## Product Description

### English Version Semi automatic Capping Equipment with Multiple Heads and Good looking Appearance

#### Product Description:

Our Bottle Capping Machine is made of high-quality stainless steel material that ensures maximum durability and longevity. It is built to withstand the toughest conditions and is guaranteed to last for a long time. The sleek and elegant white design of the machine is perfect for any modern business.

The Rotary Capping Device is a key feature of this machine. It ensures that the caps are tightly secured onto the bottles, preventing any leaks or spills. The device rotates the bottle and cap together, creating a tight seal that is perfect for liquids and other products. The Rotary Capping Device also ensures that the caps are aligned correctly, reducing the chances of any errors.

The Screw Cap Machine is another key feature of this capping machine. It is designed to screw caps onto bottles with ease, ensuring a tight and secure seal every time. The Screw Cap Machine is perfect for businesses that require a fast and efficient way to cap bottles. Our Bottle Capping Machine is powered by a 220V/50Hz power supply, making it suitable for use in any commercial setting. It is also backed by a 1-year warranty, giving you peace of mind knowing that your investment is protected.

In summary, our Bottle Capping Machine is the perfect solution for any business that requires a fast and efficient way to cap bottles. With its 2~24 capping heads, high-quality stainless steel material, white design, Rotary Capping Device, Screw Cap Machine, and 1-year warranty, it is the ultimate investment for your business. Order yours today and experience the benefits of our top-of-the-line Bottle Capping Machine!

#### Technical Parameters:

Product Name	Bottle Capping Machine
Product Type	Screw Cap Machine
Manual	English Version
Capping Speed	700.~1000pcs
Voltage	AC 380V,50Hz
Appearance	Good-looking
Warranty	1 Year
Head	2~24
Material	Stainless Steel
Usage	Plastic Or Glass Bottle Capping
Color	White
Power Supply	220V/50Hz
Additional Features	Rotary Capping Device

## Applications:

The screw cap machine is ideal for use in a wide range of scenarios. For instance, it can be used in a manufacturing plant for capping bottles of a wide range of products, such as beverages, cosmetics, and pharmaceuticals. The Servo tracking capping machine is also ideal for use in a retail setting where there is a need to cap bottles of different sizes and types quickly and efficiently.

The jar capper machine is particularly useful in situations where there is a need for precise and efficient capping of jars. The machine is designed to work with jars of different sizes and can be easily adjusted to accommodate different types of jars. This makes it an ideal solution for use in a commercial kitchen or food processing plant where there is a need to cap jars of different sizes and types.

The Servo tracking capping machine is a reliable and durable machine that comes with a 1-year warranty. This ensures that the machine is protected against any defects or malfunctions that may arise during the first year of use. The machine is also designed to be easy to operate, with a user-friendly interface that makes it easy for operators to adjust the settings and operate the machine efficiently.

## Customization:

Our bottle capping machine comes with a 1-year warranty and supports AC 380V, 50Hz voltage for efficient operation. It is designed to cap plastic or glass bottles with a height range of 50-300mm.

You can also add a Flip-Off Capping Unit or Cap Sealing Equipment to your machine for more versatile capping options.

Order now and receive your customized capping machine with a power supply of 220V/50Hz!

## Support and Services:

Our capping machine product comes with comprehensive technical support and services to ensure smooth operation and maintenance:

24/7 phone and email support

On-site installation and training

Regular maintenance and calibration services

Spare parts and replacement components

Upgrades and customization options

Our team of experienced technicians is dedicated to providing timely and effective solutions to any issues that may arise, minimizing downtime and maximizing productivity. Contact us for more information on our technical support and services.

## Packing and Shipping:

Product Packaging:

The capping machine will be securely packed in a sturdy cardboard box to prevent damage during shipping.

All necessary parts and accessories will be included in the package.

The packaging will be labeled with the product name, model number, and handling instructions.

Shipping:

The capping machine will be shipped within 1-2 business days after the order is placed.

We offer free standard shipping to addresses within the continental United States.

Orders outside of the continental United States may incur additional shipping fees.

We use reliable shipping carriers to ensure timely and safe delivery of your order.

You will receive a tracking number once your order has shipped so you can track its progress.

## FAQ:
