

Chemical Industry 5-30 KW Olive Oil Filling Machine 1-10 Tons/Hour Efficiency

Our Product Introduction

for more products please visit us on sg-packs.com

Basic Information

- Place of Origin: china
- Brand Name: SG
- Certification: CE
- Model Number: SG200F-A
- Minimum Order Quantity: 1
- Price: 10000usd
- Packaging Details: wooden box
- Delivery Time: 3months
- Payment Terms: T/T, L/C, D/A, D/P
- Supply Ability: 1set/week

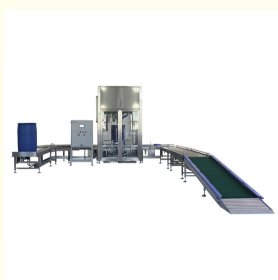

Product Specification

- Product Name: Chemical Industry Olive Oil Filling Machine
Lube Oil Filling Machine 5-30 KW 1-10
Tons/Hour Efficiency
- Automatic Grade: Automatic, Semi-Automatic
- Certification: CE
- Weight: 800kg
- Type: Filling Machine, vegetable Oil Filling
Packaging Machine
- Packaging Type: Cans, Barrel, Cartons
- Application: Medical, Chemical
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Voltage: 220V/110V, 380V
- Warranty: 1 Year

Product Description

Chemical Industry Olive Oil Filling Machine Lube Oil Filling Machine 5-30 KW 1-10 Tons/Hour Efficiency

Product Description:

The PGS Lube Oil Filling Machine is a top-of-the-line granulation machinery for powders, featuring an impressive granulation rate of $\geq 95\%$. This means you can rest assured that your materials will be processed with utmost efficiency and accuracy, resulting in consistent and reliable output every time.

Designed for heavy-duty use, the PGS Lube Oil Filling Machine boasts a power range of 5-30 KW, making it perfect for a wide range of applications. Whether you're working with small-scale production or large-scale manufacturing, this machine is capable of handling all your granulation needs with ease.

In addition to its impressive performance capabilities, the PGS Lube Oil Filling Machine is also built to last. With a weight range of 500-1000kg, this granulation machinery is both durable and sturdy, ensuring that it will withstand even the most demanding environments. So if you're looking for a reliable and efficient powder agglomeration equipment, look no further than the PGS Lube Oil Filling Machine. With its advanced features, high-quality design, and exceptional performance capabilities, this machine is the perfect choice for anyone looking to take their granulation processes to the next level.

Technical Parameters:

| Technical Parameter | Value |
|-----------------------------------|--|
| Material | Stainless Steel |
| Moisture Content Of Raw Material | $\leq 15\%$ |
| Application | Pharmaceutical, Chemical, Food, And Other Industries |
| Model | PGS |
| Particle Size Of Finished Product | 0.5-3mm |
| Power | 5-30 KW |
| Voltage | 380V |
| Frequency | 50Hz |
| Weight | 500-1000kg |
| Granulation Rate | $\geq 95\%$ |

Product Keywords: Powder processing granulator, Powder spheroidization granulator, Powder spheroidization granulator

Applications:

The 25L lube oil filling production line is a versatile machine that can be used in a variety of scenarios. The machine can be used to fill lube oil into 25L containers, making it suitable for use in factories that produce lube oil in large quantities. The machine is also suitable for use in industrial settings where lube oil is used in large quantities. The machine is easy to operate and can be used by anyone with basic training.

The 25L lube oil filling production line is equipped with a powder spheroidization granulator, which ensures that the lube oil is filled into the containers accurately and without any spills. The machine is also equipped with powder agglomeration equipment, which ensures that the lube oil is properly mixed before it is filled into the containers. The machine is part of the powder granulating machine series, which is known for its high quality and reliability.

The 25L lube oil filling production line has a dimension of 1200*800*1500mm, which makes it easy to transport and install. The machine has a capacity of 1-10 Tons/hour, which means that it can fill a large number of containers in a short amount of time. The machine has a granulation rate of $\geq 95\%$, which means that it can fill the containers accurately and without any spills.

The 25L lube oil filling production line requires a voltage of 380V and a frequency of 50Hz, which makes it suitable for use in most industrial settings. The machine is easy to maintain and requires minimal maintenance. The machine is also equipped with safety features, which ensures that it can be operated safely without any risk of accidents.

Customization:

Product Customization Services for Chemical Industry Olive Oil Filling Machine Lube Oil Filling Machine 5-30 KW 1-10 Tons/Hour Efficiency:

Brand Name: lube oil filling production line

Power: 5-30 KW

Features: High Efficiency, Easy Operation, Low Noise

Particle Size Of Finished Product: 0.5-3mm

Application: Pharmaceutical, Chemical, Food, And Other Industries

Frequency: 50Hz

Customization services available for Particle forming granulator, Particle forming granulator, and Powder granulating machine series.

Support and Services:

The Lube Oil Filling Machine is a high-quality product designed to efficiently fill lube oil into containers of various sizes. Our technical support team is available to assist with any issues or questions related to the operation of the machine. Additionally, we offer a range of services to ensure that your machine is properly maintained and operating at peak performance. These services include:

Installation and setup

Regular maintenance and inspections

Repairs and replacement of parts

Training for operators and maintenance staff

Our goal is to ensure that your Lube Oil Filling Machine operates reliably and efficiently, minimizing downtime and maximizing productivity for your business.

Packing and Shipping:

Product Packaging:

Each machine will be packed in a sturdy wooden crate to ensure safe transportation.

The crate will be securely fastened to prevent any damage during shipping.

All necessary accessories will be included in the crate.

Shipping:

The machine will be shipped via sea or air, depending on the customer's preference and location.

Shipping costs will be calculated based on the destination and mode of transportation.

We will work with the customer to arrange for a timely and convenient delivery.

FAQ:

Q: What is the brand name of the lube oil filling machine?

A: The brand name of the machine is lube oil filling production line.

Q: What is the capacity of the lube oil filling machine?

A: The machine has a capacity of 25 liters.

Q: Can the lube oil filling machine fill different types of oil?

A: Yes, the machine can fill different types of oil with varying viscosities.

Q: Is the lube oil filling machine easy to operate?

A: Yes, the machine is designed for easy operation and can be operated by a single person.

Q: What is the accuracy of the lube oil filling machine?

A: The machine has a high filling accuracy of $\pm 0.5\%$.
