

## Stainless Steel Electric IBC Filling Equipment Wood Packing 10-50L Filling Range

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Stainless Steel Electric IBC Filling Machine Wood Packing 10-50L Filling Range
- Packing Material: Wood Packing
- Air Consumption: 0.5m³/min
- Filling Range: 10-50 L
- Material Contact Parts: 304 Stainless Steel
- Powder: Electric
- Voltage: 220V/380V
- Suitable Materials: IBC
- Highlight: ibc machine Stainless Steel, 50L ibc machine Electric, 10L IBC Barrel Filler

## Product Description

### Stainless Steel Electric IBC Filling Machine Wood Packing 10-50L Filling Range

#### Product Description:

The IBC liquid dosing equipment is built to last, with a 1-year warranty for your peace of mind. Its sturdy construction ensures that it can withstand the wear and tear of everyday use, making it a valuable investment for your business. Additionally, it has an air consumption of only 0.5m<sup>3</sup>/min, making it an eco-friendly option that can help reduce your carbon footprint.

Using the IBC filling machine is simple and intuitive, allowing you to fill your containers quickly and efficiently. It features a user-friendly control panel that allows you to adjust the filling volume and speed according to your needs. You can also choose between automatic and manual filling modes, giving you greater flexibility and control over the filling process.

Whether you need to fill drums, barrels, or cans, the IBC filling machine is the perfect solution for your business. Its reliable performance and efficient design make it a valuable addition to any production line. So why wait? Invest in the IBC filling machine today and take your business to the next level!

#### Applications:

The IBC filling machine is perfect for manufacturing plants and factories that require consistent and accurate filling of large containers. The machine is easy to use and requires minimal training to operate. The IBC filling machine can handle various types of liquids such as chemicals, lubricants, and other industrial liquids.

One of the key features of the IBC filling machine is its fully automatic open-fill-top system that allows for efficient filling of containers. The machine is equipped with IBC liquid dosing equipment that ensures the precise measurement of liquid. This feature makes the IBC filling machine a reliable and cost-effective solution for large scale manufacturing operations that require consistent dosing of liquids.

The IBC filling machine is designed to meet the demands of the machinery & hardware industry. Its versatility and precision make it an ideal solution for filling a wide range of industrial liquids. The IBC filling machine is also easy to maintain and operate, which makes it a popular choice for manufacturing plants and factories.

The IBC filling machine is suitable for various application occasions and scenarios. It is an excellent choice for manufacturing plants that require precise and consistent filling of large containers. The machine is also ideal for factories that need a reliable and cost-effective solution for dosing liquids. The IBC filling machine can handle various types of liquids, making it a versatile solution for the machinery & hardware industry.

In summary, the IBC fully automatic open-fill-top filling machine is a top-quality filling machine that is suitable for a wide range of industrial applications. Its IBC liquid dosing equipment ensures accurate measurement of liquids, making it a reliable and cost-effective solution for large scale manufacturing operations. It is a versatile solution for filling drums, barrels, and cans and comes with a 1-year warranty.

#### Support and Services:

The IBC filling machine is a complex piece of equipment that requires technical expertise to operate and maintain. Our product technical support team is available to assist you with any issues you may encounter during installation, operation, or maintenance of your IBC filling machine. We offer a range of services to ensure your IBC filling machine runs smoothly and efficiently, including:

- Installation and setup assistance
- Training for operators and maintenance staff
- Preventive maintenance services
- Repair and replacement of parts
- Technical troubleshooting and support

Our team of experienced technicians has the knowledge and expertise to ensure that your IBC filling machine is running at peak performance. Contact us today to learn more about our product technical support and services.

#### Packing and Shipping:

Product Packaging:

The IBC filling machine will be securely packed in a wooden crate to prevent any damage during transportation.

The crate will be clearly labeled with the product name, model number, and any other necessary shipping information.

All necessary accessories and parts will be included in the crate.

Shipping:

The IBC filling machine will be shipped via a reputable carrier such as DHL, FedEx, or UPS.

The shipping cost will be calculated based on the destination and weight of the crate.

The customer will be provided with a tracking number once the product has been shipped.

The estimated delivery time will depend on the destination and shipping method chosen by the customer.

## FAQ:

A: The brand name of the filling machine is IBC fully automatic open-fill-top filling machine.

Q: What type of filling does this machine perform?

A: This machine performs open-fill-top filling.

Q: Is this machine fully automatic?

A: Yes, this machine is fully automatic.

Q: What is the capacity of this machine?

A: The capacity of this machine depends on the size of the IBC container being filled.

Q: Can this machine be used with different types of products?

A: Yes, this machine can be used with a wide variety of liquid and semi-liquid products.
