

## Volumetric Hydraulic Liquid Filling Machines With 4-12 Nozzles Filling And Capping Machine

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG1500F-C
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, T/T
- Supply Ability: 1set/week

### Product Specification

- Product Name: Volumetric Hydraulic Liquid Filling Machines With 4-12 Nozzles Filling And Capping Machine
- Product: 5L Barrel Liquid Filling And Capping Machine
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Weight: 2000kg
- Power Supply: 220V/50Hz
- Suitable For: Liquid Products
- Highlight: Volumetric liquid filling and sealing machine, 6 nozzle liquid filling and sealing machine,

## Product Description

### Volumetric Hydraulic Liquid Filling Machines With 4-12 Nozzles Filling And Capping Machine

#### Product Description:

The Liquid Filling Machine Series is perfect for filling various liquid products, including beverages, chemical solutions, and even oil-based products. This machine is equipped with pouring and capping systems, ensuring that your products are accurately filled and sealed properly for a more efficient and streamlined production process.

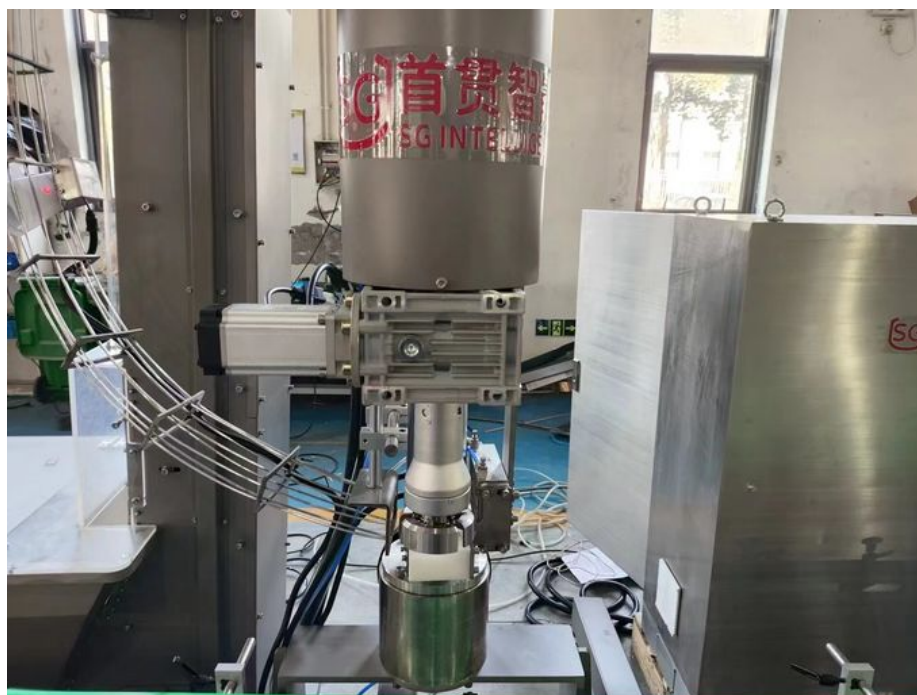

Our hydraulic liquid filling machines are easy to operate, thanks to its user-friendly control system. The machine is equipped with a programmable logic controller (PLC) that offers a customizable and easy-to-use interface. The PLC control system ensures that all operations are accurate and precise, resulting in consistent and high-quality output.

One of the advantages of using our Liquid Filling Machine Series is that it operates on air pressure, specifically 0.4-0.6MPa. This feature makes it cost-effective and energy-efficient, making it an excellent investment for your business. Additionally, this hydraulic liquid filling machine features a high level of automation, which means that it can operate continuously without the need for manual intervention, which can ultimately save you time and resources.

In summary, our Liquid Filling Machine Series, specifically the 5L Barrel Liquid Filling And Capping Machine, is a reliable and efficient solution for your liquid filling needs. It is suitable for various liquid products, equipped with pouring and capping systems, and operates on air pressure. The PLC control system ensures accurate and precise operations, and its high level of automation makes it a cost-effective and time-saving investment for your business.

#### Product Parameters

Filling Quantity	≤40kg	Barrel Specification	≤ diameter 300* height 400mm
Filling Index Value	1g, 2g,5g,10g	Filling Speed	8-25pcs/Min
Power	AC380/220 50HZ	Air Supply	0.6 MPa
Weight(kg)	800	Overall Dimension (mm)	2500*1100*2200

#### Applications:

The Liquid Filling and Capping Machine is a 5L Barrel Liquid Filling and Capping Machine that is perfect for various liquid up-filling machinery needs. It has a filling accuracy that is suitable for chemical liquid filling machine series such as water-based paint volumetric liquid filling machine. The machine is equipped with a PLC control system for efficient and reliable operation. It has a weight of 2000kg and requires an air pressure of 0.4-0.6MPa for optimal performance.

The Liquid Filling and Capping Machine is ideal for various product application occasions and scenarios. For instance, it is perfect for use in the food and beverage industry, for filling liquid substances such as juice, milk, and water. Additionally, it can also be used in the pharmaceutical industry for filling liquid medicines and solutions. It is also great for use in the chemical industry for filling chemical liquids and other substances.

The Liquid Filling and Capping Machine has state-of-the-art pouring and capping systems that ensure accurate and efficient filling of liquid substances. It is also equipped with hydraulic liquid filling machines that make the filling process smooth and seamless. With its high-quality features, this product is a great addition to any manufacturing company that requires efficient and reliable liquid up-filling.

machinery.

## Customization:

Choose from 4, 6, 8, or 12 filling nozzles for your liquid up-filling machinery needs. The air pressure ranges from 0.4-0.6MPa and the filling accuracy is precise for chemical liquid filling machine series for water-based paint volumetric liquid filling machine. The control system is a PLC system.

Our pouring and capping systems can be tailored to your specifications. Contact us today to learn more about our liquid up-filling machinery and customization services.

## Support and Services:

The Liquid Filling Machine Series is a high-quality and versatile solution for filling liquids of varying viscosities and volumes. Our team of technical support experts is available to assist with any questions or issues that may arise during installation, operation, or maintenance of the machine.

Our services include:

Installation and setup assistance

Training for operators and maintenance personnel

Regular maintenance and calibration services

Repair and replacement of components

Technical troubleshooting and support

Our goal is to ensure that your Liquid Filling Machine is always operating at peak performance, minimizing downtime and maximizing productivity for your business.

## Packing and Shipping:

### Product Packaging:

Each liquid filling machine series product will be packed in a sturdy cardboard box.

The product will be wrapped in bubble wrap to prevent damage during shipping.

All necessary accessories and instructions will be included in the package.

### Shipping:

Shipping will be fulfilled through our trusted courier partners.

Delivery time may vary depending on the destination.

Customers will receive a tracking number once the order has been shipped.

Shipping costs will be calculated based on the destination and weight of the package.

## FAQ:

**Q: What is the brand name of this liquid filling machine?**

A: The brand name of this machine is Liquid Filling and Capping Machine.

**Q: Is this machine certified?**

A: Yes, this machine is CE certified.

**Q: What is the minimum order quantity for this product?**

A: The minimum order quantity for this product is 1.

**Q: How is this machine packaged?**

A: This machine is packaged in a wooden box.

**Q: What are the payment terms for this product?**

A: The payment terms for this product are TT (telegraphic transfer).
