

## Four Nozzle Pouring And Capping Systems Volumetric Filling Machine Water Based Paint With Multiple Nozzles

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Four Nozzle Pouring And Capping Systems Precision Filling Water Based Paint With Multiple Nozzles
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Suitable For: Liquid Products
- Filling Nozzles: 4/6/8/12
- Weight: 2000kg
- Control System: PLC
- Power Supply: 220V/50Hz
- Product: 5L Barrel Liquid Filling And Capping Machine
- Highlight: **pouring and capping systems volumetric, four nozzle pouring and capping systems,**

## Product Description

### Four Nozzle pouring and capping systems Precision Filling Water Based Paint with Multiple Nozzles

#### Product Description:

One of the key advantages of this liquid up-filling machinery series is its versatility and suitability for different types of liquid products. Whether it's chemicals, oils, or beverages, these hydraulic liquid filling machines can handle a wide range of viscosities and densities. The 5L Barrel Liquid Filling and Capping Machine is a standout product in this series. It is designed for filling and capping 5-liter barrels with high accuracy and efficiency. With a PLC control system, users can easily program and adjust the filling parameters for optimal results.

Overall, the Liquid Filling Machine Series offers a reliable and efficient solution for liquid filling needs. Whether you need to fill small containers or large barrels, this series has you covered. With its high accuracy and precision, it ensures consistent and reliable results every time.

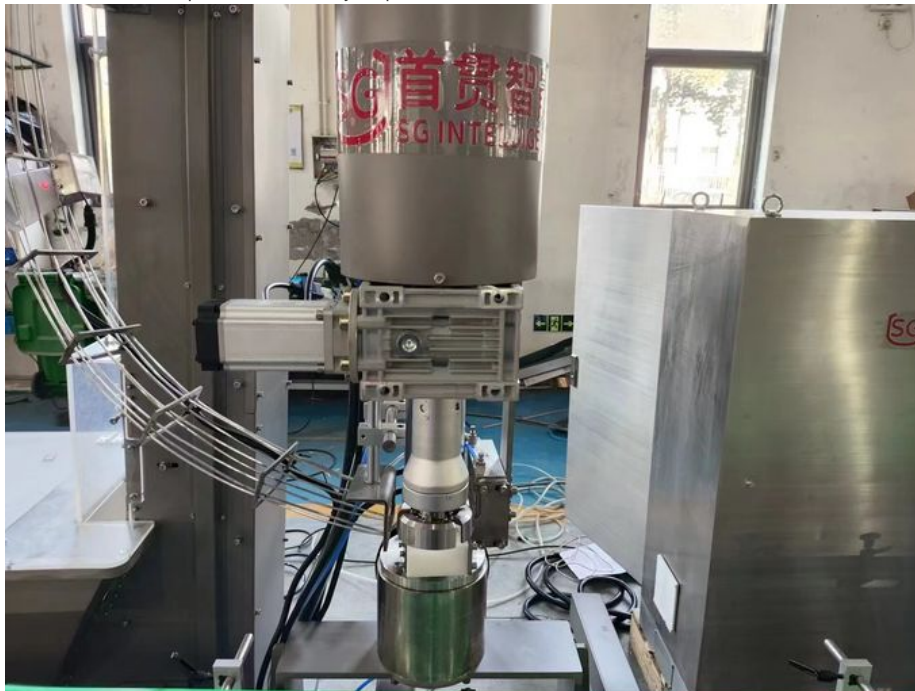

#### Applications:

The Liquid Filling And Capping Machine series is designed for the Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine application. It boasts a filling accuracy that is essential for those who require precise measurements for their liquid products. This machine is also perfect for filling up 5L barrels and can handle a weight of 2000kg.

This series comes in different variations of filling nozzles, giving you the versatility to choose the number of nozzles that you need for your specific production requirements. Choose from 4, 6, 8, or 12 filling nozzles to suit your business needs.

The Liquid Filling And Capping Machine series is perfect for different application occasions and scenarios. It is ideal for industries that require precise and efficient liquid filling processes such as the chemical, pharmaceutical, and food industries. It can also be used for filling up lubricants, essential oils, and other liquid products that require accurate measurements.

This machinery is powered by 220V/50Hz, making it efficient and energy-saving. Its pour and capping systems make it perfect for liquid up-filling machinery and hydraulic liquid filling machines. With its reliable quality and high filling accuracy, the Liquid Filling And Capping Machine series is the perfect addition to your production line.

#### Support and Services:

The Liquid Filling Machine Series is designed to provide precise filling of liquids in various industries, including food and beverage, pharmaceuticals, and cosmetics. Our machines are equipped with advanced technology to ensure accurate and consistent filling, minimizing product waste and maximizing efficiency.

We offer comprehensive technical support and services to ensure our customers get the most out of their Liquid Filling Machine Series. Our experienced team of technicians is available to provide installation, training, and maintenance services, as well as troubleshooting assistance. We also offer customization services to meet specific customer needs.

Our commitment to quality and customer satisfaction is reflected in our warranty and after-sales support. We provide a one-year warranty on all our machines, and our after-sales support team is available to address any concerns or issues that may arise.

#### Packing and Shipping:

#### Product Packaging:

Our Liquid Filling Machine Series product is carefully packaged to ensure safe transport and delivery. Each machine is wrapped in protective materials to prevent any damage during transit. The machines are then placed in sturdy cardboard boxes with additional cushioning to further protect them. Our packaging is designed to withstand the rigors of shipping and handling to ensure that your machine arrives in perfect condition.

#### Shipping:

We offer worldwide shipping for our Liquid Filling Machine Series product. Shipping costs vary depending on the destination and shipping method chosen. We work with trusted shipping companies to ensure that your order is delivered quickly and safely. Once your order has been shipped, we will provide you with a tracking number so that you can monitor the delivery progress. Please allow for additional time for processing and customs clearance for international orders.

#### FAQ:

**Q: What is the brand name of the liquid filling machine series?**

A: The brand name of the liquid filling machine series is Liquid Filling And Capping Machine.

**Q: Does the machine have any certifications?**

A: Yes, the machine is CE certified.

**Q: What is the minimum order quantity for the liquid filling machine series?**

A: The minimum order quantity for the liquid filling machine series is 1.

**Q: How is the liquid filling machine series packaged for delivery?**

A: The liquid filling machine series is packaged in a wooden box for safe delivery.

**Q: What are the payment terms for the liquid filling machine series?**

A: The payment terms for the liquid filling machine series are TT (Telegraphic Transfer).
