

Chemical Automatic Liquid Filling Machine 5L Barrel Water Filling Machine 4 - 12 Nozzles 220V 50Hz

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Chemical Liquid Filling Machine Series 5L Barrel PLC Control 4-12 Nozzles 220V/50Hz Power Supply
- Air Pressure: 0.4-0.6MPa
- Control System: PLC
- Power Supply: 220V/50Hz
- Suitable For: Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Weight: 2000kg
- Product: 5L Barrel Liquid Filling And Capping Machine
- Highlight: **chemical automatic liquid filling machine, automatic liquid filling machine 5L,**

Product Description

Chemical Liquid Filling Machine Series 5L Barrel PLC Control 4-12 Nozzles 220V/50Hz Power Supply

Product Description:

The machine is powered by a 220V/50Hz power supply and requires an air pressure of 0.4-0.6MPa to operate. With 4/6/8/12 filling nozzles, the Liquid Filling Machine Series can handle a variety of product filling needs.

The 5L Barrel Liquid Filling and Capping Machine is a heavy-duty machine, weighing in at 2000kg. Its sturdy construction ensures durability and longevity, making it a reliable choice for any production line.

The advanced pouring and capping systems of the Liquid Filling Machine Series make it an ideal choice for businesses that require fast and accurate filling and capping of liquid products. Its multiple filling nozzles allow for efficient production and increased output.

Applications:

The Liquid Filling and Capping Machine is designed to be flexible and versatile, with a variety of filling nozzles available in 4/6/8/12 configurations. It is also equipped with a PLC control system, which ensures that the machine operates accurately and efficiently. This machine is powered by a 220V/50Hz power supply, which is common in most countries around the world.

The Liquid Filling and Capping Machine is suitable for a wide range of liquid products, including water, milk, juice, oil, and more. Its pouring and capping systems make it easy to fill and seal bottles, jars, and other containers quickly and efficiently. Additionally, the machine's wooden box packaging ensures that it arrives at its destination in perfect condition.

Some application occasions and scenarios where the Liquid Filling and Capping Machine can be used include:

Food production facilities: The Liquid Filling and Capping Machine is perfect for filling and capping food products such as sauces, dressings, and condiments.

Pharmaceutical companies: This machine can be used to fill and cap liquids such as medicines, syrups, and cough drops.

Cosmetic manufacturers: The Liquid Filling and Capping Machine is ideal for filling and capping products such as shampoos, conditioners, and lotions.

Chemical plants: This machine can be used to fill and cap chemicals such as solvents, cleaners, and disinfectants.

Overall, the Liquid Filling and Capping Machine is a versatile and reliable machine that can help businesses of all sizes to fill and cap their liquid products quickly and efficiently. With its CE certification, flexible nozzle options, and PLC control system, this machine is a must-have for any business that needs to fill and cap liquids.

Customization:

Support and Services:

The Liquid Filling Machine Series is a state-of-the-art product designed for seamless and efficient liquid filling operations. Our technical support and services include:

1. **Installation and Setup Assistance:** Our team of experts can assist you with installation and setup of the liquid filling machine to ensure

that it is configured correctly and ready for use.

2. **Training and Support:** We offer comprehensive training and support to ensure that your staff is fully equipped to operate and maintain the liquid filling machine. This includes hands-on training, instructional videos, and user manuals.
3. **Maintenance and Repair Services:** Our team of certified technicians provides maintenance and repair services to keep your liquid filling machine in optimal condition. We offer both on-site and remote support options.
4. **Upgrades and Customizations:** We offer a range of upgrades and customizations to enhance the functionality and performance of your liquid filling machine. This includes software upgrades, hardware enhancements, and custom programming.
5. **Spare Parts and Accessories:** We maintain an extensive inventory of spare parts and accessories to ensure that you have the necessary components on hand to keep your liquid filling machine running smoothly.

Packing and Shipping:

Product Packaging:

The liquid filling machine series product will be securely packed in a sturdy cardboard box.

Inside the box, the machine will be wrapped in protective materials to prevent any damage during transport.

The box will be sealed with strong packing tape to ensure that the machine does not shift during shipping.

Shipping:

The liquid filling machine series product will be shipped via a reputable courier service.

Shipping fees will be calculated based on the destination and weight of the package.

Customers will receive a tracking number via email to track their package.

Delivery times may vary depending on the destination, but we strive to deliver all orders as quickly as possible.

FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is Liquid Filling And Capping Machine.

Q: Is the product certified?

A: Yes, the product is certified with CE certification.

Q: What is the minimum order quantity?

A: The minimum order quantity is 1.

Q: What is the packaging detail for the product?

A: The packaging detail for the product is wooden box.

Q: What are the payment terms?

A: The payment terms are TT (Telegraphic Transfer).
