

Chemical Liquid Filling Machine Series High Viscosity Filling Machine With 12 Nozzles

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Chemical Liquid Filling Machine Series With 4/6/8/12 Nozzles Liquid Filling Machine
- Suitable For: Liquid Products
- Weight: 2000kg
- Air Pressure: 0.4-0.6MPa
- Power Supply: 220V/50Hz
- Control System: PLC
- Product: 5L Barrel Liquid Filling And Capping Machine
- Filling Accuracy: Chemical Liquid Filling Machine Series For Water Based Paint Volumetric Liquid Filling Machine
- Highlight: **chemical liquid filling machine series, high viscosity filling machine with 12 nozzles, chemical high viscosity filling machine**

Product Description

Chemical Liquid Filling Machine Series With 4/6/8/12 Nozzles Liquid Filling Machine

Product Description:

With a weight of 2000kg, these hydraulic liquid filling machines are built to last. They are crafted from high-quality materials and designed with durability in mind, ensuring that they will continue to perform at a high level for years to come. Additionally, this series of liquid up-filling machinery is designed to withstand the rigors of frequent use, making them a reliable choice for businesses of all sizes.

The Liquid Filling Machine Series is also designed with ease of use in mind. The machines feature multiple filling nozzles, with options for 4, 6, 8, or 12 nozzles depending on your needs. This allows for efficient filling of multiple containers at once, saving time and increasing productivity. The machines are also easy to set up and operate, with intuitive controls and simple maintenance requirements.

Whether you are filling large containers or small bottles, the Liquid Filling Machine Series is a versatile choice. The machines are suitable for a wide range of liquid products, including chemicals, oils, and other liquids. They are also designed to work with a variety of container sizes and shapes, making them a flexible choice for any business.

Overall, the Liquid Filling Machine Series is a top choice for businesses that require accurate, efficient, and reliable liquid up-filling machinery. With a focus on precision, durability, and ease of use, these hydraulic liquid filling machines are an investment in the future of your business. Whether you are looking to increase productivity, reduce waste, or improve accuracy, the Liquid Filling Machine Series is the solution you've been looking for.

Applications:

The Liquid Filling And Capping Machine comes with 4/6/8/12 filling nozzles, making it an excellent choice for companies that require a high volume of liquid up-filling machinery. This hydraulic liquid filling machine can handle a capacity of 2000kg, making it ideal for all kinds of applications. The machine's power supply is 220V/50Hz, and it requires an air pressure of 0.4-0.6MPa for optimal performance. The Liquid Filling And Capping Machine is known for providing a high degree of filling accuracy. This volumetric liquid filling machine is perfect for filling water-based paints, which require a high degree of accuracy. This machine is an excellent choice for companies that need to fill liquids in different quantities accurately.

The Liquid Filling And Capping Machine is perfect for use in different scenarios and industries. It is an ideal choice for companies that require a high degree of precision and accuracy in their filling process. This machine is perfect for filling liquids in bottles, jars, and other containers.

The Liquid Filling And Capping Machine is a versatile product that can be used in different industries. It is perfect for filling liquids in different quantities and is an excellent choice for companies that require hydraulic liquid filling machines. This machine is easy to operate and maintain, making it an ideal choice for businesses that need to fill liquids regularly.

Customization:

Our 5L Barrel Liquid Filling And Capping Machine is perfect for filling water based paint and other chemical liquids with high accuracy. It has a volumetric liquid filling system and can be adjusted to have 4, 6, 8, or 12 filling nozzles. The air pressure required for the machine is 0.4-0.6MPa and it has a weight of 2000kg.

With our customization services, you can tailor your machine to fit your specific needs. We offer pouring and capping systems that can be customized to your liking. Contact us today to learn more about our liquid up-filling machinery.

Support and Services:

The Liquid Filling Machine Series is designed to fill and cap various types of liquids, such as water, juice, milk, and oil. The machine is equipped with a touch screen interface for easy operation and control. It also features a high precision filling system to ensure accurate and consistent filling volumes. The machine is made of high quality stainless steel, which makes it easy to clean and maintain. Our technical support team is available to provide installation, training, and maintenance services to ensure optimal performance of the machine.

Packing and Shipping:

Product Packaging:

The Liquid Filling Machine Series product will be carefully packaged to ensure its safe delivery. Each unit will be packed in a sturdy wooden crate to prevent any damage during transportation. All necessary accessories and components will be included in the package along with an instructional manual.

Shipping:

We offer worldwide shipping for the Liquid Filling Machine Series product. Shipping costs may vary depending on the destination and shipping method selected. We will provide a tracking number once the order has been shipped so you can monitor its progress. Please note that any customs duties or taxes are the responsibility of the buyer.

FAQ:

Q: What is the brand name of the liquid filling machine?

A: The brand name of the liquid filling machine is **Liquid Filling and Capping Machine**.

Q: Is the liquid filling machine certified?

A: Yes, the liquid filling machine is certified with **CE certification**.

Q: What is the minimum order quantity for the liquid filling machine?

A: The minimum order quantity for the liquid filling machine is **1 unit**.

Q: How is the liquid filling machine packaged?

A: The liquid filling machine is packaged in a **wooden box**.

Q: What are the payment terms for the liquid filling machine?

A: The payment terms for the liquid filling machine are **TT (Telegraphic Transfer)**.
