### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

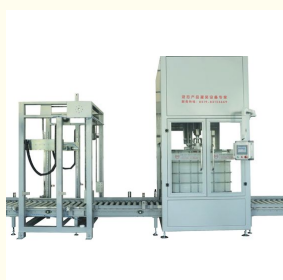

### Product Specification

- Product Name: Plastic Glass Bottle Capping Machine 2~24 Head AC 380V Voltage 50Hz Semi Automatic English Version
- Material: Stainless Steel
- Power Supply: 220V/50Hz
- Usage: Plastic Or Glass Bottle Capping
- Head: 2~24
- Capping Speed: 700.~1000pcs
- Manual: English Version
- Operation: Semi-automatic
- Highlight: 700pcs Glass Bottle Capping Machine, 380V Glass Bottle Capping Machine, 50Hz Semi Automatic Capping Machine

## Product Description

### Plastic Glass Bottle Capping Machine 2~24 Head AC 380V Voltage 50Hz Semi Automatic English Version

#### Product Description:

The machine is equipped with 4 heads, 8 heads, or 12 heads, depending on the specific requirements of the production line. The Flip-Off Capping Unit is also included, which ensures that the caps are securely sealed onto the bottles and jars. The capping heads are designed to handle a wide range of bottle and jar sizes, making this machine suitable for use with different types of products.

The Bottle Capping Machine is easy to operate, with a simple control panel that allows the user to adjust the settings and control the speed of the capping heads. The machine is also designed for easy maintenance, with easy access to the capping heads and other components for cleaning and maintenance. This makes it a cost-effective solution that requires minimal downtime and reduces the risk of production delays.

The Jar Capper Machine is suitable for use with different types of caps, including screw caps, snap-on caps, and Flip-Off caps. The machine is designed to provide a consistent and accurate capping process, ensuring that the caps are properly sealed onto the bottles and jars. This helps to maintain the quality of the products and reduce the risk of leaks, spills, and contamination.

In summary, the Bottle Capping Machine is a reliable and efficient solution for capping plastic or glass bottles and jars. With its semi-automatic operation, Flip-Off Capping Unit, and 4, 8 or 12 capping heads, it is a versatile machine that can be used in different industries. Its good-looking appearance and easy-to-use design make it a great addition to any production line. So, if you are looking for a cost-effective and efficient solution for your capping needs, the Bottle Capping Machine is an excellent choice.

#### Technical Parameters:

Product Attribute	Value
Power Supply	220V/50Hz
Material	Stainless Steel
Warranty	1 Year
Operation	Semi-automatic
Capping Speed	700~1000pcs
Voltage	AC 380V,50Hz
Head	2~24
Usage	Plastic or Glass Bottle Capping
Appearance	Good-looking
Bottle Height	50-300mm

#### Applications:

This capping machine is versatile and can be used for both plastic and glass bottle capping, making it a valuable addition to any

packaging line. It can cap a wide range of bottle heights, ranging from 50-300mm, allowing you to use it for a variety of bottle sizes. Whether you are in the food and beverage industry, pharmaceuticals, cosmetics, or any other industry that requires bottle capping, this machine is perfect for you.

The Servo tracking capping machine is designed to be user-friendly, with easy-to-use controls that make it easy to operate. The machine is also built to last, with a sturdy and durable construction that ensures long-lasting performance. And, with a 1-year warranty, you can be assured of the quality and reliability of this lid tightening machine.

One of the key benefits of this bottle capping machine is that it is highly efficient, helping to streamline your production process and reduce downtime. The Servo tracking technology ensures that the capping is accurate and consistent, providing a reliable and high-quality seal every time. This makes it ideal for use in high-volume production lines, where speed and accuracy are critical.

In summary, the Servo tracking capping machine is a versatile and efficient lid tightening machine that is perfect for a wide range of industries. Whether you are in the food and beverage industry, pharmaceuticals, cosmetics, or any other industry that requires cap sealing equipment, this machine is a valuable addition to your packaging line. With its high-speed capping, user-friendly controls, and durable construction, you can be assured of its reliability and performance.

## Customization:

## Support and Services:

Our capping machine product comes with comprehensive technical support and services to ensure that your production line runs smoothly. Our team of experienced technicians are available to provide you with the following:

Installation and setup assistance

Training for your staff on how to operate and maintain the machine

Regular maintenance and repair services to keep the machine functioning optimally

Technical troubleshooting and support to resolve any issues that may arise

Upgrades and customization options to meet your specific needs

We are committed to providing our customers with the highest level of support to maximize the performance and efficiency of our capping machine product.
