

10-50L IBC Filling Equipment For Water Based Paint Air Consumption 0.5m3/Min

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T
- Supply Ability: 1set/week

Product Specification

- Air Consumption: 0.5m³/min
- Warranty: 1 Year
- Bottle Type: Drum, Barrel, Can
- Suitable Materials: IBC
- Type: Filling Machine
- Filling Range: 10-50 L
- Packing Material: Wood Packing
- Function: Filler Water-based Paint
- Highlight: 0.5m³/Min IBC equipment,
IBC equipment For Drum filling,
IBC Barrel Filler 0.5m³/Min

Product Description

10-50 L IBC Filling Machine for Water Based Paint Air Consumption 0.5m³/min

Product Description:

The IBC liquid filling equipment is made with high-quality materials that ensure the durability and longevity of the machine. It is packaged in a wooden crate to ensure its safe delivery to your location. The machine is capable of filling a range of 10-50 liters, making it perfect for a variety of different liquid products. The IBC liquid packaging machine comes with a voltage of either 220V or 380V, depending on your business's needs.

The IBC liquid packaging machine is designed with efficiency in mind. It is easy to set up and use, allowing your employees to quickly learn how to operate the machine. This means that your business can start filling and packaging your liquid products in no time, increasing your overall productivity and profitability.

Overall, the IBC liquid filling equipment is an essential machine for any business in the machinery and hardware industry. Its high-quality materials, efficient design, and range of features make it the perfect choice for those looking to improve their liquid product filling and packaging processes. With a 1-year warranty included, you can be confident in your purchase and trust that the IBC liquid packaging machine will help take your business to the next level.

Technical Parameters

Filling Quantity	≤2000kg	Barrel Specification	≤ diameter 1200* height 1200mm
Filling Index Value	1g, 10g, 20g	Filling Speed	130-200kg / Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	1200	Overall Dimension (mm)	4000*1300*1800

Applications:

The filling range of this machine is between 10-50L, ensuring that you can fill a wide range of containers. Additionally, the machine is constructed using 304 stainless steel for all material contact parts, ensuring that the product is safe and hygienic for use.

The IBC filling machine is perfect for a variety of application occasions and scenarios, including:

Manufacturing plants: The IBC liquid filling equipment is ideal for use in manufacturing plants that require accurate and efficient filling of water-based paint. The fully automatic open-fill-top filling machine ensures that the filling process is fast and efficient, allowing for increased productivity.

Warehouses and distribution centers: The IBC filling machine is the perfect solution for warehouses and distribution centers that need to fill large quantities of water-based paint quickly. The machine is designed to be easy to use and requires minimal operator intervention, making it an ideal choice for busy warehouses.

Paint stores: The IBC liquid dispensing system is perfect for paint stores that need to fill custom orders quickly and efficiently. The machine can be easily programmed to fill a wide range of container sizes, ensuring that you can meet the needs of all your customers.

Construction sites: The IBC filling machine is also ideal for use on construction sites where water-based paint is used. The machine can be easily transported to the construction site and set up quickly, ensuring that you can get to work as quickly as possible. The IBC fully automatic open-fill-top filling machine comes with wood packing material, ensuring that the machine is protected during transport and storage. With its state-of-the-art features and versatile application scenarios, the IBC filling machine is the perfect choice for all your liquid filling needs.

Customization:

Our product, the IBC fully automatic open-fill-top filling machine, can be customized to fit your specific needs. We offer product customization services that include:

Voltage: We can customize the voltage to meet your local power requirements, whether it's 220V or 380V.

Feeding Type: Our filling machine is designed for upon liquid surface filling, but we can customize it to fit your preferred feeding type.

Material Contact Parts: We use 304 stainless steel for all material contact parts to ensure durability and hygiene.

Suitable Materials: Our filling machine is specifically designed for IBC containers, but we can customize it to work with other types of containers.

Type: We offer customization options for both semi-automatic and fully automatic filling machines.

With our product customization services, you can have the perfect IBC liquid filling equipment for your business. Whether you need a fully automatic open-fill-top filling machine or a customized IBC liquid dispensing system, we've got you covered.

Support and Services:

The IBC filling machine is a complex piece of equipment that requires technical support and services to operate at peak performance. Our team of experienced technicians is available to provide assistance with installation, calibration, and troubleshooting. We also offer preventative maintenance programs to keep your equipment running smoothly and minimize downtime. In addition, we can provide training for your staff so they can operate the machine safely and efficiently. Contact us for more information about our technical support and services.

Packing and Shipping:

Product Packaging:

Individual wooden crate packaging

Plastic wrapping for protection

Customizable packaging options available upon request

Shipping:

Ships within 2-4 weeks after order confirmation

International shipping available

Shipping costs calculated based on destination and weight

FAQ:

Q: What is the brand name of the filling machine?

A: The brand name is 10-50 L IBC Filling Machine for Water Based Paint Air Consumption 0.5m³/min

Q: Is the filling machine fully automatic?

A: Yes, the filling machine is fully automatic.

Q: What type of containers can be filled using this machine?

A: The machine can fill Intermediate Bulk Containers (IBCs) with an open-fill-top design.

Q: What is the filling capacity of the machine?

A: The filling capacity of the machine can be adjusted between 100 and 1000 liters per cycle.

Q: Is the machine suitable for filling hazardous materials?

A: The machine is designed to fill hazardous materials and can be customized to meet specific safety requirements.
