Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: 20-40 Bottles/Min Stainless Steel Capping Machine With 0.1m³/Min Air Consumption Liquid Filling And Capping Machine
- Air Consumption: 0.1m³/min
- Filling Accuracy: ±1%
- Material: Stainless Steel
- Filling Method: Semi-automatic
- Air Pressure: 0.4-0.6MPa
- Filling Volume: 5-100ml
- Power Supply: 220V/50Hz
- Highlight: 220v semi automatic filling and capping machine
,
50Hz semi automatic filling and capping machine

Product Description

20-40 Bottles/Min Stainless Steel Capping Machine With 0.1m³/Min Air Consumption Liquid Filling And Capping Machine

Product Description:

This Automatic Filling And Packing Machine is capable of filling volumes ranging from 5 to 100ml, making it ideal for a wide range of products and applications. Additionally, it is equipped with an air pressure system that operates within a range of 0.4-0.6MPa, further enhancing the accuracy and efficiency of the filling process.

The machine is also designed with ease of use in mind, featuring a simple, intuitive interface that allows for quick and easy adjustments to the filling volume and other settings. The power supply for this Automatic Filling And Packing Machine is 220V/50Hz, making it compatible with a wide range of electrical systems and environments.

The Semi Automatic Filling And Capping Machine is an excellent investment for those looking to increase their productivity and efficiency in their filling and capping operations. With its durable construction, precise filling capabilities, and intuitive interface, this Automatic Filling Machine is sure to provide reliable and consistent performance for years to come.

Technical Parameters:

Air Consumption	0.1m ³ /min
Material	Stainless Steel
Air Pressure	0.4-0.6MPa
Filling Accuracy	±1%
Filling Method	Semi-automatic
Power Supply	220V/50Hz
Capping Speed	20-40 Bottles/min
Filling Volume	5-100ml
Capping Method	Semi-automatic

Applications:

The Semi Automatic Filling And Capping Machine is ideal for small to medium-sized businesses that require a reliable and efficient Automatic Filling Machines for their liquid products. It is perfect for filling a wide range of liquids, including oils, perfumes, medicines, and other similar products. This Automatic Liquid Filling Machine is capable of filling different types of bottles and containers with its adjustable filling volume feature, making it a versatile choice for businesses that deal with different bottle sizes and shapes.

The Semi Automatic Filling And Capping Machine is perfect for businesses that need to fill and cap their products quickly and efficiently. It is easy to operate, and the capping process is fast and reliable, ensuring that the products are sealed properly. This Automatic Filling Machine is perfect for businesses that want to increase their production speed and efficiency while ensuring the quality of their products. This Automatic Liquid Filling Machine is perfect for businesses that want to maintain the quality of their products. With its ±1% filling accuracy, businesses can be sure that their products are filled with precision, minimizing wastage and ensuring consistent quality. It is perfect for businesses that deal with expensive and sensitive products that require accurate filling.

In conclusion, the 20L semi-automatic capping filling machine is a reliable and efficient Automatic Filling Machines that can cater to a variety of product application occasions and scenarios. It is perfect for small to medium-sized businesses that want to increase their

production speed and efficiency while maintaining the quality of their products. With its CE Certification, businesses can be sure that they are getting a high-quality Automatic Liquid Filling Machine that can meet their production needs.

Customization:

Support and Services:

Our product technical support and services for the Semi Automatic Filling And Capping Machine include:

Installation and setup assistance

Training and education on proper usage and maintenance

24/7 technical support through phone and email

On-site repairs and maintenance services

Supply of genuine spare parts and accessories

Our team of experienced technicians is dedicated to ensuring that our customers receive the highest level of support and service for their Semi Automatic Filling And Capping Machine. Contact us for more information on how we can help you get the most out of your investment.

Packing and Shipping:

Product Packaging:

The Semi Automatic Filling And Capping Machine is securely packed in a sturdy cardboard box.

The machine parts are carefully wrapped in bubble wrap to prevent any damage during shipping.

The package includes the machine, user manual, and necessary accessories.

Shipping:

We use reliable and trusted shipping carriers to ensure safe and timely delivery.

Shipping is free within the United States.

For international orders, shipping costs may vary depending on the destination and weight of the package.

You will receive a tracking number once your order has been shipped.

Please allow 3-5 business days for processing and handling before your order is shipped.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is semi-automatic capping filling machine.

Q: Is this product certified?

A: Yes, this product is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: Is this a fully automatic machine?

A: No, this is a semi-automatic filling and capping machine.

Q: Can this machine be used for filling and capping different types of liquids?

A: Yes, this machine can be used for filling and capping different types of liquids, such as water, juice, oil, and so on.
