

220V PLC Control Liquid Filling Machine Water Based Paint Filling Machine Series For 5L Barrel Liquid Products

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: 220V PLC Control System Water Based Paint Filling Machine Series For 5L Barrel Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Suitable For: Liquid Products
- Product: 5L Barrel Liquid Filling And Capping Machine
- Air Pressure: 0.4-0.6MPa
- Filling Nozzles: 4/6/8/12
- Control System: PLC
- Weight: 2000kg
- Highlight: **plc control liquid filling machine, water based paint filling machine,**

Product Description

220V PLC Control System Water Based Paint Filling Machine Series for 5L Barrel Liquid Products

Product Description:

Designed to handle liquid products with ease and precision, this machine is ideal for use in industries such as food and beverage, cosmetics, pharmaceuticals, and chemical manufacturing. The machine is capable of filling products with a wide range of viscosities, from thin liquids such as juice and water to thicker products like syrup and oil.

The Liquid Filling Machine Series is equipped with a user-friendly control system that is easy to operate. The PLC control system ensures accurate filling volumes and allows for easy adjustments to meet varying production needs. The machine is also designed to be easily integrated into existing pouring and capping systems, making it a versatile addition to any manufacturing line.

With a power supply of 220V/50Hz, this machine is built to last. It is constructed with high-quality materials and components that are designed to withstand the demands of continuous production. The pouring and capping systems are also customizable, allowing for a variety of bottle shapes and sizes to be filled and capped.

In conclusion, the Liquid Filling Machine Series is a reliable and efficient solution for liquid filling applications. It offers a range of filling nozzle options, is suitable for a variety of liquid products, has a user-friendly control system, easily integrates with existing pouring and capping systems, and is built to last.

Applications:

The Liquid Filling And Capping Machine is an ideal choice for pouring and capping systems. It is designed to fill and seal bottles, jars, and other containers with precision and accuracy. The product is equipped with a volumetric liquid filling machine that can handle a wide range of liquids, including water-based paints, chemicals, and pharmaceuticals. The filling accuracy is top-notch, making it the perfect choice for industries that require precise dosing and measurements.

The Liquid Filling And Capping Machine comes with a control system that is powered by PLC. The system is easy to operate and can be customized to meet the specific needs of your business. The product is also equipped with 4/6/8/12 filling nozzles, making it easy to fill multiple containers at once.

The Liquid Filling And Capping Machine is designed to operate at air pressures of 0.4-0.6MPa, making it highly efficient and cost-effective. The product is also designed to handle a weight of 2000kg, making it perfect for heavy-duty applications.

If you are looking for a high-quality liquid up-filling machinery that can handle a wide range of applications, the Liquid Filling And Capping Machine is the perfect choice. It is ideal for industries that require precise measurements and dosing, including pharmaceuticals, chemicals, and food processing. The product is easy to operate, highly efficient, and comes with a range of features that make it a top-performing product in its class.

Contact us today to learn more about the Liquid Filling And Capping Machine and to place your order. We accept TT as payment terms and offer fast and reliable shipping to ensure that your product arrives in perfect condition.

Customization:

Support and Services:

The Liquid Filling Machine Series provides reliable and efficient solutions for filling liquid products in various industries.

Our technical support team is available to assist with any questions or concerns regarding the installation, operation, and maintenance of

the machine. We offer on-site training to ensure proper usage and minimize downtime. In addition, we provide a range of services to meet the specific needs of our customers. This includes customized machine design, integration with existing production lines, and ongoing technical support and maintenance. Our goal is to ensure the highest level of customer satisfaction and maximize the productivity of your operations.

Packing and Shipping:

Product Packaging:

The Liquid Filling Machine Series product will be packed in a sturdy cardboard box with appropriate cushioning to ensure safe transportation. The product will be sealed in a plastic wrap to protect it from any external damage.

Shipping:

The Liquid Filling Machine Series product will be shipped from our warehouse within 2 business days of receiving the order. We offer both domestic and international shipping options. The shipping charges may vary depending on the location and shipping method selected by the customer. We will provide a tracking number once the product is shipped so that the customer can track the shipment status.

FAQ:

Q: What is the brand name of the liquid filling machine series?

A: The brand name is Liquid Filling And Capping Machine.

Q: Is this product certified?

A: Yes, this product is CE certified.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity is 1.

Q: How is the product packaged?

A: The product is packaged in a wooden box.

Q: What are the payment terms for this product?

A: The payment terms are TT (Telegraphic Transfer).
