

Semi Automatic Stainless Steel Filler Capper 0.1m³/Min Air Consumption 5-100ml Filling Capacity

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Brand Name: 20L semi-automatic capping filling machine
- Certification: CE
- Minimum Order Quantity: 1

Product Specification

- Power Supply: 220V/50Hz
- Filling Accuracy: $\pm 1\%$
- Air Pressure: 0.4-0.6MPa
- Material: Stainless Steel
- Filling Volume: 5-100ml
- Filling Method: Semi-automatic
- Capping Method: Semi-automatic
- Air Consumption: 0.1m³/min
- Highlight: **su304 semi automatic filling and capping machine**
,
semi automatic filling and capping machine

Stainless Steel Filler Capper 0.1m³/min Air

Product Description

Product Description:

The machine is powered by a 220V/50Hz power supply, making it ideal for use in a wide range of environments. With its semi-automatic capping method, this machine can cap a wide range of containers with ease. The semi-automatic filling method makes it easy to fill a wide range of products, including liquids, creams, gels, and more.

This filling capping machine is designed to be easy to use and maintain. The intuitive control panel makes it easy to adjust settings and change between products. The machine is also easy to clean, with smooth surfaces and minimal crevices that can trap dirt and debris.

With its semi-automatic operation, this filling and capping machine is an affordable option for small to medium scale production lines. It is ideal for businesses that are looking to increase their efficiency and productivity without investing in more expensive automatic filling machines.

Overall, the Semi Automatic Filling And Capping Machine is a reliable and efficient piece of equipment that is perfect for a wide range of production lines. Whether you are filling liquids, creams, gels, or other products, this machine is capable of achieving a high level of accuracy and consistency. Its semi-automatic operation makes it an affordable option for businesses that are looking to boost their productivity and efficiency without investing in more expensive automatic filling and packing machines.

Technical Parameters:

Power Supply:	220V/50Hz
Air Pressure:	0.4-0.6MPa
Filling Method:	Semi-automatic
Capping Method:	Semi-automatic
Material:	Stainless Steel
Capping Speed:	20-40 Bottles/min
Filling Volume:	5-100ml
Air Consumption:	0.1m ³ /min
Filling Accuracy:	±1%

This product is a Semi Automatic Filling And Capping Machine made of Stainless Steel. The filling method and capping method are both Semi-automatic. It has a capping speed of 20-40 Bottles/min and a filling volume of 5-100ml. The filling accuracy is ±1%. This product can also be called an Automatic Filling And Packing Machine or an Automatic Liquid Filling Machine. Additionally, it can be used as a Can Filling Machine.

Applications:

Made of high-quality stainless steel, the filling capping machine is designed to withstand the rigors of industrial use. It is easy to clean and maintain, ensuring that it is always in top condition for use. The machine is powered by a 220V/50Hz power supply and requires an air pressure of 0.4-0.6MPa. This ensures that it operates smoothly and efficiently, providing consistent and accurate results.

The filling capping machine is suitable for a wide range of applications. It can be used in the production of liquids, pastes, creams, and other products. The capping speed of the machine is 20-40 bottles per minute, making it ideal for high-volume production. The filling volume can be adjusted from 5-100ml, providing flexibility for different product requirements.

The semi-automatic filling capping machine is an essential tool for any business that requires efficient and reliable filling and capping of bottles. It is suitable for use in a variety of scenarios, including small-scale production, research and development, and large-scale industrial use. The minimum order quantity for this product is 1, making it accessible for businesses of all sizes.

The machine is also ideal for use in can filling applications, providing a versatile solution for businesses that require both bottle and can filling capabilities. Overall, the 20L semi-automatic filling capping machine is a highly efficient and reliable tool that can help businesses to improve their production processes and increase their bottom line.

Customization:

Support and Services:

The Semi Automatic Filling And Capping Machine is a high-quality product designed to make filling and capping operations easy and efficient. The machine is easy to operate, and it comes with a user-friendly interface that makes it simple to set up and use. The machine is designed to handle a range of liquids, including water, juice, oil, and more.

The machine comes with a range of features that make it ideal for use in a variety of settings. These include:

Adjustable filling volume

Adjustable filling speed

Automatic cap placement and tightening

Stainless steel construction

Easy to clean and maintain

In addition to the high-quality machine, we also offer a range of technical support and services to ensure that you get the most out of your investment. Our team of experts is available to help you with installation, training, and ongoing maintenance. We also offer a range of spare parts and accessories to ensure that your machine is always running at its best.

Packing and Shipping:

Product Packaging:

1 Semi Automatic Filling And Capping Machine

1 User Manual

Shipping:

Shipping Method: Standard Shipping

Estimated Delivery Time: 5-7 Business Days

Shipping Cost: Free

FAQ:

Here are some frequently asked questions about our 20L semi-automatic capping filling machine:

Q: What is the capacity of the machine?

A: This machine has a capacity of 20 liters.

Q: Is the machine easy to use?

A: Yes, the machine is designed to be user-friendly and easy to operate.

Q: Is the machine certified?

A: Yes, the machine is CE certified, ensuring it meets European safety and quality standards.

Q: What is the minimum order quantity?

A: The minimum order quantity for this product is 1.

Q: What is the warranty on this product?

A: Please refer to the warranty information provided by the manufacturer.
