

## SUS304 IBC Filling Machine 10-50L Water Based Paint Filler Liquid Filling Equipment

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: IBC Filling Machine 304 Stainless Steel 10-50L Water Based Paint Filler Liquid Filling Equipment
- Type: Filling Machine
- Filling Range: 10-50 L
- Function: Filler Water-based Paint
- Application: Machinery & Hardware
- Voltage: 220V/380V
- Material Contact Parts: 304 Stainless Steel
- Air Consumption: 0.5m³/min
- Highlight: **SUS304 IBC Filling Machine, IBC Filling Machine Water Based, Paint Filler ibc filling equipment**

## Product Description

### IBC Filling Machine 304 Stainless Steel 10-50L Water Based Paint Filler Liquid Filling Equipment

#### Product Description:

The IBC filling machine is ideal for machinery and hardware applications that require large quantity filling of IBCs. It is suitable for different kinds of liquids such as water, juice, oil, and chemicals. With its automatic filling technology, this machine ensures precision, speed, and consistency in filling IBCs, saving time and resources in the production process.

This filling machine is easy to operate and maintain, with a user-friendly interface that simplifies the filling process. It has a robust and durable design that guarantees long-lasting performance and reduces the risk of downtime. The machine is also equipped with safety features such as emergency stop and overload protection, ensuring safe and reliable operation.

The IBC filling machine is a type of filling machine that is specifically designed for filling intermediate bulk containers (IBCs). It is a perfect solution for businesses that require large quantity filling of IBCs. This machine is suitable for various industries, including food and beverage, chemical, pharmaceutical, and cosmetic.

Overall, the IBC liquid filling equipment is a reliable and efficient solution for filling IBCs with different kinds of liquids. With its automatic filling technology, it ensures accurate and consistent filling, making it a valuable investment for businesses that require high-quality filling equipment.

#### Product Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	4-14pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	350	Overall Dimension (mm)	700*500*1100

#### Applications:

The IBC filling machine is suitable for filling a wide range of materials in IBCs, including chemicals, lubricants, and oils. Its feeding type allows for upon liquid surface filling, which ensures that the liquid is filled up to the brim without any air pockets. This ensures that the IBCs are filled to their maximum capacity, and there is no wastage of the liquid.

The IBC liquid filling equipment is best suited for applications where the liquid needs to be dispensed with accuracy and speed. The product's fully automatic open-fill-top feature ensures that the filling process is quick and efficient. Additionally, the filling range of 10-50 L makes it ideal for industries that deal with large quantities of liquid.

The IBC filling machine is a reliable product that is built to last. It comes with a 1-year warranty, which ensures that customers can use the product without any worries. This product is easy to maintain, and its durable construction ensures that it can withstand the rigors of daily use.

The IBC liquid dispensing system is an essential product for industries that require accurate and efficient filling of liquids in IBCs. Its advanced features ensure that the filling process is quick, accurate, and efficient. This product is ideal for industries that deal with large quantities of liquids and require a reliable product that can meet their needs.

#### Customization:

Our intermediate bulk container filling system is designed for filling water-based paint efficiently. Choose wood packing for secure transportation and handling of your equipment.

We offer voltage options of 220V/380V to suit your needs. Contact us to customize your IBC liquid dispensing system today!

## Support and Services:

The IBC filling machine is a high-quality product designed to efficiently and accurately fill intermediate bulk containers (IBCs) with a variety of liquids and semi-solids. Our technical support and services team is dedicated to ensuring the optimal performance of your machine and minimizing any downtime. Our services include:

Installation and commissioning

Operator training

Preventative maintenance

Remote diagnostics

On-site repairs

Replacement parts

Upgrades and retrofits

Our experienced technicians are available to assist with any technical issues or questions you may have. We also offer customized service plans to fit your specific needs and budget. Contact us today to learn more.

## Packing and Shipping:

### Product Packaging:

The IBC filling machine will be securely packaged in a wooden crate to prevent any damage during transportation. The crate will be marked with the product name and shipping details for easy identification.

### Shipping:

The IBC filling machine will be shipped via a reputable courier service to ensure timely and safe delivery. Shipping costs will be calculated based on the destination and weight of the package. Customers will be provided with a tracking number to monitor the shipment status.
