

## Stainless Steel 304/316L Material Lubricant Filling Machine Moisture Content Of Raw Material $\leq 15\%$

Our Product Introduction

for more products please visit us on [sg-packs.com](http://sg-packs.com)

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG1-5F
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

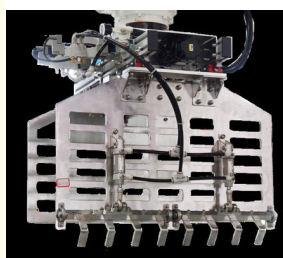

### Product Specification

- Product Name: Oil Filling Machine Lube Oil Filling Machine With And Moisture Content Of Raw Material  $\leq 15\%$
- Automatic Grade: Automatic, Semi-Automatic
- Certification: CE
- Type: Filling Machine, vegetable Oil Filling Packaging Machine
- Packaging Type: Cans, Barrel, Cartons
- Application: Medical, Chemical
- After-sales Service Provided: Engineers Available To Service Machinery Overseas, Online Support
- Voltage: 220V/110V, 380V
- Warranty: 1 Year
- Material: Stainless Steel 304 / SUS316L

## Product Description

### Oil Filling Machine Lube Oil Filling Machine With And Moisture Content Of Raw Material $\leq 15\%$

#### Product Description:

The Lube Oil Filling Machine is equipped with state-of-the-art technology that allows it to accurately fill containers with lube oil. It has a power range of 5-30 KW, making it energy-efficient and cost-effective. This filling machine is suitable for use in various industrial applications, including the automotive, aviation, and marine industries.

The moisture content of the raw material used in the Lube Oil Filling Machine is  $\leq 15\%$ , which ensures that the lube oil is of high quality and free from contaminants. This filling machine is easy to operate and maintain, making it an ideal choice for businesses that require a reliable and efficient filling machine.

The Lube Oil Filling Machine comes with a 1-year warranty, which gives customers peace of mind knowing that they are investing in a high-quality and reliable product. This filling machine is part of the Powder granulator series, Powder agglomeration equipment, and Granulation machinery for powders. It is designed to meet the needs of businesses in the lubricant and oil industry, with its high level of accuracy and efficiency.

In summary, the Lube Oil Filling Machine is a highly reliable, efficient, and cost-effective filling machine that is designed to meet the needs of businesses in the lubricant and oil industry. It is made from high-quality stainless steel material and has a power range of 5-30 KW. With a weight of 500-1000kg, this filling machine is heavy-duty and can handle large volumes of lube oil. It comes with a 1-year warranty and is part of the Powder granulator series, Powder agglomeration equipment, and Granulation machinery for powders.

#### Technical Parameters:

Frequency	50Hz
Material	Stainless Steel
Application	Pharmaceutical, Chemical, Food, And Other Industries
Warranty	1 Year
Granulation Rate	$\geq 95\%$
Moisture Content Of Raw Material	$\leq 15\%$
Weight	500-1000kg
Capacity	1-10 Tons/hour
Voltage	380V
Dimension	1200*800*1500mm

This Lube Oil Filling Machine is a powder processing granulator that can be used in a variety of industries, such as pharmaceutical, chemical, food, and others. It is made of stainless steel and comes with a 1-year warranty. The machine has a granulation rate of at least 95% and can handle raw materials with a moisture content of up to 15%. It weighs between 500-1000kg and has a capacity of 1-10 tons per hour. The voltage required to operate this machine is 380V and its dimensions are 1200\*800\*1500mm. Additionally, this machine can also be used as a powder encapsulation machine or powder compaction granulator.

### Applications:

The 25L lube oil filling production line is also ideal for use in powder agglomeration equipment, powder encapsulation machine, and powder compaction granulator. The machine is capable of handling a variety of particle sizes, ranging from 0.5mm to 3mm, making it an ideal choice for businesses that need to work with different types of powders. Additionally, the machine is equipped with a range of features that make it easy to operate, such as an intuitive control panel and a user-friendly interface.

Another great feature of the 25L lube oil filling production line is its power. With 5-30KW of power, this machine is capable of handling even the toughest jobs with ease. Additionally, the machine comes with a 1-year warranty, giving businesses peace of mind knowing that they are protected against any defects or issues that may arise.

Overall, the 25L lube oil filling production line is a versatile and reliable product that is perfect for a variety of applications. Whether you need a machine for industrial production, powder agglomeration equipment, powder encapsulation machine, or powder compaction granulator, this product is sure to meet your needs. So why wait? Invest in the 25L lube oil filling production line today and start enjoying the benefits of high efficiency, easy operation, and low noise!

### Customization:

### Support and Services:

The Lube Oil Filling Machine is a high-quality product that requires technical support and services to ensure its proper functioning. Our team of experienced technicians is available to provide assistance with installation, maintenance, and troubleshooting of the machine.

Our technical support services include:

- On-site installation and commissioning of the machine

- Training and guidance for operation and maintenance

- Regular machine inspection and maintenance

- 24/7 technical support for any issues or concerns

- Supply of spare parts and components

Our goal is to ensure that your Lube Oil Filling Machine operates at peak efficiency and productivity with minimal downtime. Contact us for more information on our technical support and services.

### Packing and Shipping:

#### Product Packaging:

The Lube Oil Filling Machine will be packed in a sturdy wooden crate to ensure safe transportation.

All machine components will be securely fastened and adequately protected to prevent damage during transit.

The crate will be clearly labeled with the product name, model number, and any handling instructions.

#### Shipping:

The Lube Oil Filling Machine will be shipped via a reputable carrier to the customer's specified address.

The customer will be provided with a tracking number and estimated delivery date.

Shipping costs will be calculated based on the customer's location and the weight and dimensions of the crate.

The customer is responsible for any customs duties or taxes that may apply.

### FAQ:

**Q: What is the brand name of this lube oil filling machine?**

A: The brand name of this lube oil filling machine is 25L lube oil filling production line.

**Q: What is the filling capacity of this machine?**

A: This machine has a filling capacity of 25 liters.

**Q: Can this machine be used for filling other types of liquids besides lube oil?**

A: Yes, this machine can be used for filling other types of liquids besides lube oil as long as the viscosity of the liquid is similar to that of lube oil.

**Q: What is the accuracy of the filling process?**

A: The accuracy of the filling process is +/- 0.5%.

**Q: Does this machine require any special installation or setup?**

A: Yes, this machine requires a flat and stable surface for installation and may require some initial setup by a trained technician.
