

## 2000kg Liquid Filling Machine 5L Barrel High Accuracy Automatic Liquid Packing Machine

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

### Product Specification

- Product Name: 2000kg PLC Control System 5L Barrel Liquid Up Filling Machinery With Volumetric Filling Accuracy
- Product: 5L Barrel Liquid Filling And Capping Machine
- Control System: PLC
- Weight: 2000kg
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Filling Nozzles: 4/6/8/12
- Air Pressure: 0.4-0.6MPa
- Suitable For: Liquid Products
- Highlight: 2000kg liquid filling machine, liquid filling machine 5L,

## Product Description

### 2000kg PLC Control System 5L Barrel liquid up filling machinery With Volumetric Filling Accuracy

#### Product Description:

The 5L Barrel Liquid Filling and Capping Machine is a standout product in this series. It is specifically designed for filling and capping 5L barrels, making it perfect for medium-sized businesses. This machine is capable of handling a range of liquid products, including water-based paints. It has a filling accuracy of  $\pm 0.5\%$ , ensuring that every barrel is filled to the correct level. The Liquid Filling Machine Series is powered by air pressure, with a recommended range of 0.4-0.6MPa. This ensures that the machines operate smoothly and reliably, even in demanding industrial environments. The series is available in a range of filling nozzle configurations, including 4, 6, 8, and 12 nozzles. This allows businesses to choose a model that best suits their needs. Overall, the Liquid Filling Machine Series is an excellent choice for businesses that require reliable and accurate hydraulic liquid filling machines. It is suitable for a range of liquid products, including water-based paints, and is available in a range of configurations to suit different business needs. The 5L Barrel Liquid Filling and Capping Machine is a standout product in the series, providing exceptional accuracy and efficiency for medium-sized businesses.

#### Product Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

#### Applications:

The liquid filling machine is equipped with the latest PLC control system, ensuring accurate and reliable filling of liquids. This machine has a filling accuracy of Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine, making it one of the most accurate liquid up-filling machinery on the market.

The Liquid Filling And Capping Machine series is perfect for pouring and capping systems. It is designed to handle a wide range of liquid products, from water-based paints to chemicals. This machine is highly adaptable and can be configured to work with various types of containers, including jars, bottles, and cans.

This liquid up-filling machinery is suitable for a variety of application occasions and scenarios. It is ideal for businesses that need to fill a large number of liquid products quickly and efficiently. The Liquid Filling And Capping Machine series is perfect for use in factories, warehouses, and other industrial settings where large volumes of liquid products need to be filled.

In summary, the Liquid Filling And Capping Machine series is a highly reliable and accurate liquid up-filling machinery that is perfect for businesses looking to automate their liquid products filling processes. It is suitable for a wide range of liquid products and is highly adaptable to various types of containers. With its PLC control system and high filling accuracy, this machine is a must-have for any business that needs to fill liquid products quickly and efficiently.

## Customization:

## Support and Services:

The Liquid Filling Machine Series is a high-performance product that offers technical support and services to ensure that it runs smoothly and efficiently. Our team of experts is available to provide assistance with installation, training, maintenance, and repair. We also offer a range of services to help optimize the performance of the machine, including calibration, validation, and preventative maintenance. Our goal is to provide our customers with the highest level of support and service to ensure that they get the most out of their investment in our product.

## Packing and Shipping:

### Product Packaging:

The liquid filling machine series product will be securely packaged in a sturdy cardboard box.

The product will be wrapped with protective materials to prevent damage during transit.

All necessary components and accessories will be included in the package.

### Shipping:

The liquid filling machine series product will be shipped via a reputable courier service.

The shipping cost will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number to monitor the delivery status of their package.

The estimated delivery time will depend on the destination and courier service selected.

## FAQ:

### 1. What is the minimum order quantity for the Liquid Filling And Capping Machine?

The minimum order quantity for the Liquid Filling And Capping Machine is 1.

### 2. Is the Liquid Filling And Capping Machine CE certified?

Yes, the Liquid Filling And Capping Machine is CE certified.

### 3. What are the payment terms for purchasing the Liquid Filling And Capping Machine?

The payment terms for purchasing the Liquid Filling And Capping Machine are TT.

### 4. How is the Liquid Filling And Capping Machine packaged for shipping?

The Liquid Filling And Capping Machine is packaged in a wooden box for shipping.

### 5. Can the Liquid Filling And Capping Machine be customized to fit specific needs?

Yes, the Liquid Filling And Capping Machine can be customized to fit specific needs. Please contact our sales team for more information.
