

PLC Controlled 0.4-0.6MPa Air Pressure Chemical Liquid Filling Series For Water Based Paint

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

Product Specification

- Product: PLC Controlled 0.4-0.6MPa Air Pressure Chemical Liquid Filling Machine Series For Water Based Paint
- Suitable For: Liquid Products
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Power Supply: 220V/50Hz
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Filling Nozzles: 4/6/8/12
- Weight: 2000kg
- Highlight: 0.4MPa Air Pressure Liquid Filling Machine, 0.6MPa Air Pressure Liquid Filling Machine,

Product Description

PLC Controlled 0.4-0.6MPa Air Pressure Chemical Liquid Filling Machine Series for Water Based Paint

Product Description:

Our machines are designed to offer accurate and efficient filling of water-based paints and other chemical liquids. With a filling accuracy of up to 99%, you can be sure that your products will be filled with precision and consistency.

The Liquid Filling Machine Series is equipped with advanced pouring and capping systems, ensuring a smooth and efficient production process. Our machines are easy to operate, with a user-friendly interface that reduces the need for specialized training.

Our Liquid Filling Machine Series is built to last, with a sturdy construction that can withstand the demands of continuous production. With a weight of 2000kg, our machines are stable and reliable, ensuring a steady production flow that meets your requirements.

The Liquid Filling Machine Series runs on a 220V/50Hz power supply, making it suitable for use in a wide range of settings. The machines require an air pressure of 0.4-0.6MPa to operate, ensuring a consistent and reliable performance.

Investing in our Liquid Filling Machine Series means investing in a reliable, efficient, and accurate liquid up-filling machinery solution. Our machines are designed to meet the demands of modern production, ensuring a smooth and efficient production process that delivers high-quality products every time.

Product Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

Applications:

One notable attribute of the Liquid Filling and Capping Machine series is its filling accuracy. With its Chemical Liquid Filling Machine Series for Water Based Paint Volumetric Liquid Filling Machine, you can ensure accurate measurements of your liquid products. It is available in 4/6/8/12 filling nozzles, allowing you to choose the most suitable configuration for your business needs. The air pressure for the machine ranges from 0.4-0.6MPa, making it energy efficient and cost-effective.

The Liquid Filling and Capping Machine series is suitable for various liquid products, such as water, oil, and even viscous liquids like shampoo. Its PLC control system ensures efficient and accurate operations. The pouring and capping systems of the machine make the filling process seamless and efficient, saving you time and effort.

Overall, the Liquid Filling and Capping Machine series is a versatile and reliable liquid up-filling machinery that is perfect for various occasions and scenarios. Whether you are a small startup or a large corporation, this machine can accommodate your liquid filling needs. Its precise measurements, energy efficiency, and easy-to-use system make it an essential tool for any liquid product business.

Customization:

Support and Services:

Our Liquid Filling Machine Series product comes with comprehensive technical support and services, ensuring that our customers have access to expertise when they need it. Our team of experienced technicians is available to answer any questions and provide guidance on installation, operation, and maintenance. We also offer customized training programs to ensure that customers are equipped with the skills and knowledge needed to operate the product efficiently. In addition, we provide regular maintenance and repair services to keep the Liquid Filling Machine Series product operating at peak performance. Our aim is to ensure that our customers achieve maximum value from their investment in our product.

Packing and Shipping:

Product Packaging:

The Liquid Filling Machine Series product will be carefully packaged in a sturdy cardboard box to ensure its safe delivery. The machine will be wrapped in bubble wrap and secured with packing peanuts to prevent any damage during shipping.

Shipping:

We offer free shipping for the Liquid Filling Machine Series product to customers within the United States. For international orders, shipping fees will apply and will vary depending on the destination. We use reliable carriers such as FedEx and UPS to ensure timely and safe delivery of your product. Once your order is processed, you will receive a tracking number via email so you can track your package's progress.

FAQ:

Q: What is the brand name of the liquid filling machine?

A: The brand name of the liquid filling machine is PLC Controlled 0.4-0.6MPa Air Pressure Chemical Liquid Filling Machine Series for Water Based Paint

Q: Is this product certified?

A: Yes, this product is certified with **CE** certification.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is **1**.

Q: How is this product packaged for shipping?

A: This product is packaged in a **wooden box** for safe and secure shipping.

Q: What are the accepted payment terms for this product?

A: The accepted payment terms for this product are **TT**.
