

Stainless Steel FC-2000 Fully Automatic Piston Filling Machine Automatic Filling And Capping Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

Product Specification

- Product Name: Stainless Steel FC-2000 Fully Automatic Piston Filling Machine Automatic Filling And Capping Machine
- Material: Stainless Steel
- Air Pressure: 0.6-0.8MPa
- Power Supply: 220V/380V, 50Hz/60Hz
- Capacity: 2000 Bottles Per Hour
- Filling Type: Piston Filling
- Air Consumption: 0.5m³/min
- Filling Volume: 50-1000ml
- Highlight: Stainless Steel filling machine liquid, filling machine liquid CE, Piston Filling Machine 0.6MPa

Product Description

Stainless Steel FC-2000 Fully Automatic Piston Filling Machine Automatic Filling And Capping Machine

Product Description:

The capping type used by this machine is screw capping, which is ideal for a wide range of bottle shapes and sizes. The machine is also equipped with a high-quality air pressure system that delivers a consistent and reliable performance. The air pressure range for this machine is 0.6-0.8MPa, which is more than enough to ensure a smooth and efficient filling and capping process.

The Fully Automatic Filling and Capping Machine is designed to work with a wide range of bottle sizes and shapes, making it ideal for use in a variety of industries, such as food and beverage, cosmetics, and pharmaceuticals. It is also equipped with a high-precision filling system that ensures accurate and consistent filling of liquid and powder products.

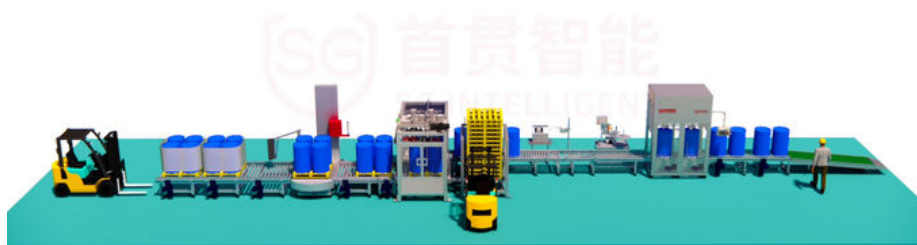

The machine is powered by a 220V/380V, 50Hz/60Hz power supply, which ensures that it can be used in a wide range of environments and settings. This makes it perfect for use in factories, production lines, and other industrial settings where a high level of reliability and efficiency is required.

The Fully Automatic Filling and Capping Machine is designed to be easy to use and maintain, which makes it an ideal choice for businesses of all sizes. It is also equipped with a range of safety features that ensure that the machine operates safely and reliably at all times.

In conclusion, the Fully Automatic Filling and Capping Machine is a highly efficient and reliable machine that is ideal for businesses that require a high level of productivity and efficiency. With its screw capping system, high-quality air pressure system, and high-precision filling system, this machine is capable of handling a wide range of liquid and powder products with ease. If you are looking for an Automatic Liquid Bottle Filling Machine, Automatic Powder Filling Machines, or Filling and Capping Machine, the Fully Automatic Filling and Capping Machine is the perfect solution for your business.

Technical Parameters:

Air Pressure	0.6-0.8MPa
Material	Stainless Steel
Power Supply	220V/380V, 50Hz/60Hz
Model	FC-2000
Filling Volume	50-1000ml
Filling Type	Piston Filling
Capping Diameter	20-50mm
Capacity	2000 Bottles Per Hour
Capping Type	Screw Capping
Air Consumption	0.5m ³ /min

200L双工位全自动灌装线

Applications:

The Automatic Filling And Capping Machine can be used in a variety of occasions and scenarios. It is suitable for factories that produce bottled drinks, such as soda, juice, and water. The machine can fill and cap up to 2000 bottles per hour, making it ideal for high-volume production. It is also perfect for use in pharmaceutical companies that require precise filling and capping of medicine bottles. The machine is made of stainless steel, which ensures that it is durable and long-lasting.

The Filling And Capping Machine is also suitable for use in cosmetics, personal care, and chemical industries. It can fill and cap products such as shampoos, lotions, and perfumes. The machine ensures that the product is filled and capped with precision, guaranteeing the safety and quality of the product.

The Blowing Filling Capping Machine is CE certified, ensuring that it meets the highest standards of quality and safety. The product comes in a wooden box, ensuring that it is protected during transportation. The minimum order quantity for this product is one, making it easy for businesses to purchase the machine.

The machine requires an air consumption of 0.5m³/min and has a capping diameter of 20-50mm. It can fill volumes ranging from 50-1000ml, making it versatile and suitable for a wide range of products. The machine is easy to operate and maintain, making it a great investment for any business that requires a reliable and efficient filling and capping machine.

In conclusion, the 200L IBC fully automatic multi-functional opening, filling, and capping production line is an excellent product that can be used in a variety of industries. Its high capacity, precision, and durability make it an ideal investment for businesses that require a reliable filling and capping machine. Purchase this product today and take your production line to the next level. Payment terms for this product are TT.

Customization:

This Automatic Filling And Capping Machine is equipped with a screw capping system and can handle filling volumes ranging from 50-1000ml. The air pressure required is 0.6-0.8MPa, and the air consumption is 0.5m³/min. The power supply is 220V/380V, 50Hz/60Hz.

Support and Services:

The Fully Automatic Filling And Capping Machine is a state-of-the-art machine that is designed to provide efficient and accurate filling and capping operations. The machine is equipped with advanced technologies that allow it to handle a variety of products, including liquids, creams, and gels.

Our technical support team is available to provide assistance with installation, setup, and maintenance of the machine. We offer training to operators to ensure that they can operate the machine safely and effectively. Our team also provides troubleshooting and repair services to minimize downtime and optimize machine performance.

We offer a range of services to ensure that your machine operates at peak performance. These include preventive maintenance, calibration, and upgrade services. Our team can work with you to develop a customized service plan that meets your specific needs and budget.

Packing and Shipping:

Product Packaging:

Dimensions: 1200mm x 1000mm x 1800mm

Weight: 500kg

Material: Wooden crate

Accessories: User manual, spare parts

Shipping:

Delivery time: 4-6 weeks

Shipping method: Sea or air freight

Shipping cost: To be calculated based on destination

Packaging: Wooden crate

FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is 200L IBC fully automatic multi-functional opening, filling and capping production line.

Q: Is this product CE certified?

A: Yes, this product is CE certified.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: How is the product packaged for shipping?

A: The product is packaged in a wooden box for shipping.

Q: What are the payment terms for purchasing this product?

A: The payment terms for purchasing this product are TT (Telegraphic Transfer).
