

## Stainless Steel FC-2000 Piston Filling Machine 2000 Bottles/Hr Capacity 50-1000ml Filling Volume 20-50mm

Our Product Introduction

for more products please visit us on sg-packs.com

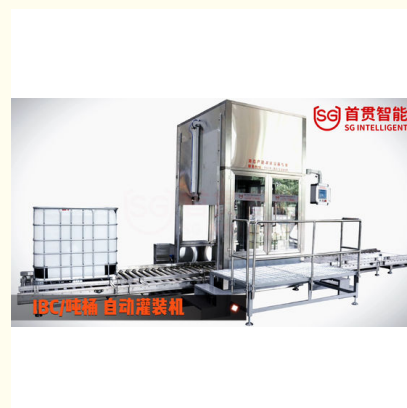

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Stainless Steel FC-2000 Piston Filling Machine 2000 Bottles/hr Capacity 50-1000ml Filling Volume 20-50mm
- Material: Stainless Steel
- Capacity: 2000 Bottles Per Hour
- Air Consumption: 0.5m³/min
- Power Supply: 220V/380V, 50Hz/60Hz
- Capping Diameter: 20-50mm
- Model: FC-2000
- Filling Volume: 50-1000ml
- Highlight: filling and capping machine Stainless Steel, filling and capping machine 20mm, Piston Filling Machine 50mm

## Product Description

Stainless Steel FC-2000 Piston Filling Machine 2000 Bottles/hr Capacity 50-1000ml Filling Volume 20-50mm

### Product Description:

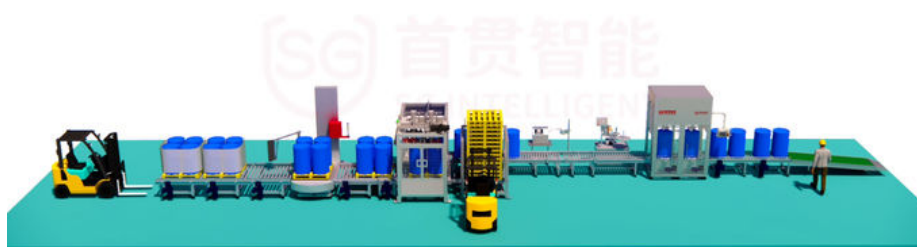

With an air consumption of only 0.5m<sup>3</sup>/min, this machine is energy efficient and cost-effective. It also has a filling volume range of 50-1000ml, making it versatile and able to handle a wide range of products. The FC-2000 model features an automatic tube filling and sealing machine, making it an efficient and reliable choice for your production needs.

This machine is perfect for those who need to fill and cap a large quantity of products in a short amount of time. With a capping diameter of 20-50mm, this machine can handle a variety of bottle sizes and shapes. It is also easy to operate, making it an ideal choice for those who want a hassle-free production process.

In summary, the FC-2000 Fully Automatic Filling And Capping Machine is a top-of-the-line machine that offers efficient and reliable production capabilities. With its screw capping type, air consumption of 0.5m<sup>3</sup>/min, and filling volume range of 50-1000ml, this machine is perfect for a variety of industries. Its automatic tube filling and sealing machine and capping diameter of 20-50mm make it an efficient and reliable choice for your production needs. If you're looking for an automatic filling and capping machine, the FC-2000 is the perfect choice.

### Technical Parameters:

Technical Parameter	Value
Product Name	Fully Automatic Filling And Capping Machine
Filling Volume	50-1000ml
Material	Stainless Steel
Filling Type	Piston Filling
Power Supply	220V/380V, 50Hz/60Hz
Capacity	2000 Bottles Per Hour
Capping Type	Screw Capping
Capping Diameter	20-50mm
Model	FC-2000
Air Pressure	0.6-0.8MPa
Air Consumption	0.5m <sup>3</sup> /min

200L双工位全自动灌装线

### Applications:

Whether you are in the pharmaceutical, cosmetics, or food and beverage industry, this Automatic Tube Filling And Sealing Machine is perfect for your production needs. You can easily fill and cap up to 2000 bottles per hour with its piston filling and screw capping capabilities. This machine is ideal for filling various types of liquids, including oils, shampoos, lotions, and even food products such as sauces and juices.

The FC-2000 model is made of durable and high-quality stainless steel, ensuring its longevity and resistance to corrosion. It is also easy to clean and maintain, making it a practical investment for your business.

With a minimum order quantity of 1, you can easily acquire this Filling And Capping Machine and start improving your production line. It comes with wooden box packaging to ensure its safe transport and delivery to your location.

Payment terms are also easy and convenient with TT, giving you more flexibility in managing your finances. For any business looking to streamline their production process and increase their output, the Fully Automatic Filling And Capping Machine is a must-have. Its wide range of application occasions and scenarios make it a versatile and indispensable tool for any industry.

### Customization:

The 200L IBC fully automatic multi-functional opening, filling and capping production line is a CE certified product. The minimum order quantity for this Filling And Capping Machine is 1 and it is packaged in a wooden box. The payment terms accepted for this Automatic Liquid Filling Machine is TT.

The Filling And Capping Machine is designed for Piston Filling and is made of high-quality Stainless Steel. The Air Pressure required for this machine is 0.6-0.8MPa and its model is FC-2000. The Air Consumption for this machine is 0.5m³/min.

### Support and Services:

The Fully Automatic Filling and Capping Machine is designed to provide high-speed and accurate filling and capping for various products, including liquids, creams, and gels. The machine is equipped with advanced sensors and controls that ensure precise measurement and filling of the product, as well as reliable capping to prevent spillage and contamination.

Our technical support team is available 24/7 to provide assistance with machine setup, operation, and maintenance. We offer both remote and on-site support to ensure that your machine is running efficiently and effectively.

In addition, we provide a range of services to help optimize your filling and capping process, including customized training programs, machine upgrades and retrofits, and spare parts management. Our goal is to help you maximize productivity and minimize downtime.

### Packing and Shipping:

Looking for a reliable and efficient filling and capping machine? Look no further than our fully automatic filling and capping machine. This state-of-the-art machine is designed to handle a wide range of liquid products, including beverages, pharmaceuticals, and chemicals.

With its high-speed filling and capping capabilities, this machine is perfect for large-scale production runs. Our machine is designed with precision and efficiency in mind. It features a user-friendly interface that makes it easy to set up and operate. Plus, its compact design means it won't take up too much space in your facility. We take great care in packaging and shipping our products. Your fully automatic filling and capping machine will arrive at your facility in excellent condition, ready to use right out of the box. We use top-quality packaging materials to ensure your machine is well-protected during transit. Order your fully automatic filling and capping machine today and experience the convenience and efficiency of automated filling and capping.

### FAQ:

Here are some frequently asked questions and answers about the 200L fully automatic multi-functional opening, filling and capping production line:

Q: What is this product?

A: This product is a fully automatic filling and capping machine that is capable of opening, filling, and capping 200L IBC containers. It is a multi-functional production line that can streamline your manufacturing process.

Q: Is this product certified?

A: Yes, this product is CE certified to ensure that it meets safety and quality standards.

Q: What is the minimum order quantity?

A: The minimum order quantity for this product is 1 unit.

Q: How is the product packaged?

A: The product is packaged in a wooden box to ensure safe transportation and delivery.

Q: What are the payment terms?

A: The payment terms for this product are TT (Telegraphic Transfer).
