

## High Precision Barrel Liquid Filling Machine 5L Water Packing Machine PLC Control Liquid Filler

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

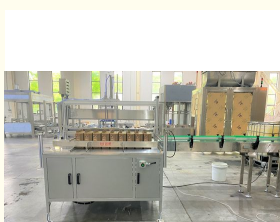

### Product Specification

- Product Name: Precision 5L Barrel Liquid Filling Machine 4-12 Nozzles 220V/50Hz PLC Control Liquid Filler Liquid Filling Machine
- Product: 5L Barrel Liquid Filling And Capping Machine
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Power Supply: 220V/50Hz
- Filling Nozzles: 4/6/8/12
- Suitable For: Liquid Products
- Highlight: **precision barrel liquid filling machine, 5l water packing machine,**

## Product Description

### Precision 5L Barrel Liquid Filling Machine 4-12 Nozzles 220V/50Hz PLC Control Liquid Filler Liquid Filling Machine

#### Product Description:

With an air pressure requirement of 0.4-0.6MPa, the Liquid Filling Machine Series is suitable for a wide range of applications. The machine is also equipped with a 220V/50Hz power supply, ensuring that it can be used in any location without the need for additional equipment.

The Liquid Filling Machine Series is available with 4, 6, 8, or 12 filling nozzles, making it suitable for production lines of any size. The machine is designed to be easy to use and maintain, with a user-friendly interface and simple cleaning procedures.

In addition to its high accuracy and ease of use, the Liquid Filling Machine Series is also equipped with pouring and capping systems, making it a truly all-in-one solution for liquid filling needs. The pouring and capping systems are designed to work seamlessly with the filling system, ensuring that each container is filled and sealed with precision and efficiency.

Overall, the Liquid Filling Machine Series is an excellent choice for those who require a reliable and efficient liquid filling machine. With its high accuracy, versatility, and easy-to-use design, it is ideal for production lines of any size. The addition of pouring and capping systems makes it a truly all-in-one solution for liquid filling needs.

#### Applications:

This machine is ideal for a variety of product application occasions and scenarios. The hydraulic liquid filling machines ensure precise and accurate filling, making it perfect for use in industries such as food and beverage, pharmaceuticals, and cosmetics. The PLC control system ensures that the filling process is efficient and reliable, reducing the risk of errors and increasing productivity.

The Liquid Filling and Capping Machine is available with 4, 6, 8, or 12 filling nozzles, making it suitable for a range of filling needs. The pouring and capping systems are easy to use, ensuring that the process is quick and efficient. This makes it ideal for use in high-volume production environments where speed and accuracy are critical.

The machine is designed to handle 5L barrel liquid filling and capping, making it perfect for use in a variety of scenarios. Whether you are filling and capping liquid products for retail sale or for use in manufacturing processes, this machine is a reliable and efficient solution. When ordering the Liquid Filling and Capping Machine, payment terms are TT. With a weight of 2000kg, this product is shipped in a sturdy wooden box for safe transport. Whether you are a small business looking to increase production efficiency or a large manufacturer looking to streamline your filling and capping processes, this product is a great choice.

#### Customization:

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Air Pressure: 0.4-0.6MPa

Suitable For: Liquid Products

Power Supply: 220V/50Hz

Weight: 2000kg

Product: 5L Barrel Liquid Filling And Capping Machine

Our liquid up-filling machinery is designed to accurately and efficiently fill liquid products into containers, with pouring and capping systems included for a complete solution. We offer hydraulic liquid filling machines that can handle a range of viscosities and volumes to suit your specific application. Contact us to discuss your customization needs.

## Support and Services:

The Liquid Filling Machine Series product is designed to provide accurate and efficient filling for a variety of liquids including water, juice, oil, and chemicals. Our machines feature a PLC control system for precise filling volumes and can be operated in manual, semi-automatic, or fully automatic modes. We also offer customization options to fit your specific needs and can provide installation, training, and maintenance services to ensure optimal performance and longevity of your machine.

## Packing and Shipping:

Product Packaging:

The liquid filling machine series product will be carefully packed in a sturdy cardboard box.

All necessary accessories and user manuals will be included in the package.

The box will be labeled with the product name, model number, and any other relevant information.

Shipping:

The liquid filling machine series product will be shipped via a reputable courier service.

The shipping cost will depend on the destination and weight of the package.

The estimated delivery time will be provided at the time of purchase.

Tracking information will be provided once the package has been shipped.

## FAQ:

**Q: What is the brand name of the liquid filling machine series?**

A: The brand name is Liquid Filling And Capping Machine.

**Q: Does this product have any certification?**

A: Yes, this product has CE certification.

**Q: What is the minimum order quantity for this product?**

A: The minimum order quantity is 1.

**Q: How is this product packaged?**

A: This product is packaged in a wooden box.

**Q: What are the payment terms for this product?**

A: The payment terms for this product are TT (Telegraphic Transfer).
