

Efficiency 5-100ml Bottle Liquid Filling Machine With Low Air Consumption And Capping Speed

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: woodenbox
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Efficiency 5-100ml Bottle Liquid Filling Machine With Low Air Consumption And Capping Speed
- Filling Volume: 5-100ml
- Air Pressure: 0.4-0.6MPa
- Filling Method: Semi-automatic
- Filling Accuracy: $\pm 1\%$
- Power Supply: 220V/50Hz
- Capping Speed: 20-40 Bottles/min
- Material: Stainless Steel
- Highlight: 5ml Bottle semi automatic filling and capping machine
,
100ml Bottle semi automatic filling and capping machine

Product Description

Efficiency 5-100ml Bottle Liquid Filling Machine with Low Air Consumption and Capping Speed

Product Description:

The machine operates using a semi-automatic filling method that provides precise and accurate filling. The capping speed of the machine is 20-40 bottles per minute, making it an efficient and time-saving solution for small-scale production.

The machine consumes only 0.1m³/min of air, which makes it an energy-efficient option for filling and capping small bottles.

With this filling machine, you can fill a wide range of products including liquids, creams, and gels. This makes it a versatile option for businesses that require a filling machine that can handle multiple products.

The Semi Automatic Filling and Capping Machine is perfect for businesses that require a small-scale filling machine for products such as essential oils, perfumes, and other small bottles. This machine is also suitable for businesses that require a capping machine for their products.

Unlike other automatic filling machines, this semi-automatic filling machine is easy to operate and maintain. It is also cost-effective, making it a great option for small businesses that require a filling machine but cannot afford an automatic filling machine.

Overall, the Semi Automatic Filling and Capping Machine is an excellent option for businesses that require a reliable and efficient filling machine that is easy to operate and maintain. Whether you are looking for a filling machine or a capping machine, this product provides a versatile and cost-effective solution.

Technical Parameters:

Product Attribute	Value
Filling Method	Semi-automatic
Material	Stainless Steel
Filling Accuracy	±1%
Capping Method	Semi-automatic
Air Pressure	0.4-0.6MPa
Power Supply	220V/50Hz
Air Consumption	0.1m ³ /min
Capping Speed	20-40 Bottles/min
Filling Volume	5-100ml

Applications:

With an air pressure requirement of 0.4-0.6MPa and a power supply of 220V/50Hz, this machine is highly efficient and can be used for a variety of applications. The capping speed of this machine is fast and efficient, which makes it ideal for use in industries such as food and beverage, cosmetic, pharmaceutical and chemical industries.

Some of the product application occasions and scenarios where this semi-automatic filling and capping machine can be used include:

Food and Beverage Industry: This automatic liquid filling machine can be used to fill and cap bottles of different sizes and shapes with a wide range of food and beverage products such as juices, sauces, oils, and soft drinks.

Cosmetic Industry: This automatic filling machine is perfect for filling and capping bottles with a variety of cosmetic products such as lotions, shampoos, conditioners, perfumes, and creams.

Pharmaceutical Industry: With its semi-automatic filling and capping method, this machine can be used to fill and cap bottles with different types of pharmaceutical products such as liquid medicines, syrups, and tonics.

Chemical Industry: This automatic filling machine can be used to fill and cap bottles with different types of chemicals such as cleaning liquids, detergents, and acids.

This machine has a minimum order quantity of 1 and can be used by small to medium-sized enterprises. It is easy to operate and maintain, making it a valuable asset to any production line. With its high efficiency, precision filling and capping, and versatile applications, this semi-automatic filling and capping machine is a must-have for any industry that requires automatic filling machines!

Customization:

Support and Services:

The Semi Automatic Filling And Capping Machine is a high-quality, reliable and efficient piece of equipment designed to help streamline your production process. Our technical support team is available to provide assistance with installation, set-up, and troubleshooting of the machine. We also offer training and maintenance services to ensure that your machine is operating at peak performance. Our team of experts is here to answer any questions you may have and provide ongoing support to help you get the most out of your investment.

Packing and Shipping:

Product Packaging:

The Semi Automatic Filling And Capping Machine will be packed in a sturdy cardboard box to ensure its safety during transportation. The box will be securely sealed with packaging tape to prevent any damage to the machine during shipping.

Shipping:

The product will be shipped via a reliable courier service to the address provided by the customer. The shipping cost will be calculated based on the customer's location and added to the total cost of the product. The estimated time of delivery will be communicated to the customer once the product has been shipped.

FAQ:

Q: What is the brand name of this capping filling machine?

A: The brand name of this machine is semi-automatic capping filling machine.

Q: Is this product certified?

A: Yes, this product is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: Is this a fully automatic machine?

A: No, this is a semi-automatic machine which requires some manual work for loading and unloading containers.

Q: What type of containers can be used with this machine?

A: This machine can be used with a variety of containers including bottles, jars, and cans with a capacity of up to 20 liters.
