

## Speed Automatic Piston Filling Machine With Screw Capping System And Low Air Consumption

Our Product Introduction

for more products please visit us on sg-packs.com

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

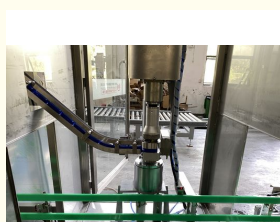

### Product Specification

- Product Name: Speed Automatic Piston Filling Machine With Screw Capping System And Low Air Consumption
- Filling Type: Piston Filling
- Air Consumption: 0.5m³/min
- Material: Stainless Steel
- Capping Type: Screw Capping
- Model: FC-2000
- Power Supply: 220V/380V, 50Hz/60Hz
- Filling Volume: 50-1000ml
- Highlight: Speed Automatic filling and capping machine, filling and capping machine 0.6MPa, 0.8MPa automatic screw packing machine

## Product Description

### Speed Automatic Piston Filling Machine with Screw Capping System and Low Air Consumption

#### Product Description:

Speed Automatic Piston Filling Machine with Screw Capping System and Low Air Consumption is made of high-quality stainless steel, making it durable, hygienic, and easy to clean. The material used in its construction ensures that the machine is corrosion-resistant, making it suitable for use in various industries. Additionally, the machine comes with a screw capping feature that ensures that the bottles are tightly sealed, preventing leakage and contamination. The Automatic Tube Filling And Sealing Machine is easy to operate, and its ergonomic design makes it easy to maintain.

The Fully Automatic Filling And Capping Machine is designed to work with a variety of liquid products, including water, juice, oil, and other beverages. Its versatility makes it an excellent choice for manufacturers who produce different types of liquid products. The machine is also equipped with an automatic cleaning system, ensuring that it remains clean and ready for use at all times.

The Automatic Liquid Filling Machine is designed to be easy to use and maintain, reducing downtime and increasing efficiency. It comes with a user-friendly interface that allows operators to set the filling volume and other parameters with ease. The machine is also equipped with safety features that ensure the safety of the operators and the products being filled.

Overall, the Fully Automatic Filling And Capping Machine is an excellent choice for manufacturers who require a reliable and efficient filling and capping machine. Its high-speed performance, accuracy, and versatility make it suitable for various industries, including food and beverage, pharmaceutical, and cosmetic industries. The machine is also easy to operate and maintain, reducing downtime and increasing productivity.

The Automatic Liquid Filling Machine is available in different power supply options, including 220V/380V, 50Hz/60Hz, making it suitable for use in different countries. It is a top-of-the-line machine that can help manufacturers produce high-quality products efficiently and effectively. If you are looking for a reliable and efficient filling and capping machine, the Fully Automatic Filling And Capping Machine is an excellent choice.

#### Technical Parameters:

Capping Type	Screw Capping
Material	Stainless Steel
Filling Volume	50-1000ml
Power Supply	220V/380V, 50Hz/60Hz
Capacity	2000 Bottles Per Hour
Model	FC-2000
Air Consumption	0.5m <sup>3</sup> /min
Air Pressure	0.6-0.8MPa
Capping Diameter	20-50mm
Filling Type	Piston Filling

## Applications:

The FC-2000 model of this product is capable of filling liquid volumes between 50-1000ml, making it suitable for a wide range of products such as juices, oils, liquids, and many others. It operates at an air pressure of 0.6-0.8MPa, which is ideal for efficient and accurate filling without any spills or wastage.

One of the main features of this product is its automatic filling capability, which ensures that the filling process is quick, efficient, and accurate. It is ideal for industries that require high volumes of production and need to maintain consistency in their filling process. The capping diameter of this product ranges from 20-50mm, making it suitable for a wide range of caps and bottles.

The product application occasions for the FC-2000 model of this product are vast and varied. It can be used in industries such as cosmetics, pharmaceuticals, food and beverage, and many others. It is ideal for companies that produce liquid-based products such as shampoos, lotions, creams, and other similar products. The automatic liquid filling machine can also be used in the production of powders and granules, making it a versatile product for any production line.

When it comes to packaging, the product is shipped in a wooden box to ensure it arrives in excellent condition. The minimum order quantity for this product is one, making it accessible to small and large companies alike. Payment terms are TT, providing a secure and efficient payment process for our clients.

In conclusion, the 200L IBC fully automatic multi-functional opening, filling and capping production line is a versatile, reliable, and efficient product that can be used in a wide range of industries. It is CE certified, made of durable stainless steel material, and is capable of automatic filling and capping. It is the perfect solution for companies that require high volumes of production and need to maintain consistency in their filling process.

## Customization:

## Support and Services:

The Fully Automatic Filling And Capping Machine is a state-of-the-art product designed to meet the high demands of the modern manufacturing industry. Our technical support team is available to provide you with expert advice on how to operate and maintain the machine to ensure optimal performance and longevity. Our services include:

Installation and setup

Training and support for your staff

24/7 technical support

Regular maintenance and calibration

Repairs and replacement of parts

Our team of experienced technicians is dedicated to ensuring that your machine operates at peak efficiency, minimizing downtime and maximizing productivity. Contact us today to learn more about our technical support and services for the Fully Automatic Filling And Capping Machine.

## Packing and Shipping:

Product: Speed Automatic Piston Filling Machine with Screw Capping System and Low Air Consumption

Model: AF-1000

Capacity: 1000-2000 bottles/hour

Description:

This machine is designed for filling and capping different types of liquids such as water, juice, and oil. It is fully automatic and can fill up to 1000-2000 bottles per hour. The capping system is adjustable to fit different types of bottle caps. It is made of high-quality stainless steel and meets international quality standards.

Packaging:

The machine will be packed in a wooden crate to ensure safe transportation. The package will include the machine, user manual, and

spare parts.

Shipping:

The machine will be shipped by sea or air, depending on the customer's preference. The shipping cost will be calculated based on the destination and weight of the package. The estimated delivery time is 30-45 days by sea and 7-14 days by air.

## FAQ:

**Q: What is the brand name of this product?**

A: The brand name of this product is Speed Automatic Piston Filling Machine with Screw Capping System and Low Air Consumption

**Q: Is this product certified?**

A: Yes, this product is certified with CE certification.

**Q: What is the minimum order quantity for this product?**

A: The minimum order quantity for this product is 1.

**Q: How is this product packaged?**

A: This product is packaged in wooden boxes.

**Q: What are the payment terms for this product?**

A: The payment terms for this product are TT (Telegraphic Transfer).
