Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Electric 220V/380V IBC Filling Machine 304 Stainless Steel Drum/Barrel/Can 10-50 L Filling Range
- Filling Range: 10-50 L
- Material Contact Parts: 304 Stainless Steel
- Bottle Type: Drum, Barrel, Can
- Voltage: 220V/380V
- Packing Material: Wood Packing
- Powder: Electric
- Suitable Materials: IBC
- Highlight: 220V IBC Filling Machine, 380V IBC Filling Machine, ibc filling equipment 50L

Product Description

Electric 220V/380V IBC Filling Machine 304 Stainless Steel Drum/Barrel/Can 10-50 L Filling Range

Product Description:

The IBC filling machine has a filling range of 10-50 L, making it ideal for businesses with varying filling needs. With a wood packing material, this machine is both durable and reliable, ensuring long-lasting performance and minimal downtime.

The powder used by this electric filling machine is of high quality, ensuring fast and efficient filling of IBC containers. This filling machine is easy to operate, making it perfect for businesses looking to streamline their operations and improve efficiency.

The IBC filling machine is a type of filling machine that is perfect for businesses looking to improve their liquid packaging processes. This machine is designed to handle a wide range of liquids and is perfect for businesses in the chemical, oil, and other industrial sectors.

Overall, the IBC filling machine is an excellent piece of equipment that offers businesses a reliable and efficient way to fill IBC containers. With its accurate liquid filling capabilities, durable wood packing material, and high-quality powder, this machine is a must-have for businesses looking to improve their liquid bottling processes. Whether you're looking for IBC liquid packaging machine, IBC liquid dosing equipment, or IBC liquid bottling machine, the IBC filling machine is the perfect solution for your needs.

Applications:

The IBC liquid filling equipment is designed to make the filling process more efficient and less labor-intensive. The machine is fully automated and can fill up to 3 IBCs per hour, depending on the viscosity of the liquid being filled. The machine is equipped with advanced sensors that detect the liquid level and automatically stop the filling process when the container is full. This ensures accurate filling and prevents spills and waste.

The IBC fully automatic open-fill-top filling machine is also versatile and can be used for a variety of liquids, including water, oil, and chemicals. The feeding type for this filling machine is upon liquid surface filling. This means that the liquid is fed into the container from the top, allowing for a more accurate and precise fill. The machine is also easy to clean and maintain, thanks to its hygienic design. For packing purposes, the IBC liquid bottling machine uses wood packing, which ensures that the containers are securely packed and transported. This also helps to prevent any damage to the containers during shipping.

Overall, the IBC fully automatic open-fill-top filling machine is an excellent investment for any business that requires high-volume liquid filling. It is a reliable and efficient machine that can save time and labor costs. The machine comes with a 1-year warranty, giving you peace of mind when purchasing this product. Other product keywords include IBC liquid dosing equipment, which refers to the precise and accurate dosing of liquid products into containers.

Customization:

Support and Services:

The IBC filling machine product comes with a range of technical support and services including:

Installation and commissioning services

Operator training and maintenance support

24/7 technical assistance via phone or email

Remote diagnostics and troubleshooting

Spare parts and replacement components

Upgrades and retrofits to keep your machine up-to-date with the latest technology

Preventative maintenance programs to increase machine longevity and reduce downtime

Our team of experienced technicians and engineers are dedicated to providing the highest level of support and service to ensure your IBC filling machine operates at optimal performance.

Packing and Shipping:

Product Packaging:

One IBC filling machine

Instruction manual

Protective foam packaging

Shipping:

Shipped via standard ground shipping

Shipping takes 5-7 business days

Shipping available only within the United States

FAQ:

A: The filling speed of the IBC fully automatic open-fill-top filling machine is adjustable and can reach up to 120 containers per hour.

2. Q: Can the IBC filling machine fill containers of different sizes?

A: Yes, the IBC filling machine is designed to fill containers of various sizes with its adjustable filling head.

3. Q: Does the IBC filling machine require any special training to operate?

A: No, the IBC filling machine is user-friendly and easy to operate, with a touch screen interface and simple controls. However, we do provide training and support for our customers if needed.

4. Q: What types of products can be filled with the IBC filling machine?

A: The IBC filling machine is suitable for a wide range of liquid and semi-liquid products, including chemicals, food and beverage, pharmaceuticals, and cosmetics.

5. Q: What is the warranty period for the IBC fully automatic open-fill-top filling machine?

A: Our IBC filling machine comes with a one-year warranty, covering any defects in materials or workmanship. We also offer extended warranty options for our customers.
