

4-12 Nozzles Volumetric Liquid Filling Machine Series 220V Chemical Liquid Filler Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: 4-12 Nozzles Volumetric Filling Machine Series 220V Air Pressure Chemical Liquid Filler Filling And Capping Machine
- Control System: PLC
- Suitable For: Liquid Products
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Filling Nozzles: 4/6/8/12
- Product: 5L Barrel Liquid Filling And Capping Machine
- Weight: 2000kg
- Air Pressure: 0.4-0.6MPa
- Highlight: volumetric liquid filling machine series, liquid filling machine series 220v,

Product Description

4-12 Nozzles Volumetric Filling Machine Series 220V Air Pressure Chemical Liquid Filler Filling And Capping Machine

Product Description:

Our Liquid Filling Machine Series is ideal for filling various liquid products, including water-based paints, and is designed to operate with a Power Supply of 220V/50Hz. With its advanced features, you can be sure of achieving accurate filling results every time, thanks to its Chemical Liquid Filling Machine Series for Water Based Paint Volumetric Liquid Filling Machine.

Our hydraulic liquid filling machines are built to the highest standards, and you can trust them to deliver reliable and consistent performance in your manufacturing process. They come equipped with efficient pouring and capping systems, ensuring that your production line runs smoothly and efficiently.

The Liquid Filling Machine Series is designed to deliver top-notch performance, making it the perfect investment for any manufacturer looking to streamline their production process. With its advanced features, you can be sure to achieve the highest level of efficiency in your manufacturing process while maintaining high levels of accuracy and consistency in your product output.

Investing in our hydraulic liquid filling machines is a wise decision, as they are built to last and deliver long-lasting performance, ensuring that your production line runs smoothly and efficiently for years to come. With our Liquid Filling Machine Series, you can rest assured that you will achieve the highest level of performance and efficiency in your manufacturing process.

Applications:

This machine is designed to fill and cap liquids with ease and accuracy. It has 4, 6, 8, or 12 filling nozzles depending on the model. The filling accuracy is top-notch, making it perfect for chemical liquid filling, water-based paint volumetric liquid filling, and other applications. With a weight of 2000kg, this machine is sturdy and built to last. The pouring and capping systems are efficient, ensuring that liquids are filled and capped with precision. The Liquid Filling and Capping Machine is suitable for a variety of occasions and scenarios, including:

- Manufacturing plants

- Pharmaceutical companies

- Food and beverage industries

- Chemical processing plants

- Cosmetics industries

It is ideal for filling and capping bottles, jars, cans, and other containers. It can fill liquids of different viscosities, including oils, syrups, and chemical liquids.

Overall, the Liquid Filling and Capping Machine is a reliable and efficient solution for filling and capping liquids in various industries.

Whether you need to fill and cap a small or large volume of liquids, this machine can handle it with ease.

Customization:

Pouring and capping systems are available for customization on our Liquid Filling And Capping Machine series. This product is CE certified and has a minimum order quantity of 1. Packaging is done in wooden boxes and payment terms are TT. The weight of the product is 2000kg and it has filling nozzles ranging from 4 to 12. The 5L Barrel Liquid Filling And Capping Machine is designed for liquid up-filling machinery and operates at an air pressure of 0.4-0.6MPa with a power supply of 220V/50Hz.

Support and Services:

The Liquid Filling Machine Series offers reliable and efficient filling solutions for a variety of liquid products, including beverages, chemicals, and oils. Our machines are designed for user-friendly operation and easy maintenance, making them ideal for small to medium-sized businesses.

We provide comprehensive technical support and services to ensure optimal performance and minimize downtime. This includes:

Installation and training

Equipment maintenance and repair

Performance optimization and customization

Parts replacement and upgrades

24/7 customer support and troubleshooting

Our experienced team of technicians is dedicated to delivering top-notch service and helping our customers achieve their production goals. Contact us today to learn more about our Liquid Filling Machine Series and how we can support your business needs.

Packing and Shipping:

Product Packaging:

The liquid filling machine series product will be packaged securely in a sturdy cardboard box.

All components of the machine will be wrapped in protective materials to prevent damage during transportation.

The box will be labeled with the product name, model number, and other relevant information for easy identification.

Shipping:

The liquid filling machine series product will be shipped via a reputable carrier.

The shipping cost will be calculated based on the destination, weight, and dimensions of the package.

The estimated delivery time will depend on the shipping method selected and the destination.

Customers will receive a tracking number to monitor the progress of their shipment.

FAQ:

Q: What is the brand name of the filling machine?

A: The brand name of the filling machine is **Liquid Filling And Capping Machine**.

Q: Is the filling machine certified?

A: Yes, the filling machine is certified with **CE**.

Q: What is the minimum order quantity for the filling machine?

A: The minimum order quantity for the filling machine is **1**.

Q: How is the filling machine packaged?

A: The filling machine is packaged in a **wooden box**.

Q: What are the payment terms for the filling machine?

A: The payment terms for the filling machine are **TT**.
