

Inline Automatic Filling And Capping Machine Multi Usage Liquid Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Packaging Details: wooden box
- Payment Terms: TT

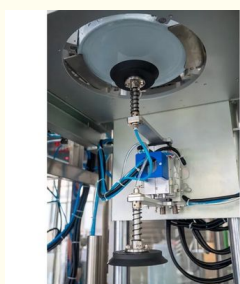

Product Specification

- Product Name: Inline Automatic Filling And Capping Machine Multi Usage Liquid Filling And Capping Machine
- Filling Accuracy: $\pm 1\%$
- Capping Type: Screw-on
- Power Supply: 220V/50Hz
- Filling Type: Liquid
- Type: Automatic
- Control System: PLC
- Material: Stainless Steel
- Operation: Touch Screen
- Highlight: 50hz filling and capping machine,
50hz filling and packaging machine,
stainless steel filling and capping machine

Product Description

Inline Automatic Filling And Capping Machine Multi Usage Liquid Filling And Capping Machine

Product Description:

The FC-2000 is constructed with high-quality stainless steel materials, ensuring durability and longevity. It is also equipped with a piston filling system, which is designed to accurately measure and dispense liquids of different viscosities. This makes it ideal for filling a wide range of products, including creams, lotions, shampoos, oils, and more.

The FC-2000 is an Automatic Liquid Filling Machine that is designed to streamline your filling and capping process. It is capable of filling up to 2000 bottles per hour, making it perfect for high-volume production. The machine is also easy to operate, with a user-friendly interface that allows for easy customization of filling and capping parameters.

One of the standout features of the FC-2000 is its capping mechanism. The machine is equipped with a capping head that can handle caps with diameters ranging from 20mm to 50mm. It is also capable of applying caps with a high level of precision, ensuring that each bottle is sealed correctly and securely.

The FC-2000 is an all-in-one Filling and Capping Machine that is perfect for businesses looking to increase their productivity. It is equipped with an air pressure system that operates at 0.6-0.8MPa, ensuring that the machine runs smoothly and efficiently. The machine also comes with a range of safety features, including overload protection and emergency stop buttons.

In conclusion, the FC-2000 Fully Automatic Liquid Filling and Capping Machine is the perfect solution for businesses looking to streamline their filling and capping process. It is a high-performance machine that offers excellent accuracy, reliability, and efficiency. Whether you are in the food and beverage, pharmaceuticals, or cosmetics industry, the FC-2000 is sure to meet your needs. Invest in this machine today and watch your production levels soar!

Technical Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Applications:

The machine uses piston filling technology to accurately fill bottles, jars, and other containers with a variety of liquids, creams, and powders. The automatic filling and packing machine is capable of filling up to 2000 bottles per hour, making it an ideal choice for high-volume production runs. Additionally, the machine has low air consumption of 0.5m³/min, which helps to reduce operating costs.

The capping type used by the machine is screw capping, which ensures that each container is properly sealed and prevents spills or leaks. The 200L IBC fully automatic multi-functional opening, filling and capping production line is a versatile machine that can be used in a variety of industries, including cosmetics, food and beverage, pharmaceuticals, and more.

Some of the occasions and scenarios where this automatic powder filling machine can be used include:

Production lines for cosmetics such as lotions, shampoos, and creams

Packaging lines for food and beverage products like sauces, condiments, and drinks

Pharmaceutical production lines for medicines and supplements

Industrial production lines for chemicals and other liquids

The 200L IBC fully automatic multi-functional opening, filling and capping production line is a reliable and efficient machine that

will help to streamline your production process and increase your output. With its high capacity, precise filling technology, and screw capping mechanism, this filling and capping machine is the perfect choice for any business looking to improve their production line.

Customization:

Brand Name: 200L IBC fully automatic multi-functional opening, filling and capping production line

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Power Supply: 220V/380V, 50Hz/60Hz

Capping Diameter: 20-50mm

Air Pressure: 0.6-0.8MPa

Capacity: 2000 Bottles Per Hour

Air Consumption: 0.5m³/min

The Automatic Filling And Capping Machine is designed to fill and cap liquid products with high efficiency. It is also known as the Automatic Liquid Bottle Filling Machine. With its multi-functional opening, filling and capping production line, it can handle a wide range of bottle sizes and shapes. The machine is CE certified and comes in a sturdy wooden box for safe transportation. Its power supply of 220V/380V, 50Hz/60Hz ensures compatibility with different power sources. The capping diameter range is 20-50mm, and the air pressure required is 0.6-0.8MPa. The machine has a capacity of 2000 bottles per hour and consumes 0.5m³/min of air.

Support and Services:

Our Fully Automatic Filling and Capping Machine is designed to provide efficient and reliable filling and capping services for a wide range of products. It features advanced technology that ensures accurate and consistent filling, and a fast and efficient capping process that ensures the product is sealed tightly. Our technical support team is available to assist with any issues you may encounter with the machine, from installation to operation and maintenance. We provide comprehensive training for your staff to ensure they are fully equipped to operate the machine safely and effectively. We also offer a range of services to keep your machine running smoothly and efficiently, including regular maintenance and repair services, and the supply of spare parts and consumables. Our goal is to provide you with the support and services you need to ensure your Fully Automatic Filling and Capping Machine operates at peak performance, delivering high-quality products and maximizing your productivity and profitability.

Packing and Shipping:

PACKING&SHIPPING

FAQ:

Q: What is the brand name of the filling and capping machine?

A: The brand name of the filling and capping machine is 200L IBC fully automatic multi-functional opening, filling and capping production line.

Q: Is the filling and capping machine CE certified?

A: Yes, the filling and capping machine is CE certified.

Q: What is the minimum order quantity for the filling and capping machine?

A: The minimum order quantity for the filling and capping machine is 1.

Q: What are the packaging details for the filling and capping machine?

A: The filling and capping machine is packed in a wooden box.

Q: What are the payment terms for the filling and capping machine?

A: The payment terms for the filling and capping machine are TT.
