

## 220V/50Hz 0.1m<sup>3</sup>/Min Air Pressure 5-100ml Filling Volume Stainless Steel Filling And Capping Machine

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG1500F-C
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: T/T, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: 220V/50Hz 0.1m<sup>3</sup>/Min Air Pressure 5-100ml Filling Volume Stainless Steel Filling And Capping Machine
- Air Consumption: 0.1m<sup>3</sup>/min
- Power Supply: 220V/50Hz
- Filling Volume: 5-100ml
- Material: Stainless Steel
- Filling Method: Semi-automatic
- Capping Method: Semi-automatic
- Air Pressure: 0.4-0.6MPa
- Highlight: 220v liquid filling and capping machine,  
220v semi automatic filling and capping machine  
, 50hz liquid filling and capping machine

## Product Description

### 220V/50Hz 0.1m<sup>3</sup>/Min Air Pressure 5-100ml Filling Volume Stainless Steel Filling And Capping Machine

#### Product Description:

- Wide versatility
- Suitable for many kinds of barrel filling
- Simple to use, easy to operate
- The quality of imported products, the price of third-rate products

Safe to use , Comfortable to use.

#### Technical Parameters:

Air Pressure	0.4-0.6MPa
Filling Volume	5-100ml
Air Consumption	0.1m <sup>3</sup> /min
Material	Stainless Steel
Filling Method	Semi-automatic
Capping Speed	20-40 Bottles/min
Power Supply	220V/50Hz
Capping Method	Semi-automatic
Filling Accuracy	±1%

This table shows the technical parameters of the Semi-automatic filling and capping machine, also known as Filling Capping Machine or Can Filling Machine.

#### Applications:

The capping method of this machine is semi-automatic, which means that it requires some manual input but still streamlines the filling and capping process. It operates on an air pressure of 0.4-0.6MPa and has a filling accuracy of ±1%. Additionally, it has an air consumption of 0.1m<sup>3</sup>/min and a capping speed of 20-40 bottles/min.

This semi-automatic filling and capping machine is a great choice for a variety of product application occasions and scenarios. It is ideal for use in industries such as food and beverage, pharmaceuticals, and cosmetics. It can be used to fill and cap a wide range of products, including liquids, creams, and gels.

Some specific product application occasions and scenarios where this filling capping machine would be useful include:

Small to medium-sized businesses that want to streamline their filling and capping process without investing in a fully automatic filling and packing machine

Businesses that need to fill and cap a variety of products, such as those in the food and beverage, pharmaceutical, and cosmetics industries

Businesses that need to fill and cap products quickly and efficiently to meet demand

Businesses that want to ensure high accuracy and consistency in their filling and capping process  
Overall, if you're looking for a reliable, efficient, and versatile filling machine for your business, our 20L semi-automatic capping filling machine is an excellent choice.

### Customization:

### Support and Services:

The Semi-automatic filling and capping machine is a highly efficient and easy-to-use equipment designed to meet the needs of small to medium-sized businesses. Our product technical support team is available to provide assistance with any issues that may arise during use or installation of the machine.

Our services include:

Installation and set-up support

Training for operators

Regular maintenance to ensure optimal performance

Technical troubleshooting and repair services

Replacement parts and accessories

We are committed to providing exceptional customer service and ensuring that our clients get the most out of their investment in our products. Please don't hesitate to contact us with any questions or concerns.

### Packing and Shipping:

## PACKING&SHIPPING

### FAQ:

**Q1: What is the brand name of the filling and capping machine?**

A1: The brand name of the machine is semi-automatic capping filling machine.

**Q2: Is the machine certified?**

A2: Yes, the machine is certified with CE certification.

**Q3: What is the minimum order quantity for the machine?**

A3: The minimum order quantity for the machine is 1.

**Q4: Does the machine require any special training to operate?**

A4: No, the machine is designed to be user-friendly and easy to operate. However, we do offer training and installation services upon request.

**Q5: What is the warranty period for the machine?**

A5: The warranty period for the machine is not included in this Q&A as per the task requirements. Please refer to the warranty-related content section for this information.
