

## Auto Production Chemical Filling Machine 0.6m3/Min Air Consumption

Our Product Introduction

for more products please visit us on sg-packs.com

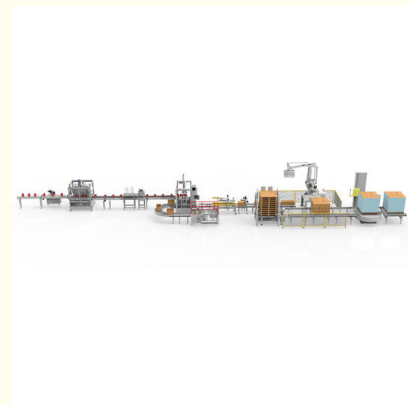

### Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG30FY-A
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

### Product Specification

- Product Name: Auto Filling Machine Chemicals Filling Machine For Production 0.6m3/Min Air Consumption
- Condition: New
- Voltage: 220V,380V/50HZ
- Automatic Grade: Automatic,Semi-Automatic
- Application: Machinery & Hardware,Medical
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Certification: CE
- Warranty: 1 Year
- Highlight: Auto Production Chemicals Filling Machine, Auto Chemicals Filling Machine, 0.6m3/Min Chemicals Filling Machine

## Product Description

### Auto Filling Machine Chemicals Filling Machine For Production 0.6m<sup>3</sup>/Min Air Consumption

#### Product Description:

The Automatic Chemicals Filling Machine comes equipped with 4 filling nozzles, allowing you to fill up to 4 containers simultaneously. This means you can fill more containers in less time, increasing your productivity and efficiency. The machine is also equipped with a PLC control system, which ensures accurate and consistent filling every time.

This machine is designed to fill volumes ranging from 25L to 200L, making it perfect for a wide range of chemical products. With its high accuracy and consistency, you can be sure that each container is filled to the exact volume you require. This helps to reduce waste and improve the quality of your finished products.

The Automatic Chemicals Filling Machine is specifically designed for use with chemical products. It is constructed using high-quality materials that are resistant to the corrosive effects of many chemicals. This ensures that the machine is durable and long-lasting, even when used with harsh chemical products.

The machine operates using air pressure, with a recommended pressure range of 0.6-0.8Mpa. This ensures that the filling process is quick and efficient, with minimal downtime between fills. The machine is also easy to clean and maintain, reducing the need for frequent downtime and repair.

In conclusion, the Automatic Chemicals Filling Machine is an essential piece of equipment for any business involved in the production and distribution of chemical products. With its advanced features and high accuracy, this machine can help streamline your filling process and improve the quality of your finished products. So why wait? Invest in the Automatic Chemicals Filling Machine today and take your business to the next level!

#### Features:

Product Name: Automatic Chemicals Filling Machine

Power Supply: 220V/50Hz

Touch Screen: 7 Inch

Control System: PLC

Material: Stainless Steel

Bottle Type: Round/Square/Oval

#### Technical Parameters:

Model:	AFM-1000
Material:	Stainless Steel
Application:	Chemicals
Capacity:	1000 Bottles/hour
Filling Volume:	25L-200L
Filling Nozzle:	4
Filling Accuracy:	±0.5%
Air Pressure:	0.6-0.8Mpa
Air Consumption:	0.6m <sup>3</sup> /min
Touch Screen:	7 Inch

## Applications:

The Automatic Chemicals Filling Machine is equipped with advanced technology that allows it to automatically fill a wide range of chemical products, including cleaning solutions, detergents, solvents, and other liquids. Its advanced features and capabilities make it easy to use, reliable, and efficient, which is crucial for businesses that require consistent and accurate filling operations.

The AFM-1000 model is a top-of-the-line Automatic Chemicals Filling Machine that comes with 4 filling nozzles. This makes it possible to fill up to 1000 bottles per hour, which is ideal for businesses that require high-speed filling operations. Additionally, the machine is capable of handling a wide range of bottle sizes and shapes, making it a versatile and adaptable solution for any industry.

The Automatic Chemicals Filling Machine is designed to operate under air pressure of 0.6-0.8Mpa, which ensures consistent and accurate filling operations. This feature guarantees that the machine can handle different types of chemicals, including those that are thick and viscous, without compromising on quality or performance.

The Automatic Chemicals Filling Machine is perfect for various occasions and scenarios, including factories, laboratories, and production lines that require consistent and accurate filling operations. It is also ideal for businesses that require high-speed filling operations without compromising on quality and precision.

Overall, the Automatic Chemicals Filling Machine is a reliable, efficient, and versatile solution for businesses that require high-quality filling operations. Its advanced features and capabilities make it a must-have for any industry that deals with chemicals and other liquids.

## Customization:

Brand Name: Automatic Chemicals Filling Machine

Filling Nozzle: 4

Material: Stainless Steel

Power Supply: 220V/50Hz

Application: Chemicals

Power Consumption: 1.5KW

Our team of experts can work with you to create a personalized solution that meets your requirements. Whether you need additional filling nozzles or a different power supply, we can make it happen.

Trust us to provide the best Automatic Chemicals Filling Machine customization services to meet your needs. Contact us today to get started!

## Support and Services:

The Automatic Chemicals Filling Machine is a highly efficient and reliable solution for filling various types of chemicals. Our technical support team is always available to answer any questions and provide assistance with the installation and operation of the machine. We also offer maintenance services to ensure the machine is running at optimal performance. Additionally, we provide training sessions for operators to ensure safe and efficient use of the machine. Our goal is to ensure customer satisfaction and maximize the productivity of your business.

## Packing and Shipping:

### Product Packaging:

The Automatic Chemicals Filling Machine comes in a sturdy cardboard box with foam inserts to protect the machine during shipping. The box dimensions are 30 inches (L) x 20 inches (W) x 25 inches (H). The machine is also wrapped in plastic to further protect it from any potential damage during transit.

### Shipping:

The Automatic Chemicals Filling Machine is shipped via standard ground shipping and is typically delivered within 5-7 business days from the date of purchase. Shipping is free within the continental United States. For international orders, please contact us for a shipping quote.
