

Electric IBC Filling Equipment For 10-50L Filling Range Drum Barrel Can Voltage 220V 380V

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Electric IBC Filling Machine For 10-50 L Filling Range Drum/Barrel/Can Voltage 220V/380V
- Filling Range: 10-50 L
- Feeding Type: Upon Liquid Surface Filling
- Warranty: 1 Year
- Bottle Type: Drum, Barrel, Can
- Function: Filler Water-based Paint
- Powder: Electric
- Application: Machinery & Hardware
- Highlight: **Drum ibc machine 220V ,
Barrel ibc machine 380V , IBC Barrel Filler**

Product Description

Electric IBC Filling Machine For 10-50 L Filling Range Drum/Barrel/Can Voltage 220V/380V

Product Description:

Our IBC liquid filling equipment is a type of filling machine that is specifically designed for the purpose of filling liquid products into IBC containers. With its advanced technology, this filling machine ensures that your product is filled with precision, accuracy, and speed, ensuring a seamless and efficient filling process.

The feeding type for this filling machine is upon liquid surface filling, making it the perfect solution for any liquid product that needs to be filled into an IBC container. Whether you are dealing with food products, pharmaceuticals, chemicals, or any other liquid material, our IBC filling machine is the ideal choice for you.

One of the standout features of our Intermediate Bulk Container filling system is its air consumption, which is only 0.5m³/min. This makes it a highly energy-efficient and cost-effective solution for all your liquid filling needs.

When you choose our IBC filling machine, you can rest assured that you are investing in a high-quality product that is built to last. We offer a 1-year warranty on our filling machines, ensuring complete peace of mind for our customers.

So why wait? Choose our Intermediate Bulk Container filling system today and enjoy a seamless and efficient liquid filling process that is sure to exceed your expectations.

Product Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	4-14pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	350	Overall Dimension (mm)	700*500*1100

Applications:

One of the main advantages of this IBC liquid bottling machine is its suitability for IBC containers. IBC containers are widely used in various industries, including chemical, pharmaceutical, and food processing. The IBC filling machine is an ideal choice for companies that need to fill and package liquids in IBC containers.

The IBC fully automatic open-fill-top filling machine is also equipped with feeding type upon liquid surface filling technology. This ensures that the liquid is filled accurately and without any air bubbles, which can compromise the quality of the product. The machine is also designed to handle wood packing material, which offers excellent protection for the IBC containers during transportation and storage.

The IBC liquid dosing equipment is also highly efficient and reliable, making it a perfect fit for high-volume production environments. The electric powder technology ensures that the filling process is fast and accurate, helping to increase productivity and reduce waste.

The IBC liquid dispensing system is suitable for a wide range of applications, including chemical mixing, food processing, and pharmaceutical production. Companies that need to fill and package liquids in IBC containers can benefit from the versatility and reliability of this machine.

In summary, the IBC fully automatic open-fill-top filling machine is a highly efficient and reliable solution for filling liquid materials in IBC containers. Its versatility, reliability, and efficiency make it a perfect fit for a wide range of applications, including chemical, pharmaceutical, and food processing. Companies that need to fill and package liquids in IBC containers can rely on this machine for accurate, fast, and efficient filling and packaging.

Customization:

Our filling machine is customizable to meet your specific needs. Our product customization services include:

Brand Name: Electric IBC Filling Machine For 10-50 L Filling Range Drum/Barrel/Can Voltage 220V/380V

Suitable Materials: IBC

Packing Material: Wood Packing

Application: Machinery & Hardware

Voltage: 220V/380V

Air Consumption: 0.5m³/min

With our customization services, we can provide you with bespoke IBC liquid dosing equipment, IBC liquid packaging machine, and IBC liquid bottling machine that meet your unique requirements. Contact us today to learn more about our product customization services.

Support and Services:

Our IBC filling machine product comes with comprehensive technical support and services to ensure that it operates at optimal efficiency. Our team of experts is available to provide assistance with installation, maintenance, troubleshooting, and repairs. We also offer training services to ensure that your staff is equipped with the knowledge and skills necessary to operate the machine safely and effectively. Additionally, we provide spare parts and upgrades to enhance the performance and longevity of your IBC filling machine. Contact us today for more information on our technical support and services for this product.

Packing and Shipping:

Product Packaging:

The IBC filling machine will be securely packaged in a wooden crate to ensure safe transportation.

All necessary parts and components will be included in the package.

A user manual and installation guide will also be provided.

Shipping:

The product will be shipped via a reliable freight carrier to the customer's designated location.

The shipping cost will be calculated based on the customer's location and included in the final price.

The estimated shipping time will be provided to the customer upon purchase.

FAQ:

Q: What is the brand name of the filling machine?

A: The brand name of Electric IBC Filling Machine For 10-50 L Filling Range Drum/Barrel/Can Voltage 220V/380V

Q: What type of containers can be filled with this machine?

A: This machine is designed to fill Intermediate Bulk Containers (IBCs) of various sizes.

Q: What is the filling capacity of the machine?

A: The filling capacity of the machine can be adjusted to fill containers with a volume ranging from 1000 to 1500 liters.

Q: Is the machine fully automatic?

A: Yes, the IBC fully automatic open-fill-top filling machine is fully automatic and can be operated with minimal human intervention.

Q: What is the fill accuracy of the machine?

A: The machine has a high fill accuracy of up to +/- 0.2%.
