

Automatic Round / Square / Oval Bottles Auto Chemical Filling Machine

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG1-5F
- Minimum Order Quantity: 1
- Price: 15000USD
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

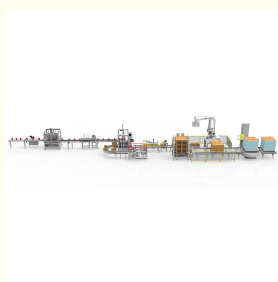

Product Specification

- Product Name: Automatic Chemicals Filling Machine For Round/Square/Oval Bottles Auto Filling Machine
- Automatic Grade: Automatic, Semi-Automatic
- Weight: 500Kg, 2000 KG
- Power: 3HP 380V 50HZ (or As The Client Request)
- Application: Machinery & Hardware, Medical
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Certification: CE
- Warranty: 1 Year
- Color: According To Your Demand, customized
- Highlight: Square Bottle Chemicals Filling Machine, Round Bottle Chemicals Filling Machine,

Product Description

Automatic Chemicals Filling Machine For Round/Square/Oval Bottles Auto Filling Machine

Product Description:

The Automatic Chemicals Filling Machine is equipped with a PLC control system which makes it easy to operate and monitor the filling process. The control system helps to ensure that the filling process is accurate and consistent, thereby reducing the chances of errors and wastage. With this machine, you can be assured of high-quality and precise filling every time.

The machine comes with four filling nozzles which helps to increase the speed of the filling process. This ensures that you can fill a large number of bottles in a short amount of time. The four nozzles also help to reduce the waiting time between filling each bottle, further increasing the efficiency of the machine.

The Automatic Chemicals Filling Machine is made from high-quality stainless steel which makes it durable and resistant to corrosion. This material is ideal for use in the chemical industry as it is easy to clean and sanitize, ensuring that the filling process is hygienic and safe. The machine is also designed to be easy to maintain, reducing downtime and ensuring that it is always in good working condition.

The Automatic Chemicals Filling Machine is suitable for a wide range of chemical filling applications. Whether you are filling liquids, oils, or viscous products, this machine is capable of handling them all. With its high level of accuracy and consistency, you can be assured of quality filling every time.

In summary, the Automatic Chemicals Filling Machine is an excellent investment for any business that needs to automate its filling process. With its PLC control system, four filling nozzles, and high-quality stainless steel construction, this machine provides accuracy, speed, and consistency in the filling process. Whether you are filling round, square, or oval bottles, this machine is capable of handling them all. So, if you are looking for an automatic chemicals filling machine, look no further than the Automatic Chemicals Filling Machine.

Features:

Product Name: Automatic Chemicals Filling Machine

Power Supply: 220V/50Hz

Filling Volume: 25L-200L

Material: Stainless Steel

Air Pressure: 0.6-0.8Mpa

Filling Accuracy: $\pm 0.5\%$

Technical Parameters:

| Attribute | Value |
|-----------------|---------------------------|
| Application | Chemicals Filling Machine |
| Model | AFM-1000 |
| Power Supply | 220V/50Hz |
| Material | Stainless Steel |
| Air Pressure | 0.6-0.8Mpa |
| Bottle Type | Round/Square/Oval |
| Touch Screen | 7 Inch |
| Air Consumption | 0.6m ³ /min |
| Filling Nozzle | 4 |
| Capacity | 1000 Bottles/hour |

Applications:

The Automatic Chemicals Filling Machine is perfect for the pharmaceutical, food, cosmetic, and chemical industries. This machine is capable of filling various types of bottles, including round, square, and oval bottles, making it a versatile product that can cater to the needs of different industries.

The Automatic Chemicals Filling Machine has a power consumption of 1.5KW, which makes it an energy-efficient product that can save you money on your energy bills. Additionally, this machine has an air consumption of 0.6m³/min, which makes it an environmentally friendly product that can help reduce your carbon footprint.

The Automatic Chemicals Filling Machine is equipped with a PLC control system that ensures accurate and precise filling of chemicals. This control system enables you to set the desired amount of chemicals to be filled, and the machine will automatically fill the bottle with the exact amount of chemicals required.

The Automatic Chemicals Filling Machine is perfect for various occasions and scenarios. For instance, it is perfect for filling liquid chemicals such as shampoo, lotion, oil, and other similar products. This machine is also suitable for filling powder and granular chemicals such as detergent, salt, sugar, and other similar products.

In conclusion, the Automatic Chemicals Filling Machine is an excellent product that can cater to the needs of various industries. This machine is designed to be energy-efficient, environmentally friendly, and precise in filling chemicals. If you are in the business of filling chemicals, the Automatic Chemicals Filling Machine is a product that you should consider investing in.

Customization:

Customize your Automatic Chemicals Filling Machine to meet your specific requirements:

Air Consumption: Choose the air consumption rate that suits your production needs.

Filling Nozzle: Customize the number of filling nozzles on your machine. Choose from 4, 6, or more.

Application: Our Chemicals Filling Machine is designed specifically for chemical filling applications.

Filling Volume: Choose the filling volume that works best for your production needs. Our machine can handle volumes from 25L to 200L.

Bottle Type: Our machine can fill round, square, or oval bottles.

Get the most out of your Automatic Chemicals Filling Machine with our customization services.

Support and Services:

The Automatic Chemicals Filling Machine is a high-tech and fully automated system designed to accurately fill chemicals into containers. It comes with advanced features that ensure precision, speed, and efficiency. Our technical support and services cover the following areas:

Installation and Commissioning:

We provide on-site installation and commissioning of the equipment to ensure that it is set up correctly and operating at optimal performance.

Maintenance and Repair:

We offer regular maintenance services to keep the equipment in good condition and prevent breakdowns. In case of any malfunction, we provide quick and efficient repair services to minimize downtime.

Training and Support:

We provide comprehensive training to operators and maintenance personnel to ensure that they are proficient in operating and maintaining the equipment.

We also offer technical support to address any issues or concerns that may arise during the operation of the equipment.

Upgrades and Customization:

We offer upgrades and customization services to meet the specific needs and requirements of our clients.

We can also provide customized solutions for unique applications and processes.

Packing and Shipping:

Product Packaging:

The Automatic Chemicals Filling Machine will be packaged securely in a cardboard box with foam padding to prevent any damage during shipping. The machine will be disassembled into multiple parts and each part will be individually wrapped and secured with plastic or foam to ensure safe transportation.

Shipping Information:

The Automatic Chemicals Filling Machine will be shipped via a reputable courier service, such as FedEx or DHL, to ensure timely and reliable delivery. The shipping cost will be calculated based on the destination and the weight of the package. The estimated delivery time will be provided upon purchase.
