

Precision 5-100ml Filling And Capping Machine With 0.4-0.6MPa Air Pressure Filling Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

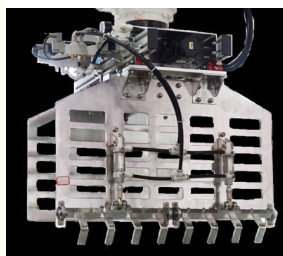

Product Specification

- Product Name: Precision 5-100ml Filling And Capping Machine With 0.4-0.6MPa Air Pressure Filling Capping Machine
- Filling Accuracy: $\pm 1\%$
- Power Supply: 220V/50Hz
- Filling Volume: 5-100ml
- Capping Method: Semi-automatic
- Capping Speed: 20-40 Bottles/min
- Air Consumption: 0.1m³/min
- Filling Method: Semi-automatic
- Highlight: 0.4MPa semi automatic bottle filling and capping machine
,
0.6MPa semi automatic bottle filling and capping machine

Product Description

Precision 5-100ml Filling And Capping Machine With 0.4-0.6MPa Air Pressure Filling Capping Machine

Product Description:

With a power supply of 220V/50Hz, this machine is capable of operating at high speeds, making it ideal for use in busy manufacturing environments. The capping speed of the machine is 20-40 bottles per minute, which ensures that you can get your products filled and ready for sale quickly and efficiently.

In addition to its impressive speed, the Semi Automatic Filling And Capping Machine is also highly efficient when it comes to air consumption. With an air consumption rate of just 0.1m³/min and an air pressure range of 0.4-0.6MPa, this machine is both cost-effective and environmentally friendly.

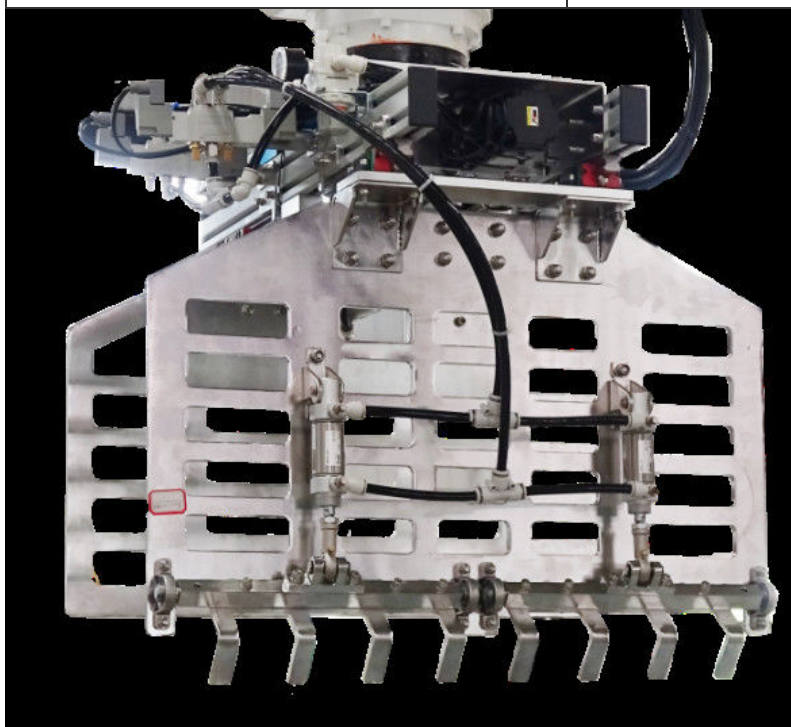

One of the standout features of this machine is its ease of use. The machine is designed to be simple and straightforward to operate, with an intuitive interface that makes it easy to adjust settings and monitor performance. This means that you can spend less time training your staff and more time focusing on growing your business.

Whether you're looking for an Automatic Filling And Packing Machine for use in the food and beverage industry, or a Filling Capping Machine for use in the cosmetics and pharmaceuticals industry, the Semi Automatic Filling And Capping Machine is the perfect choice.

With its high-quality construction, reliable performance, and user-friendly design, this machine is a must-have for any business looking to streamline its filling and capping processes.

