

## Stainless Steel IBC Filling Equipment For Water Based Paint Wood Packing 0.5m<sup>3</sup>/Min Air Consumption

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Stainless Steel IBC Filling Machine For Water Based Paint Wood Packing 0.5m<sup>3</sup>/min Air Consumption
- Packing Material: Wood Packing
- Suitable Materials: IBC
- Air Consumption: 0.5m<sup>3</sup>/min
- Function: Filler Water-based Paint
- Material Contact Parts: 304 Stainless Steel
- Voltage: 220V/380V
- Bottle Type: Drum, Barrel, Can
- Highlight: Stainless Steel ibc machine, ibc machine Water Based, IBC Barrel Filler 0.5m<sup>3</sup>/min

## Product Description

### Stainless Steel IBC Filling Machine for Water Based Paint Wood Packing 0.5m<sup>3</sup>/min Air Consumption

#### Product Description:

The IBC filling machine is a top-of-the-line IBC liquid bottling machine that is perfect for companies in need of an accurate and reliable filler for their water-based paints. This machine is built with precision and care to ensure that every bottle is filled with the exact amount of liquid required.

This IBC liquid dosing equipment is a must-have for businesses that need to fill large volumes of liquid on a regular basis. It is designed with a robust air consumption rate of 0.5m<sup>3</sup>/min, making it both powerful and efficient. With this machine, you can rest assured that your filling needs are taken care of with ease and accuracy.

Overall, the IBC filling machine is a high-quality, reliable, and efficient filling machine that is perfect for businesses that require an IBC liquid dispensing system. Whether you need to fill drums, barrels, or cans, this machine is designed to do the job right every time. So, why wait? Invest in the IBC filling machine today and take your business to the next level!

#### Applications:

One of the main advantages of this IBC liquid dispensing system is that it can handle water-based paint and other types of liquids with ease. Its upon-liquid-surface feeding type ensures a consistent and accurate fill level every time, regardless of the container size or shape. The system's air consumption is also relatively low, at only 0.5m<sup>3</sup>/min, making it an energy-efficient and cost-effective choice for various production environments.

Whether you need to fill large drums for industrial use or small cans for consumer products, this IBC liquid dosing equipment can accommodate your needs. Its fully automatic operation ensures a smooth and hassle-free filling process, reducing the risk of human error and improving productivity.

This high-quality filler is also backed by a 1-year warranty, giving you peace of mind and confidence in your investment. Overall, the IBC fully automatic open-fill-top filling machine is a practical and efficient solution for a variety of filling applications in different industries, including food and beverage, cosmetics, and chemicals.

#### Customization:

Customize your IBC fully automatic open-fill-top filling machine to fit your specific needs with our product customization services. Our filling machine is designed for intermediate bulk container filling system and can be customized to accommodate your unique requirements.

Choose from a variety of options including:

Packing Material: Wood Packing

Feeding Type: Upon Liquid Surface Filling

Warranty: 1 Year

Application: Machinery & Hardware

Our product customization services allow you to create the perfect IBC liquid dispensing system for your business. Contact us today to learn more.

#### Support and Services:

The IBC filling machine is designed to fill intermediate bulk containers with liquid products efficiently and accurately. Our technical support and services for this product are aimed at ensuring its optimal performance and longevity.

We offer comprehensive product training for operators and maintenance personnel to ensure that they are equipped with the knowledge and skills required to operate and maintain the machine effectively. Our technical support team is available to answer any questions and provide assistance with troubleshooting and repairs.

In addition to technical support, we offer preventive maintenance services to help prevent breakdowns and extend the life of the machine.

Our team can also provide upgrades and retrofits to keep the machine up-to-date with the latest technology and regulations. Overall, our goal is to ensure that our customers get the most out of their IBC filling machine and that it continues to perform reliably and efficiently over its lifespan.

## Packing and Shipping:

### Product Packaging:

The IBC filling machine will be securely packaged in a wooden crate to ensure safe transportation.

The wooden crate will be wrapped with plastic and marked with the product name and handling instructions.

Inside the crate, the machine will be wrapped in bubble wrap and secured with foam padding to prevent any damage during shipping.

### Shipping:

The IBC filling machine will be shipped via a reputable carrier to ensure timely and safe delivery.

Customers will receive a tracking number once the product has been shipped.

Delivery times may vary depending on the destination and carrier used.

## FAQ:

Q: What is the brand name of this filling machine?

A: The brand name of this filling machine is IBC fully automatic open-fill-top filling machine.

Q: Is this filling machine fully automatic?

A: Yes, this filling machine is fully automatic.

Q: What type of IBC containers can this machine fill?

A: This filling machine is designed to fill open-fill-top IBC containers.

Q: What is the maximum filling capacity of this machine?

A: The maximum filling capacity of this machine is 1000 liters.

Q: Does this filling machine require any special installation?

A: Yes, this filling machine requires a flat and stable floor surface for proper installation.
