

## Automatic Liquid Filling Machine Series With 6 / 8 / 12 Nozzles Automatic Filling Machine For Liquid

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT
- Supply Ability: 1set/week

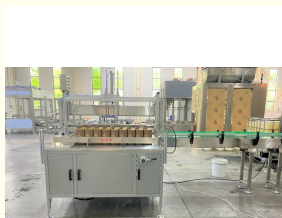

### Product Specification

- Product Name: Automatic Volumetric Liquid Filling Machine Series With 4/6/8/12 Nozzles Liquid Filling Machine
- Filling Nozzles: 4/6/8/12
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Suitable For: Liquid Products
- Control System: PLC
- Air Pressure: 0.4-0.6MPa
- Product: 5L Barrel Liquid Filling And Capping Machine
- Weight: 2000kg
- Highlight: automatic liquid filling machine series, 12 nozzles automatic filling machine for liquid,

## Product Description

### Automatic Volumetric Liquid Filling Machine Series With 4/6/8/12 Nozzles Liquid Filling Machine

#### Product Description:

The Liquid Filling Machine Series is capable of operating at air pressure levels ranging from 0.4-0.6MPa, making it highly efficient and reliable. It is suitable for filling and capping 5L barrel liquid products, perfect for industries involved in the production of hydraulic liquid filling machines.

The filling accuracy of our product is unparalleled and can handle a variety of liquid products, including water-based paint, making it an excellent choice for those seeking hydraulic liquid filling machines. Our volumetric liquid filling machine is designed to provide consistent and accurate filling, ensuring that the products are filled to the exact specifications required by the customers.

Our Liquid Filling Machine Series is a versatile machine that will cater to a variety of liquid products. It is suitable for a wide range of industries, including pharmaceuticals, food and beverage, cosmetics, and many more. The machine's design is simple and easy to use, making it an excellent choice for those seeking to optimize their production processes.

Our hydraulic liquid filling machines are built with high-quality materials, ensuring that they are durable and long-lasting, even under the most challenging conditions. The machines are easy to maintain and operate, minimizing downtime and ensuring that your production processes run smoothly.

With its reliability, accuracy, and versatility, the Liquid Filling Machine Series is an excellent investment for those seeking to optimize their production processes. We are confident that our product will exceed your expectations and provide you with the results you need to take your business to the next level.

#### Applications:

The Liquid Filling And Capping Machine has a power supply of 220V/50Hz and weighs 2000kg. It requires an air pressure of 0.4-0.6MPa to function optimally. This product is suitable for a wide range of liquid products and is highly efficient in filling and capping them.

The Liquid Filling And Capping Machine is perfect for industries that require hydraulic liquid filling machines that can handle large volumes of liquid products. It can be used in a variety of occasions and scenarios, such as in beverage factories, chemical plants, and pharmaceutical companies. It is especially useful in industries that require high-speed filling and capping systems.

The Liquid Filling And Capping Machine is easy to operate and maintain. It comes with a user-friendly interface and requires minimal training to operate. Its compact design makes it easy to integrate into existing production lines without taking up too much space.

In conclusion, the Liquid Filling And Capping Machine is a reliable and efficient product that is suitable for a wide range of liquid products. Its hydraulic liquid filling system and pouring and capping systems make it perfect for industries that require high-speed filling and capping systems. It is easy to operate and maintain, making it a valuable addition to any production line.

Payment terms for the Liquid Filling And Capping Machine are TT. If you're looking for a reliable and efficient liquid filling and capping machine, the Liquid Filling And Capping Machine is the perfect product for you.

## Customization:

Whether you need a specific number of filling nozzles or a different control system, we can customize this liquid up-filling machinery to meet your needs. Our pouring and capping systems are designed to maximize efficiency and accuracy, ensuring that your liquid products are filled and capped to perfection.

## Support and Services:

The Liquid Filling Machine Series is designed to provide accurate and efficient filling of various types of liquids, including water, juice, oil, and more. Our machines are equipped with advanced technology to ensure precise volume control and minimize waste.

Our technical support and services include:

Installation and commissioning

Maintenance and repair

Operator training

Customization and upgrades

24/7 remote support

We also offer a range of accessories and spare parts to help optimize the performance of your machine. Contact us for more information on our product technical support and services.

## Packing and Shipping:

Product Packaging:

Our Liquid Filling Machine Series products are carefully packaged to ensure safe delivery to our customers. Each machine is wrapped in protective material and placed in a sturdy cardboard box. The box is then sealed and labeled with the product name and serial number.

Shipping:

We offer shipping to all locations worldwide. Our standard shipping method is through reputable courier services such as DHL, FedEx, and UPS. Delivery times will vary depending on the destination, but we strive to ensure timely delivery of all orders.

## FAQ:

**Q: What is the brand name of the liquid filling machine series?**

A: The brand name of our liquid filling machine series is Liquid Filling And Capping Machine.

**Q: Is the liquid filling machine series certified?**

A: Yes, our liquid filling machine series is certified with CE.

**Q: What is the minimum order quantity for the liquid filling machine series?**

A: The minimum order quantity for our liquid filling machine series is 1.

**Q: How is the liquid filling machine series packaged?**

A: The liquid filling machine series is packaged in a wooden box.

**Q: What are the payment terms for the liquid filling machine series?**

A: The payment terms for our liquid filling machine series are TT (Telegraphic Transfer).