Technical Parameters:

Power Supply	220V/50Hz
Filling Accuracy	±1%
Capping Method	Semi-automatic
Capping Speed	20-40 Bottles/min
Filling Volume	5-100ml
Material	Stainless Steel
Filling Method	Semi-automatic
Air Consumption	0.1m ³ /min
Air Pressure	0.4-0.6MPa

Applications:

With the semi-automatic filling method, this capping filling machine can fill up to 20-40 bottles per minute. This makes it ideal for small to medium-sized businesses that require a cost-effective solution for their filling needs. The machine is easy to operate and requires minimal manual labor, making it perfect for businesses with limited staff.

The 20L semi-automatic capping filling machine is designed to work with a wide range of products, including liquids, oils, and creams.

This versatility makes it a valuable addition to any production line, as it can be used to fill and cap a variety of products. The machine is designed to work with a minimum air consumption of 0.1m³/min and an air pressure of 0.4-0.6MPa. This ensures that the machine operates efficiently, reducing the risk of downtime and improving overall production output. The semi-automatic capping method ensures that the machine is easy to use and operate, reducing the risk of errors and increasing efficiency. This capping filling machine is designed to work with a range of bottle sizes, making it a versatile solution for businesses that require flexibility in their production line. Overall, the 20L semi-automatic capping filling machine is a valuable addition to any production line that requires a reliable, cost-effective, and efficient filling solution. Whether you are in the food and beverage, chemical, pharmaceutical, or cosmetics industry, this machine can help you improve your production output and meet your filling needs. With a minimum order quantity of 1, this machine is accessible to businesses of all sizes. If you are looking for a can filling machine, automatic filling machines, or a capping filling machine, the 20L semi-automatic capping filling machine is an excellent choice.

Customization:

Customize your 20L semi-automatic capping filling machine to meet your specific needs with our product customization services:

Custom branding with your company logo and colors

CE certification for compliance with international safety and quality standards

Flexible minimum order quantity of 1 machine

Filling volume customization from 5-100ml to suit your product requirements

Semi-automatic filling method for efficient and reliable operation

Capping speed customization from 20-40 bottles/min for increased productivity

Filling accuracy of ±1% to ensure consistent product quality

Air pressure customization from 0.4-0.6MPa to meet your facility's requirements

Experience the benefits of an Automatic Filling And Packing Machine with our Automatic Filling Machines and Automatic Liquid Filling Machine customized to your needs.

Support and Services:

Our Semi Automatic Filling And Capping Machine is designed to provide reliable and efficient filling and capping solutions for a variety of products. It features a user-friendly interface and can handle a wide range of container sizes and shapes.

We offer a comprehensive technical support and services package to ensure that your machine is always operating at its best. Our experienced technicians are available to provide installation, training, and maintenance services to help you get the most out of your machine.

In addition, we offer a range of spare parts and accessories to keep your machine running smoothly. Our team can also provide customized solutions to meet your specific needs and requirements.

Packing and Shipping:

Product: Semi Automatic Filling And Capping Machine

Description: This machine is designed to fill and cap bottles or containers with liquids or viscous products. It has a semi-automatic system that requires manual placement of the bottles and removal of the filled and capped bottles. This machine is ideal for small to medium scale production.

Packaging: The machine will be packed securely in a wooden crate to prevent any damage during transportation.

Shipping: We offer worldwide shipping via sea freight or air freight. Shipping cost and delivery time will be provided upon request and will depend on the destination country.

FAQ:

Q: What is the brand name of this filling and capping machine?

A: The brand name of this machine is Precision 5-100ml Filling And Capping Machine With 0.4-0.6MPa Air Pressure Filling Capping Machine.

Q: Is this machine certified?

A: Yes, this machine is certified with CE certification.

Q: What is the minimum order quantity for this machine?

A: The minimum order quantity for this machine is 1.

Q: What is the capacity of this machine?

A: This machine has a capacity of 20L.

Q: Is this machine easy to operate?

A: Yes, this machine is designed to be user-friendly and easy to operate.
