

Multi Nozzle Liquid Filler Bottle Filling 2000kg Volumetric Automatic Liquid Packaging Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

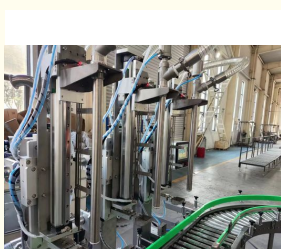

Product Specification

- Product Name: Multi Nozzle 2000kg Volumetric Liquid Filling Machines For Varied Applications Automatic Liquid Bottle Filling Machine
- Product: 5L Barrel Liquid Filling And Capping Machine
- Filling Nozzles: 4/6/8/12
- Power Supply: 220V/50Hz
- Control System: PLC
- Weight: 2000kg
- Air Pressure: 0.4-0.6MPa
- Suitable For: Liquid Products
- Highlight: volumetric automatic liquid packaging machine, multi nozzle liquid filler, liquid filler bottle filling

Product Description

Multi Nozzle 2000kg Volumetric Liquid Filling Machines For Varied Applications Automatic Liquid Bottle Filling Machine

Product Description:

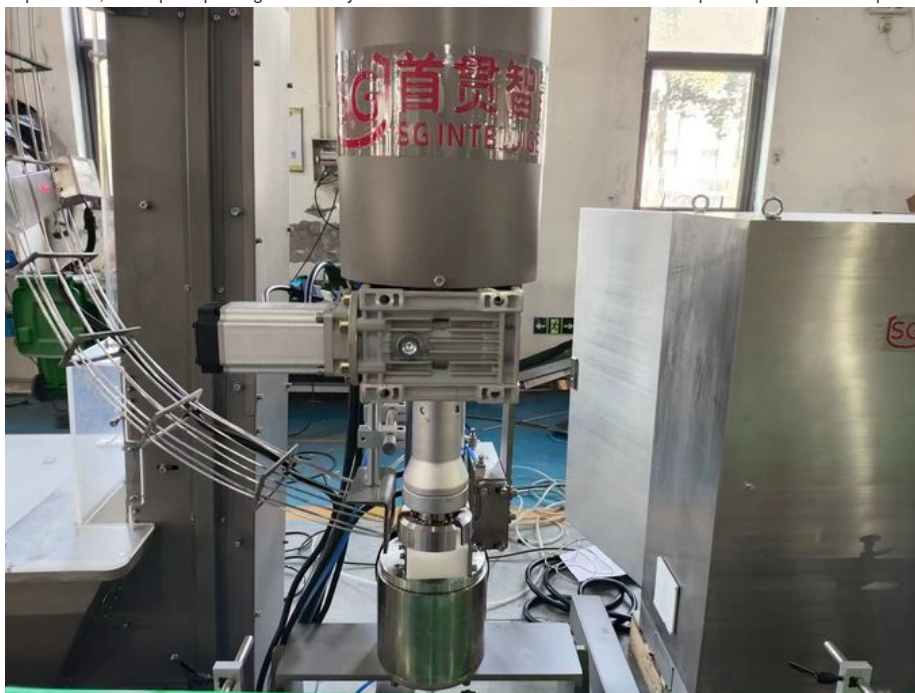

The Chemical Liquid Filling Machine Series is specifically designed for water-based paint volumetric liquid filling, ensuring high accuracy and consistency in every fill. Whether you are filling small containers or large drums, this liquid filling machine is equipped to handle different volumes and product types.

One of the key features of the Liquid Filling Machine Series is its suitability for a wide range of liquid products. From cosmetics and pharmaceuticals to food and beverages, this liquid filling machine is versatile enough to handle a variety of liquid products.

The Liquid Filling Machine Series is also equipped with a power supply of 220V/50Hz, making it compatible with most electrical systems. Additionally, the air pressure required for this hydraulic liquid filling machine ranges from 0.4-0.6MPa, ensuring that the machine operates seamlessly and efficiently.

Furthermore, the Liquid Filling Machine Series comes equipped with pouring and capping systems, allowing for a complete filling process in one go. This saves time and increases efficiency, making it an ideal choice for businesses that require high-volume liquid filling capabilities.

In summary, the Liquid Filling Machine Series is a reliable and efficient hydraulic liquid filling machine that is suitable for a wide range of liquid products. With its high-precision filling accuracy, compatibility with various electrical systems, and complete filling process capabilities, this liquid up-filling machinery is an ideal choice for businesses that require top-of-the-line liquid filling capabilities.

Applications:

Beverage production lines
Pharmaceutical packaging
Cosmetic production lines
Chemical industries

With its CE certification, you can rest assured that this product is of the highest quality and meets all safety standards. The minimum order quantity for this product is 1, and it comes packaged in a sturdy wooden box to ensure that it arrives at your location in perfect condition. Payment terms are TT.

The Liquid Filling And Capping Machine is available with 4, 6, 8, or 12 filling nozzles, making it ideal for a wide range of production lines, big or small. It features a PLC control system, which ensures that the filling and capping processes are accurate and consistent every time. Its pouring and capping systems are designed to work seamlessly together, ensuring that your products are filled and capped with precision and speed.

This product is designed specifically for 5L barrel liquid filling and capping, making it perfect for a variety of applications. Its power supply is 220V/50Hz, and it weighs 2000kg, making it a sturdy and reliable addition to your production line.

Overall, the Liquid Filling And Capping Machine is a versatile and efficient product that is perfect for a wide range of industries and applications. It is reliable, accurate, and easy to use, making it the perfect choice for anyone who needs a top-of-the-line liquid filling and capping machine.

Customization:

Support and Services:

The Liquid Filling Machine Series is designed to meet the needs of various industries that require accurate and efficient liquid filling. Our technical support and services for this product include:

Installation and setup assistance

Training for operators and maintenance personnel

Regular maintenance and repair services

Replacement parts and accessories

Technical troubleshooting and support

Customization options to meet specific needs

We are committed to providing our customers with the highest level of support and service to ensure their Liquid Filling Machine Series operates at peak performance and efficiency.

Packing and Shipping:

Product Packaging:

All liquid filling machines are securely packed in sturdy wooden cases.

Each machine is wrapped with protective materials to prevent any damage during transportation.

Accessories and parts are separately packed and labeled for easy identification.

Shipping:

We offer worldwide shipping with reliable and reputable shipping carriers.

Shipping costs are calculated based on the destination, weight, and size of the package.

Delivery time may vary depending on the destination and shipping option selected.

Customers will be provided with a tracking number to monitor the status of their shipment.

FAQ:

Q: What is the brand name of the liquid filling machine series?

A: The brand name is Liquid Filling And Capping Machine.

Q: Is the liquid filling machine series certified?

A: Yes, the liquid filling machine series is certified with CE.

Q: What is the minimum order quantity for the liquid filling machine series?

A: The minimum order quantity is 1.

Q: How is the liquid filling machine series packaged?

A: The liquid filling machine series is packaged in a wooden box.

Q: What are the payment terms for the liquid filling machine series?

A: The payment terms are TT.
