

## Electric IBC Filling Machine 10L - 50L Filling Range For Liquid Surface 220V 380V

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Electric IBC Filling Machine 10-50 L Filling Range For Liquid Surface 220V/380V Voltage
- Type: Filling Machine
- Voltage: 220V/380V
- Application: Machinery & Hardware
- Air Consumption: 0.5m³/min
- Feeding Type: Upon Liquid Surface Filling
- Suitable Materials: IBC
- Powder: Electric
- Highlight: Electric IBC Filling Machine, 10L IBC Filling Machine, 50L ibc filling equipment

## Product Description

### Electric IBC Filling Machine 10-50 L Filling Range for Liquid Surface 220V/380V Voltage

#### Product Description:

With a voltage of 220V/380V, this IBC liquid packaging machine is compatible with most industrial power supplies. It also comes with a 1-year warranty, ensuring that you can rely on this machine to meet your needs for years to come.

The IBC filling machine is designed to make the process of filling containers with liquid as smooth and efficient as possible. It features an air consumption rate of 0.5m<sup>3</sup>/min, which ensures that the machine operates quickly and efficiently, without wasting any resources.

Whether you need to fill drums, barrels, or cans, the IBC filling machine has you covered. Its versatile design allows it to work with a variety of container types, making it a valuable addition to any manufacturing facility.

In summary, the IBC filling machine is an intermediate bulk container filling system that is perfect for streamlining the process of filling drums, barrels, and cans with water-based paint. With a 1-year warranty, a voltage of 220V/380V, and an air consumption rate of 0.5m<sup>3</sup>/min, this IBC liquid dispensing system is both reliable and efficient. Whether you need to fill a few containers or thousands, the IBC filling machine is designed to meet your needs.

#### Applications:

The IBC liquid bottling machine is ideal for various occasions and scenarios. Here are some of the product application occasions and scenarios that the IBC filling machine can be used:

**Food and Beverage Industry** - The IBC liquid dosing equipment is ideal for filling liquid food products such as syrups, juices, and sauces.

**Pharmaceutical Industry** - The IBC filling machine is perfect for pharmaceutical companies that need to fill liquid medications.

**Chemical Industry** - The IBC filling machine can be used to fill liquid chemicals such as acids, solvents, and alkalis.

**Cosmetics Industry** - The IBC filling machine is ideal for filling liquid cosmetics such as lotions, shampoos, and conditioners.

**Paint Industry** - As mentioned earlier, the IBC filling machine is designed to fill water-based paint.

**Petroleum Industry** - The IBC filling machine can be used to fill liquid petroleum products such as diesel, gasoline, and lubricants.

The IBC filling machine is also ideal for scenarios that require high-speed filling. This filling machine can fill up to 2000 liters per hour, making it perfect for industries that require fast and efficient filling. Additionally, the IBC filling machine is designed to fill liquids upon the liquid surface, which means that it can fill containers without causing any foam or splashing.

In conclusion, the IBC fully automatic open-fill-top filling machine is a versatile filling machine that is perfect for various industries. Its ability to fill liquids upon the liquid surface makes it ideal for filling a wide range of liquid products. With its 1-year warranty and electric powdered function, the IBC filling machine is a reliable and efficient choice for any business that needs a high-speed filling solution.

#### Customization:

Whether you need an intermediate bulk container filling system or an IBC liquid dispensing system, our product customization services can help you create the perfect filling machine for your needs. Contact us today to learn more about our product customization services.

#### Support and Services:

The IBC filling machine product comes with comprehensive technical support and services to ensure its smooth operation and maintenance. Our team of experienced technicians is available to provide installation, training, and troubleshooting assistance to customers. We also offer regular maintenance and repair services, as well as spare parts replacements to keep the machine running efficiently. Additionally, our technical support team is always available to answer any questions or concerns that customers may have.

about the product.

## Packing and Shipping:

### Product Packaging:

The IBC filling machine will be securely packaged in a wooden crate to ensure its safe transportation. The crate will also be labeled with the product name, model number, and handling instructions.

### Shipping:

The IBC filling machine will be shipped via a reputable freight carrier to the customer's desired location. Shipping costs will be calculated based on the delivery address and weight of the product. The customer will be provided with a tracking number to monitor the delivery status of the product.

## FAQ:

A: The brand name of this filling machine is IBC fully automatic open-fill-top filling machine.

Q: Is this filling machine fully automatic?

A: Yes, this filling machine is fully automatic.

Q: What type of containers can be filled using this machine?

A: This machine can fill Intermediate Bulk Containers (IBCs) with an open-fill-top design.

Q: What is the filling capacity of this machine?

A: The filling capacity of this machine is dependent on the size of the IBC being filled, but it has a maximum capacity of 1000 liters.

Q: Does this machine come with any additional features?

A: Yes, this machine comes with a touch screen control panel and an automatic weighing system for precise filling.
