Basic Information

- Brand Name: 200L IBC fully automatic multi-functional opening, filling and capping production line
- Certification: CE
- Minimum Order Quantity: 1
- Packaging Details: wooden box
- Payment Terms: TT

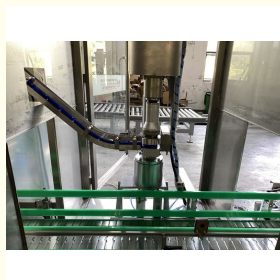

Product Specification

- Capacity: 2000 Bottles Per Hour
- Material: Stainless Steel
- Air Consumption: 0.5m³/min
- Filling Volume: 50-1000ml
- Capping Diameter: 20-50mm
- Model: FC-2000
- Power Supply: 220V/380V, 50Hz/60Hz
- Capping Type: Screw Capping
- Highlight: 2000Bottles Per Hour filling machine liquid, filling machine liquid Fully Automatic, 50mm Volume Stainless Steel Liquid Filling Machine

Product Description

Product Description:

The FC-2000 operates on a power supply of 220V/380V, 50Hz/60Hz, which makes it suitable for a wide range of applications. It is equipped with a capping diameter of 20-50mm, which ensures that the machine can handle different types of caps and closures. Furthermore, it has a filling volume of 50-1000ml, which makes it ideal for packaging liquids of different viscosities and densities. The FC-2000 is designed to deliver consistent and accurate results, thanks to its advanced control system. It is equipped with a user-friendly interface that allows you to adjust the filling and capping parameters according to your specific needs. This feature makes it easy to set the machine for different products and packaging sizes, which saves you time and effort. The FC-2000 is built to last, thanks to its durable construction and high-quality components. It is made of stainless steel, which makes it resistant to corrosion and rust. Additionally, it is equipped with an air pressure of 0.6-0.8MPa, which ensures that the machine can perform efficiently and consistently even in challenging environments. The FC-2000 is a versatile machine that can be used for a wide range of applications. Whether you need to package liquids or powders, this machine is designed to provide accurate and reliable results. With its advanced features and superior performance, the FC-2000 is the perfect choice for industries that require automatic tube filling and sealing machines, as well as automatic powder filling machines. Don't settle for less when it comes to your packaging needs. Invest in the FC-2000 Fully Automatic Filling and Capping Machine today and experience the ultimate packaging solution that delivers consistent, reliable, and high-quality results every time.

Technical Parameters:

Air Pressure	0.6-0.8MPa
Capping Diameter	20-50mm
Material	Stainless Steel
Air Consumption	0.5m³/min
Capacity	2000 Bottles Per Hour
Model	FC-2000
Power Supply	220V/380V, 50Hz/60Hz
Capping Type	Screw Capping
Filling Type	Piston Filling
Filling Volume	50-1000ml

Looking for Automatic Powder Filling Machines? Check out our Automatic Filling And Packing Machine or our Blowing Filling Capping Machine.

Applications:

With its CE certification, this Blowing Filling Capping Machine guarantees top quality and safety for all your products. It has a minimum order quantity of 1, and comes packaged in a sturdy wooden box to ensure that it arrives safely to your location. Payment terms are TT, ensuring secure transactions and peace of mind for all parties involved.

The 200L IBC fully automatic multi-functional opening, filling and capping production line is made of high-quality stainless steel, ensuring that it is durable and long-lasting. It uses a piston filling system and has an air pressure of 0.6-0.8MPa, with an air consumption of 0.5m³/min.

This Filling And Capping Machine has a capacity of 2000 Bottles Per Hour, making it perfect for high-volume production lines. It is easy to operate, with a user-friendly interface that allows for easy control of the filling and capping process. This machine is also fully automatic, which means that it can be left unattended while it fills and caps your products.

The 200L IBC fully automatic multi-functional opening, filling and capping production line is perfect for a wide range of product application occasions and scenarios. It can be used to fill and cap a variety of liquid products, including beverages, condiments, detergents, oils, and more. It is especially useful in industries that require high-speed and precise filling, such as the pharmaceutical and cosmetic industries. Overall, the 200L IBC fully automatic multi-functional opening, filling and capping production line is a top-of-the-line machine that is perfect for any business that requires high-speed and precise filling of liquid products. It is easy to operate, durable, and comes with top-notch safety features that guarantee the safety of your products. Get yours today and experience the benefits of this amazing machine!

Customization:

Brand Name: 200L IBC fully automatic multi-functional opening, filling and capping production line

Certification: CE

Minimum Order Quantity: 1

Packaging Details: wooden box

Payment Terms: TT

Filling Volume: 50-1000ml

Filling Type: Piston Filling

Capping Type: Screw Capping

Capping Diameter: 20-50mm

Air Consumption: 0.5m³/min

Our customization services allow you to tailor your Fully Automatic Filling and Capping Machine to meet your specific needs. Whether you

require Automatic Powder Filling Machines, Automatic Tube Filling And Sealing Machine, or Automatic Liquid Filling Machine, we have the expertise and experience to create a customized solution that meets your unique requirements.

Support and Services:

The Fully Automatic Filling And Capping Machine is a high-quality product designed for efficient and accurate filling and capping of various types of containers. It is equipped with advanced technology that ensures reliable and consistent performance, making it ideal for use in a wide range of industries.

Our product technical support and services are comprehensive and designed to help our customers get the most out of their investment. We offer:

Installation and training services

Technical support and troubleshooting assistance

Regular maintenance and repair services

Upgrades and customization options

Spare parts and accessories

Our team of experienced technicians is dedicated to ensuring that our customers receive the highest level of support and service. We are committed to providing timely and effective solutions to any issues that may arise, so our customers can focus on their business and achieve their goals.

Packing and Shipping:

Product Packaging:

The Fully Automatic Filling And Capping Machine will be packaged in a sturdy cardboard box.

The machine will be wrapped in bubble wrap to prevent damage during transit.

All necessary accessories and parts will be included in the package.

The package will be labeled with the product name, model number, and any other relevant information.

Shipping:

The package will be shipped via a reputable courier service.

Shipping times may vary depending on the destination.

The customer will receive a tracking number once the package has been shipped.

Any issues with shipping or delivery can be addressed by contacting our customer service team.

FAQ:

Q: What is the brand name of the product?

A: The brand name of the product is **200L IBC fully automatic multi-functional opening, filling and capping production line**.

Q: Is the product certified?

A: Yes, the product is certified with **CE certification**.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is **1**.

Q: How is the product packaged?

A: The product is packaged in **wooden boxes**.

Q: What are the payment terms for this product?

A: The payment terms for this product are **TT**.
