

## Fully Automatic 50-1000ml Piston Filling Machine With Screw Capping

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 30days
- Payment Terms: TT, D/A, D/P
- Supply Ability: 1set/week

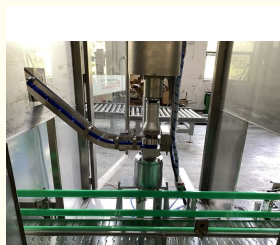

### Product Specification

- Product Name: Fully Automatic 50-1000ml Piston Filling Machine With Screw Capping
- Material: Stainless Steel
- Air Pressure: 0.6-0.8MPa
- Model: FC-2000
- Air Consumption: 0.5m³/min
- Power Supply: 220V/380V, 50Hz/60Hz
- Capping Type: Screw Capping
- Filling Volume: 50-1000ml
- Highlight: 50ml filling machine liquid,  
1000ml filling machine liquid,

## Product Description

### Fully Automatic 50-1000ml Piston Filling Machine with Screw Capping

#### Product Description:

Fully Automatic 50-1000ml Piston Filling Machine with Screw Capping that is ideal for industries that require high-speed production. It is a versatile machine that can fill and cap bottles of different sizes and shapes. With its advanced features, the machine can handle a wide range of products such as liquids, creams, ointments, and gels.

The machine is easy to operate and requires minimal human intervention. The filling process is automatic, and the machine can accurately measure the quantity of the product to be filled. The capping process is also fully automated, and the screw capping system ensures a tight seal for the bottles. This makes the machine an ideal choice for industries that require a high level of precision.

The machine is designed for durability and is made of high-quality materials that can withstand the rigors of daily use. It is also easy to clean and maintain, ensuring that it operates at its optimum level at all times.

The power supply required for this machine is 220V/380V, 50Hz/60Hz, making it suitable for use in different countries and regions. The machine is also equipped with safety features such as emergency stop buttons and safety guards to prevent accidents.

In conclusion, the Fully Automatic Filling And Capping Machine is a highly efficient and versatile Filling And Capping Machine that is suitable for use in various industries. Its advanced features, durability, and ease of use make it an ideal choice for industries that require high-speed production and a high level of precision.

#### Technical Parameters:

Capping Type	Screw Capping
Filling Type	Piston Filling
Air Consumption	0.5m <sup>3</sup> /min
Power Supply	220V/380V, 50Hz/60Hz
Capacity	2000 Bottles Per Hour
Filling Volume	50-1000ml
Air Pressure	0.6-0.8MPa
Material	Stainless Steel
Model	FC-2000
Capping Diameter	20-50mm

#### Applications:

The Fully Automatic Liquid Filling Machine is perfect for filling a wide range of liquids, including water, juice, milk, and more. With its high accuracy and precision, this machine ensures that every bottle is filled to the exact same level. It is ideal for use in a variety of industries, including food and beverage, pharmaceuticals, and more.

The Blowing Filling Capping Machine is a versatile machine that can be used for a wide range of applications. It is perfect for filling and capping bottles of various sizes and shapes. Its screw capping mechanism ensures a tight seal, preventing leaks and spills. This machine is perfect for use in industries such as cosmetics, cleaning products, and more.

The Fully Automatic Filling and Capping Machine is designed to be user-friendly and easy to operate. It requires a minimal amount of training, making it a great choice for small businesses and startups. The machine is also designed to be easy to clean and maintain, ensuring that it remains in top working condition for years to come.

The FC-2000 Model is a high-quality machine that is built to last. It is designed to withstand the rigors of daily use and is made from the highest quality materials. The machine requires an air pressure of 0.6-0.8MPa and has an air consumption of 0.5m³/min. It operates on a power supply of 220V/380V, 50Hz/60Hz.

When you order the Blowing Filling Capping Machine, you can expect it to arrive in a sturdy wooden box. Payment terms are TT, making it easy to order and pay for your machine. Whether you are a small business or a large corporation, the Fully Automatic Filling and Capping Machine is the perfect choice for all of your filling and capping needs.

## Customization:

Fully Automatic 50-1000ml Piston Filling Machine with Screw Capping :

Certification: **CE**

Minimum Order Quantity: **1**

Packaging Details: **wooden box**

Payment Terms: **TT**

Material: **Stainless Steel**

Air Consumption: **0.5m³/min**

Air Pressure: **0.6-0.8MPa**

Filling Type: **Piston Filling**

Capping Type: **Screw Capping**

We offer customization services for the **200L IBC fully automatic multi-functional opening, filling and capping production line**, also known as the Blowing Filling Capping Machine, Automatic Filling And Packing Machine, or Automatic Filling And Capping Machine. Contact us to discuss your customization needs.

## Support and Services:

The Fully Automatic Filling and Capping Machine provides a reliable and efficient solution for filling and capping a wide range of products. It is designed to handle various types of containers and can be customized to meet specific production needs. Our technical support team is available to assist with any issues that may arise and can provide training to ensure optimal performance. Additionally, we offer maintenance and repair services to keep the machine running smoothly and minimize downtime. Contact us for more information on our support and services.

## Packing and Shipping:

Product Packaging:

One Fully Automatic Filling And Capping Machine

User Manual

Spare Parts Kit

Shipping:

Shipping Method: Ground Shipping

Estimated Delivery Time: 5-7 Business Days

Shipping Cost: Free

Shipping Restrictions: This product can only be shipped within the United States

## FAQ:

Here are the frequently asked questions and answers about the 200L IBC fully automatic multi-functional opening, filling and capping production line:

Q: What is the brand name of this filling and capping machine?

A: The brand name is Fully Automatic 50-1000ml Piston Filling Machine with Screw Capping

Q: Is this product certified?

A: Yes, it is certified with CE.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity is 1.

Q: How is the product packaged?

A: The product is packaged in wooden boxes.

Q: What are the payment terms for this product?

A: The payment terms are TT.
