

900KG Automatic Filling And Capping Machine Liquid Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-AP
- Minimum Order Quantity: 1
- Price: 15000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: T/T, L/C, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: 900KG Automatic Filling And Capping Machine Liquid Filling And Capping Machine
- Control System: PLC
- Air Pressure: 0.6-0.8MPa
- Material: Stainless Steel
- Filling Accuracy: $\pm 0.5\%$
- Capping Speed: 1000-3000 Bottles/hour
- Operation Mode: Fully Automatic
- Power Supply: 220V/380V, 50Hz/60Hz
- Highlight: 50hz automatic filling and capping machine, 60hz automatic filling and capping machine, 50hz filling and packaging machine

Product Description

900KG Automatic Filling And Capping Machine Liquid Filling And Capping Machine

Product Description:

Our state-of-the-art automatic filling and capping machine is the perfect solution for all your manufacturing needs. With air pressure of 0.6-0.8MPa and air consumption of 0.5m³/min, the FC-2000 is a highly efficient and cost-effective machine.

The FC-2000 uses piston filling technology that ensures accurate and consistent filling of your products. Whether you are filling liquids, creams, or gels, our machine will ensure that every bottle is filled to perfection.

With a capping diameter of 20-50mm, the FC-2000 can cap a wide range of bottles, making it a versatile addition to your production line.

The capping process is fully automatic, ensuring that every bottle is capped securely and without any leaks.

Our automatic filling and capping machine is designed with efficiency in mind. It can fill and cap up to 2000 bottles per hour, making it ideal for high-volume production lines. The machine is easy to operate, and its compact design means it can be easily integrated into your existing production line.

The FC-2000 is designed with both safety and durability in mind. It is made from high-quality materials that are built to last, and its safety features ensure that your employees can operate the machine without any risk of injury.

Overall, the FC-2000 Fully Automatic Filling and Capping Machine is the perfect choice for any manufacturer looking to streamline their production line. Its high efficiency, accuracy, and versatility make it an essential tool for any business looking to increase their output and reduce costs.

Technical Parameters:

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Applications:

This machine is perfect for various occasions and scenarios including, but not limited to:

Pharmaceutical companies who need an Automatic Tube Filling and Sealing Machine for their liquid or semi-solid products, such as creams, gels, and ointments.

Cosmetic companies who need an Automatic Liquid Filling Machine for their skincare or haircare products, such as lotions, shampoos, and conditioners.

Food and beverage companies who need a Filling and Capping Machine for their liquid or semi-liquid products, such as sauces, juices, and syrups.

Chemical companies who need a reliable filling and capping machine for their hazardous or non-hazardous chemicals, such as cleaning solutions and industrial fluids.

The machine has a capping diameter of 20-50mm and can fill volumes between 50-1000ml. It has an air consumption of 0.5m³/min and is equipped with a 220V/380V, 50Hz/60Hz power supply. The minimum order quantity is 1 and it is packaged in a wooden box for safe transportation. Payment terms are TT.

Customization:

200L IBC fully automatic multi-functional opening, filling and capping production line:

Brand Name: 200L IBC fully automatic multi-functional opening, filling and capping production line

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Material: Stainless Steel

Capping Type: Screw Capping

Power Supply: 220V/380V, 50Hz/60Hz

Capacity: 2000 Bottles Per Hour

Filling Type: Piston Filling

Our **Automatic Liquid Bottle Filling Machine** , **Automatic Liquid Filling Machine** , and **Automatic Filling And Capping Machine** offer the following customization services:

Customized filling volume and speed

Customizable capping types and speeds

Customizable power supply and voltage

Customizable material for machine parts

Customizable packaging and shipping options

Support and Services:

Our fully automatic filling and capping machine is designed to provide high-speed and accurate filling for a wide range of products including liquids, creams, and powders. The machine is equipped with advanced technology and features such as a touch screen display, a servo motor system, and automatic capping. In addition to providing innovative and reliable equipment, we offer comprehensive technical support and services to ensure that our customers get the most out of their investment. Our team of experts provides installation, training, and troubleshooting assistance to ensure that the machine operates smoothly and efficiently. We also offer regular maintenance and spare parts services to ensure that the machine is always in top condition and performs at its best. Contact us to learn more about our technical support and services for the fully automatic filling and capping machine.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is 200L IBC fully automatic multi-functional opening, filling and capping production line.

Q: Is this product certified?

A: Yes, this product is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is this product packaged?

A: This product is packaged in a wooden box.

Q: What are the payment terms for this product?

A: The payment terms for this product are TT.
