

Precision Liquid Filling Machine Series With 4-12 Nozzles Chemical Products Liquid Filling Equipment

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

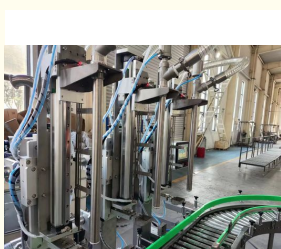

Product Specification

- Product Name: Precision Liquid Filling Machine Series With 4-12 Nozzles For Chemical Products Liquid Filling Machine
- Suitable For: Liquid Products
- Filling Nozzles: 4/6/8/12
- Power Supply: 220V/50Hz
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Product: 5L Barrel Liquid Filling And Capping Machine
- Air Pressure: 0.4-0.6MPa
- Control System: PLC
- Highlight: precision liquid filling machine series, chemical products liquid filling equipment,

Product Description

Precision Liquid Filling Machine Series With 4-12 Nozzles For Chemical Products Liquid Filling Machine

Product Description:

This series is equipped with a PLC control system, which ensures that the filling process is automated and can be easily programmed and monitored. This allows for greater control over the filling process and ensures that the filling accuracy is maintained at all times.

The Liquid Filling Machine Series is powered by a reliable 220V/50Hz power supply, which ensures that the machine operates smoothly and efficiently. This power supply is also designed to be energy-efficient, which helps to reduce operating costs over time.

The Liquid Filling Machine Series is available in a variety of configurations, with 4, 6, 8, or 12 filling nozzles. This allows users to choose the configuration that best meets their specific needs and requirements. Additionally, these machines are designed to be lightweight and compact, with a weight of only 2000kg, making them easy to transport and install in any workspace.

Overall, the Liquid Filling Machine Series is a versatile and reliable product that is suitable for a wide range of liquids and applications. Whether you are in need of hydraulic liquid filling machines, liquid up-filling machinery, or pouring and capping systems, this series has you covered. Its advanced features, energy efficiency, and precision make it an excellent choice for any business looking to streamline their liquid filling process.

Product item	technical parameter
(L*W*H) mm	1100*1750*2500
Filling speed	15 barrels/hour
Applicable Specifications	200L
material contact material	304 Stainless steel
Filling accuracy	≤±0.1%
mains power	AC380V/50Hz : 1KW
Air pressure	0.4~0.6MPa

Applications:

This liquid up-filling machinery is designed to streamline the filling process for liquid products. It is capable of filling up to 5L barrels with ease and precision. The pouring and capping systems are also integrated into the machine, which makes it a complete package for filling and capping. Additionally, it is compatible with a wide range of liquid products, making it a versatile machine for various industries such as pharmaceutical, food and beverage, and cosmetics.

The Liquid Filling and Capping Machine series is powered by a 220V/50Hz power supply, which is a standard requirement in most countries. It also has a weight of 2000kg, which makes it a sturdy and durable machine. The air pressure required for the machine to operate effectively is 0.4-0.6MPa.

With its advanced technology, this liquid up-filling machinery is suitable for various product application occasions and scenarios. It is

perfect for filling and capping liquid products such as beverages, oils, and chemicals. It is also ideal for use in large-scale production lines, where efficiency and precision are essential.

Customers can purchase the Liquid Filling and Capping Machine series with confidence, knowing that they are investing in a high-quality product that will meet their needs and expectations. Payment terms for this product are TT, which is a secure and reliable payment method.

Customization:

Support and Services:

The Liquid Filling Machine Series is comprised of high-quality machines designed for filling various liquids such as water, juice, milk, and oil into bottles or containers. Our machines feature:

Precise filling accuracy and speed control

Durable stainless steel construction

Easy-to-use touch screen interface

Quick and easy cleaning and maintenance

Customizable options to meet specific needs

Our technical support and services include:

Installation and set up of the machines

Training on how to operate the machines

Technical assistance and troubleshooting

Regular maintenance and servicing

Access to replacement parts and accessories

Our team of experienced technicians is available to provide prompt and reliable support to ensure maximum productivity and efficiency of our machines.

Packing and Shipping:

Product Packaging:

The liquid filling machine series product will be packed in a sturdy cardboard box.

The machine will be wrapped in bubble wrap to prevent damage during transit.

The box will be sealed with adhesive tape.

The package will have a label indicating the product name, model number, and quantity.

Shipping:

The liquid filling machine series product will be shipped via a reputable courier service.

The shipping cost will be calculated and added to the total order amount.

The estimated delivery time will be provided to the customer upon order confirmation.

The customer will receive a tracking number to monitor the delivery status of their package.

FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is **Liquid Filling And Capping Machine**.

Q: Is the product certified?

A: Yes, the product is certified with **CE** certification.

Q: What is the minimum order quantity for the product?

A: The minimum order quantity for the product is **1**.

Q: What are the packaging details for the product?

A: The product is packaged in a **wooden box**.

Q: What are the payment terms for the product?

A: The payment terms for the product are **TT**.
