q2: Is the palletizer product certified?

A2: Yes, our palletizer product is CE certified.

Q3: What types of products can the palletizer handle?

A3: Our palletizer can handle a wide range of products, including boxes, bags, bottles, cans, and more.

Q4: What is the maximum weight capacity of the palletizer?

A4: The maximum weight capacity of our palletizer is 1500kg.

Q5: Can the palletizer be customized to fit my specific needs?

A5: Yes, we offer customization options for our palletizer to fit your specific needs and requirements.
