

25L Lube Oil Filling Machine 380V With Granulation Rate $\geq 95\%$

Our Product Introduction

for more products please visit us on sg-packs.com

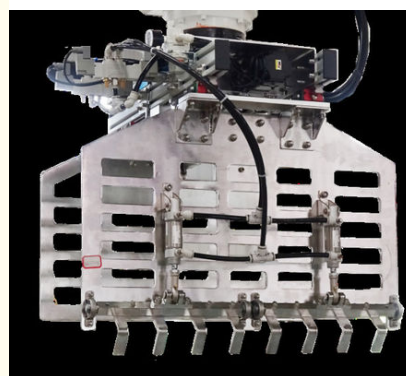

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, D/A, D/P
- Supply Ability: 1set/week

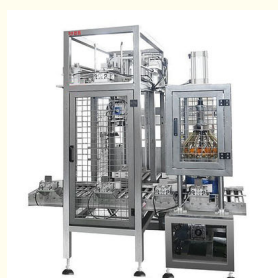

Product Specification

- Product Name: 25L Lube Oil Filling Machine 380V With Granulation Rate $\geq 95\%$ Lube Oil Filling Machine
- Automatic Grade: Automatic, Semi-Automatic
- Certification: CE
- Weight: 800kg
- Driven Type: Electric
- Type: Filling Machine, vegetable Oil Filling Packaging Machine
- Application: Medical, Chemical
- After-sales Service Provided: Engineers Available To Service Machinery Overseas, Online Support
- Voltage: 220V/110V, 380V
- Warranty: 1 Year

Product Description

25L Lube Oil Filling Machine 380V With Granulation Rate $\geq 95\%$ Lube Oil Filling Machine

Product Description:

The Lube Oil Filling Machine is a Powder Encapsulation Machine that is designed to granulate powders with a particle size of 0.5-3mm. The machine is designed to cater to the needs of the lubricant oil industry, and it ensures that the moisture content of the raw material is not more than 15%. The machine is well-built with a dimension of 1200*800*1500mm, which makes it easy to install and operate. The Granulation Equipment for Powders is capable of producing a capacity of 1-10 Tons/hour, which makes it suitable for industries with high production rates. This machine is highly efficient and can fill lubricant oil into different containers such as bottles, cans, and pouches. The machine is designed to operate at a high speed, which ensures that the production process is fast and efficient. The Lube Oil Filling Machine is designed with several features that make it stand out from other filling machines in the market. The machine is easy to operate, and it requires minimal training to operate. The machine is highly efficient, and it ensures that the filling process is fast and accurate. The machine is designed to produce low noise during operation, which makes it ideal for use in a production environment. The machine is well-built with high-quality materials that ensure that it is durable and long-lasting. This machine is a must-have for industries that require high production rates and efficient filling machines.

Technical Parameters:

Technical Parameter	Value
Model	SG30F
Capacity	1-10 Tons/hour
Power	5-30 KW
Material	Stainless Steel
Weight	500-1000kg
Voltage	380V
Granulation Rate	$\geq 95\%$
Warranty	1 Year
Particle Size Of Finished Product	0.5-3mm
Features	High Efficiency, Easy Operation, Low Noise
Product Type	Particle forming granulator, Powder granulator series, Powder granulator series

Applications:

The 25L lube oil filling production line is a high-quality product that is widely used in various industries. Its powder processing granulator is ideal for producing particle-forming granules with a granulation rate of $\geq 95\%$, making it an excellent choice for companies looking to optimize their production processes. The machine is made of stainless steel, ensuring that it is durable and long-lasting.

The 25L lube oil filling production line is perfect for companies that produce lube oil and need to fill containers of various sizes. The machine is designed to fill containers quickly and efficiently, making it an ideal choice for companies that need to fill large quantities of containers in a short amount of time.

The powder granulator series of the 25L lube oil filling production line is ideal for companies that manufacture powders and need to convert them into granules. The machine is easy to use and can be customized to meet the specific needs of each company.

The 25L lube oil filling production line is also suitable for companies that need to fill containers with other types of liquids, such as chemicals or cleaning products. The machine can be easily adjusted to accommodate different types of liquids, making it a versatile and valuable investment for any company.

The 25L lube oil filling production line is a heavy-duty machine that weighs between 500-1000kg. It has a compact dimension of 1200*800*1500mm, making it easy to move around and fit in tight spaces. The machine runs on a voltage of 380V, ensuring that it is powerful enough to handle even the most demanding production processes.

Customization:

Customize your 25L lube oil filling production line with our product customization services. Choose from a range of options including:

Voltage: 380V

Warranty: 1 Year

Frequency: 50Hz

Particle Size Of Finished Product: 0.5-3mm

Weight: 500-1000kg

Our granulation equipment for powders ensures efficient and reliable production of your lube oil filling machine. Choose from our selection of particle forming granulators to achieve the desired particle size of your finished product.

Support and Services:

The Lube Oil Filling Machine is a high-quality product that is designed to fill lubricants into containers of various sizes. It is equipped with advanced technology that ensures precise filling and prevents overfilling.

Our technical support team is available to assist you with any questions or issues you may have with your Lube Oil Filling Machine. Our team has extensive knowledge of the product and can provide troubleshooting assistance, maintenance advice, and training on how to operate the machine.

In addition to technical support, we also offer various services to ensure your Lube Oil Filling Machine is running at its best. These services include installation, calibration, and regular maintenance to prevent any potential issues or downtime. We also offer customization options to ensure the machine meets your specific needs and requirements.

Packing and Shipping:

Product Packaging:

Wooden crate packaging

Protective foam padding to prevent damage during transportation

Clear labeling for easy identification of contents

Shipping:

Ships via sea or air freight

Delivery times vary based on customer location and shipping method chosen

Tracking information provided once product is shipped

FAQ:

Q: What is the brand name of this lube oil filling machine?

A: The brand name of this machine is 25L lube oil filling production line.

Q: What is the maximum capacity of this machine?

A: The maximum capacity of this machine is 25 liters.

Q: Can this machine fill different types of lube oil?

A: Yes, this machine can fill different types of lube oil such as engine oil, hydraulic oil, and gear oil.

Q: Is this machine easy to operate?

A: Yes, this machine is designed to be user-friendly and easy to operate. It comes with a user manual for guidance.

Q: Can I customize this machine to fit my specific needs?

A: Yes, we offer customization services to meet your specific requirements. Please contact us for more information.
