Product Description

Semi automatic 4-8-12 Heads White Bottle Capping Machine Stainless Steel 700-1000pcs Capping Speed

Product Description:

- VOC waste gas collection, more environmental protection
- Double head filling
- Single head cover
- Single head gland
- 304 frame tempered glass

Technical Parameters:

Head	2~24
Color	White
Power Supply	220V/50Hz
Warranty	1 Year
Usage	Plastic Or Glass Bottle Capping
Capping Speed	700~1000pcs
Bottle Height	50-300mm
Appearance	Good-looking
Capping Heads	4 Heads / 8 Heads / 12 Heads
Manual	English Version

Applications:

This Lid Tightening Machine is semi-automatic, making it easy to operate and perfect for use in small to medium-sized production facilities. The Servo tracking capping machine is ideal for use in various applications, including the food industry, cosmetic industry, and pharmaceutical industry. It is perfect for capping various types of containers, including bottles, jars, and cans. The Servo tracking capping machine is a Cap Sealing Equipment that is designed to offer efficient and reliable capping solutions. It is perfect for use in production environments that require high levels of accuracy and precision. The machine is designed to offer consistent and reliable capping performance, making it ideal for use in various applications. With a 1-year warranty, the Servo tracking capping machine is designed to offer peace of mind to its users. The warranty covers any defects in materials or workmanship, ensuring that users can rely on the machine for a long time.

Overall, the Servo tracking capping machine is an excellent choice for anyone looking for a reliable, efficient, and easy-to-use Lid Tightening Machine. It is ideal for use in a wide range of product application occasions and scenarios, making it a perfect fit for any production environment.

Customization:

Our **Servo tracking capping machine** is the perfect solution for your **plastic or glass bottle capping** needs. Made of high-quality **stainless steel**, this machine is durable and long-lasting. It operates on **AC 380V, 50Hz** voltage, making it an ideal choice for a wide range of applications.

The **capping speed** of this machine ranges from **700 to 1000pcs**, making it one of the fastest on the market. Our **English version manual** ensures that you can use this machine with ease.

With our **product customization services**, we can tailor this **bottle capping machine** to your exact needs. Whether you need a **jar capper machine** or a **rotary capping device**, we can make it happen. Contact us today to learn more.

Support and Services:

The capping machine product technical support and services includes:

- Installation and setup assistance
- User training and education
- Troubleshooting and maintenance guidance
- Repair and replacement services for defective parts
- Technical consultation and advice on product use and optimization

Packing and Shipping:

Product Packaging:

The capping machine will be packed in a sturdy cardboard box to prevent any damage during transportation. Inside the box, the machine will be securely wrapped in bubble wrap and surrounded by packing peanuts to prevent any movement or shifting during shipping. The packaging will also include an instruction manual and any necessary accessories or parts.

Shipping:

The capping machine will be shipped via a reliable courier service such as FedEx or UPS. The shipping cost will depend on the destination and shipping method chosen by the customer. Once the order is shipped, the customer will receive a tracking number to monitor the delivery status. Delivery times may vary depending on the destination and shipping method.
