

Semi Automatic Stainless Steel Bottling Machine 220V/50Hz Power Supply Capping Speed 20-40 Bottles/min

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG1500F-C
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Semi Automatic Stainless Steel Bottling Machine 220V/50Hz Power Supply Capping Speed 20-40 Bottles/min
- Power Supply: 220V/50Hz
- Air Consumption: 0.1m³/min
- Filling Accuracy: ±1%
- Material: Stainless Steel
- Filling Volume: 5-100ml
- Air Pressure: 0.4-0.6MPa
- Capping Speed: 20-40 Bottles/min
- Highlight: 220v liquid filling and capping machine, 220v semi automatic filling and capping machine, 50hz liquid filling and capping machine

Product Description

Semi Automatic Stainless Steel Bottling Machine 220V/50Hz Power Supply Capping Speed 20-40 Bottles/min

Product Description:

The machine is made from high-quality Stainless Steel, which makes it durable and easy to clean. This ensures that the machine is able to withstand the demands of a busy production environment. The machine is also designed to be easy to use, with a simple interface that allows operators to quickly and easily adjust the settings to match their production needs.

The Filling Accuracy of the machine is $\pm 1\%$, which ensures that each bottle is filled with the same amount of product. This is important for companies that require precise measurements in their production processes. The machine is also designed to be versatile, with the ability to fill a wide range of products, including liquids, creams, and gels.

The machine operates using Air Pressure, with a range of 0.4-0.6MPa. This ensures that the machine is able to operate efficiently and consistently, even in demanding production environments. The machine also features a Power Supply of 220V/50Hz, which makes it compatible with a wide range of electrical systems.

In summary, the Semi-automatic filling and capping machine is an efficient and reliable Automatic Filling And Packing Machine that is designed to meet the demands of small to medium scale production processes. With a capping speed of 20-40 bottles per minute, a Filling Accuracy of $\pm 1\%$, and a durable Stainless Steel construction, this Filling Capping Machine is an ideal choice for companies that require a versatile and easy-to-use Automatic Filling Machines that can keep up with their production needs.

Technical Parameters:

Material	Stainless Steel
Capping Method	Semi-automatic
Air Consumption	0.1m ³ /min
Air Pressure	0.4-0.6MPa
Filling Method	Semi-automatic
Filling Volume	5-100ml
Capping Speed	20-40 Bottles/min
Power Supply	220V/50Hz
Filling Accuracy	$\pm 1\%$

Applications:

This can filling machine is ideal for a wide range of applications, including filling and capping bottles of various sizes and shapes. It is perfect for use in industries such as food and beverage, cosmetics, pharmaceuticals, and more.

The 20L semi-automatic capping filling machine is easy to operate and requires minimal training, making it an ideal choice for businesses with limited staff or resources. The semi-automatic filling method ensures that the filling process is quick and efficient, while the capping speed of 20-40 bottles per minute ensures that you can keep up with demand.

With a filling accuracy of $\pm 1\%$, you can be sure that your products will be filled consistently and accurately every time. And with a power supply of 220V/50Hz and an air consumption of 0.1m³/min, this can filling machine is both energy-efficient and cost-effective.

Whether you are looking for automatic filling machines, can filling machines, or semi-automatic filling machines, the 20L semi-automatic capping filling machine is an excellent choice. With a minimum order quantity of just 1, you can start enjoying the benefits of this reliable and efficient machine today.

Customization:

Brand Name: Semi Automatic Stainless Steel Bottling Machine 220V/50Hz Power Supply Capping Speed 20-40 Bottles/min

Certification: CE

Minimum Order Quantity: 1

Air Consumption: 0.1m³/min

Filling Method: Semi-automatic

Filling Accuracy: ±1%

Capping Speed: 20-40 Bottles/min

Capping Method: Semi-automatic

Support and Services:

The Semi-automatic filling and capping machine is designed to provide efficient and reliable filling and capping solutions for various types of containers and products. It is equipped with advanced technology and features to ensure accurate and consistent filling, as well as secure and tight capping.

Our technical support and services for the Semi-automatic filling and capping machine include:

Installation and set-up assistance

Training and user manuals

Remote technical support

On-site maintenance and repair

Spare parts and consumables

Upgrades and customization

We are committed to providing prompt and professional support to ensure the optimal performance and longevity of your Semi-automatic filling and capping machine. Please contact us for any technical assistance or service inquiries.

FAQ:

Q: What is the brand name of this filling and capping machine?

A: The brand name of this machine is Semi Automatic Stainless Steel Bottling Machine 220V/50Hz Power Supply Capping Speed 20-40 Bottles/min

Q: Is this machine certified?

A: Yes, this machine is certified with CE certification.

Q: What is the minimum order quantity for this machine?

A: The minimum order quantity for this machine is 1 unit.

Q: Is this machine suitable for filling and capping all types of liquids?

A: Yes, this machine is suitable for filling and capping various types of liquids such as water, juice, oil, etc.

Q: Is any training required to operate this machine?

A: Yes, some basic training is required to operate this machine efficiently. We provide training and support to our customers to ensure smooth operation of the machine.
